English Mail Summary. (dates to September 30.) There is likely to be a contest for the Mayoralty of the city of London. This unusual event has been brought about by the inability, through infirm health, of Mr. Alderman Dakin, first senior Alderman, to take upon himself at present the duties of the office.

The death is this week recorded of Lieutenant-General Perronet, and of Mr. Watts, of the British Museum. The former was editor for some years of the Westminster Review, but was best known as an advocate of free trade.

The latter was a laborious scholar, distinguished for his acquaintance with Slavonic and Hungarian literatures and with philology generally, whose labors in connection with the library of the British Museum have received the highest commendation.

Mr. Bright, with reference to one of the numerous pamphlets recently published advocating a return to a Protectional policy, has written a letter in which he accounts for the movement by describing it as a trick of the Tory party, who cannot appeal otherwise to the multitude. He believes that the good harvest will restore health to the general trade, and that Lancashire people will understand that what they require is more cotton, not more taxes upon imports.

The election inquiry at Norwich has been adjourned till the 27th September. At Bridgewater and Beverly the Commissioners continue to sit, and they receive evidence of a very extensive system of bribery at both places. It was stated that at Bridgewater upwards of £5,000 was spent by the Liberals in the election of July, 1866.

A report is published this morning from Gibraltar of the cruise of the Lords of the Admiralty, who embarked from Plymouth Sound on the 23d and were on the 31st August at Gibraltar.

Meetings continue to be held with relation to the Albert Insurance Company. Intelligence from New Zealand announced that the rebellion was increasing, and that a great alarm prevailed. The 18th Regiment had been detained in the island.

At the Cutlers' Feast at Sheffield, Mr. Roebuck denounced the parsimony said to be applied to the naval and military services. Mr. Reed, the Chief Constructor of the Navy, recognized the spirit in which Mr. Roebuck spoke, but made out a good case for economy as now understood at the Admiralty.

General the Hon. Sir Charles Gore, G.C.B., Lieutenant-Governor of Chelsea Hospital, died on September 8th. The Bishops' Resignation Act begins to bear good fruit. It was announced on Thursday that the Bishop of Bath and Wells had resigned his see, and it is understood that the Bishop of Winchester will do so soon as the business of the diocese may permit.

The Archbishop of Canterbury, in a remarkable address to the clergy of the rural deanery of West Dartford, calls attention to the spread of infidelity on one hand and of superstition on the other, all over Europe, and points out what in his opinion the duties of the Church are under the circumstances.

CURES AND COMFORT FOR THE BED-RICKEN.

Holloway's Ointment. This wonderful Ointment acts like magic in relieving all curing old sores, wounds, bad legs, ulcers and eruptions of the skin; when rubbed on the surface it penetrates and purifies each tissue on its passage, and cures the most wholesome inflammation of the internal structures it heals by cleansing animal fluids with which it comes in contact, and thereby promotes a sound and permanent cure.

Gout and Rheumatism. Sufferers from these painful and distressing affections should be treated with Holloway's Ointment. It is most remarkable; it seems at once to lessen inflammation, ease pain, reduce the swelling, restore natural circulation, and expels the disease. For the above complaints Holloway's Ointment and Pills are infallible.

Diphtheria, Bronchitis, Sore Throats, Coughs and Colds. This class of diseases may be cured by wallrubbing the Ointment, three times a day, upon the throat chest and back of the patient. It will soon penetrate and give immediate relief. In all stages of Influenza, Colds and Bronchitis, this treatment may be followed with efficiency and safety—indeed, it has never been known to fail.

All Varieties of Skin Diseases, Scrofula and Scoury. The Ointment is a certain cure for Ringworm, Scoury Scrofula, and the most inveterate skin diseases to which the human race is subject. They cannot be treated with safety or more speedily removed than by Holloway's Ointment. The cause of the evil must be looked for in the liver and stomach, therefore set to work earnestly by taking Holloway's famous Pills according to the printed instructions, and rubbing the Ointment over the pit of the stomach and right side where those organs lie. Most scrofulous cases will yield to the combined influence of the Ointment and Pills.

Filias, Fistulas, and Internal Inflammation. These complaints are most distressing to both body and mind, and are the result of impure blood. Persons suffer from these and similar complaints when they might be cured by the use of Holloway's Ointment and Pills. It is a certain cure for all these affections, and is the only one that can be relied upon without the annoyance of explaining their cause to any one.

Disorders of the Kidneys, Stone and Gravel. This is a most distressing and painful complaint. If it is not cured, it will eventually lead to the formation of a stone in the bladder, and perseverance will be necessary to effect a cure.

Both the Ointment and Pills should be used in the following cases: Bad Legs, Ulcers, Scalds, Burns, Stiff Joints, Rheumatism, Gout, Dropsy, Swellings, Pains, Bruises, Sprains, Strains, Stomachic Disorders, Indigestion, Nausea, Vomiting, Diarrhoea, Dysentery, Cholera, Typhoid Fever, Typhus, and all other diseases arising from impure blood.

Ayer's Sarsaparilla, FOR PURIFYING THE BLOOD.

The reputation of this excellent medicine enjoys a deservedly high position. It is derived from its curative powers, many of which are truly marvellous. In various cases of Scrofulous disease, where the system seemed saturated with corruption, it has been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous disease is one of the most destructive enemies of our race. Often, this unseen and unfelt taint of the organism undermines the constitution, without exciting a suspicion of its presence. Again, it seems to breed infection through the blood, and by its attack of embolism or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection through the blood, and by its attack of embolism or fatal diseases, without exciting a suspicion of its presence.

Persons afflicted with the following complaints should be treated with Ayer's Sarsaparilla. It is a certain cure for all these affections, and is the only one that can be relied upon without the annoyance of explaining their cause to any one.

Ayer's Cathartic Pills, For all the purposes of a Laxative Medicine.

Perhaps no one will be so ungenerous as to require by everybody a cathartic nor was ever any before so universally adopted into use, in every country and among all classes, as this mild but efficient purgative. The obvious reason is, that it is a more reliable and far more effectual remedy than any other. Those who have tried it, know that it cures their neighbors and friends, and all know that what it does once it does always—that it never fails through any fault or neglect of its composition. We have thousands upon thousands of certificates of their remarkable cures of the following complaints, but such cures are known in every neighborhood, and we need not publish them. Adapted to all ages and conditions in all climates; containing neither calomel or any deleterious drug, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Minute directions are given in the wrapper on the box, for the following complaints, which these Pills rapidly cure:— For Dyspepsia or Indigestion, listlessness, Lassitude and other various symptoms, which attend the various symptoms of Jaundice or Green Sickness, Bilious Colic and Biliousness, they should be judiciously taken for each case, Hence it is often advised to remove the obstructions which cause it.

For Dysentery or Diarrhoea, but one mild dose is generally required. For Rheumatism, Gout, Gravel, Palpitation of the Heart, Pain in the Side, Back and Loins, they should be judiciously taken, as required, to change the diseased action of the system. With such change those complaints disappear.

For Dropsy and Dropsical Swellings they should be taken in large and frequent doses to produce the effect of a drastic purgative. For Suppression a large dose should be taken as it produces the desired effect by sympathy.

For Liver Complaints, and all other symptoms, Bilious Headache, Sick Headache, Jaundice or Green Sickness, Bilious Colic and Biliousness, they should be judiciously taken for each case, Hence it is often advised to remove the obstructions which cause it.
