No. 1 is in 150 feet and has cut No. 1 and No. 2 leads, and a drift is now being run on No. 1 lead. On No. 3 lead a 178-foot tunnel has been run and a winze has been sunk, which is now down 18 feet and shows nine inches of ore. The ore of this property runs from 128 to 400 ounces of silver and from 64 to 78 per cent. lead. The property is owned by the Gibson Mining & Milling Company. A large block of the treasury stock has been sold and the stock has advanced to 12½ cents. Extract from February is sue of Mining, the official journal of the Northwest Mining Association.

Doctors Could Help, but Couldn't Cure-Dr. Chase's Catarrh Cure Released the Prisoner, and To-day She is as Well as Ever—She Says it is a Great Remedy.

"Yes, I am Mrs. Dobell," said a comely, easant-faced woman at her home on Horton reet to a News reporter to-day, "and I will very gladly tell you what you want to know. About three years ago my husband was very ill, and I had frequently occasion to rise in the night and go for a doctor or to the druggist. In my hurry I often neglected to properly clothe myself, and contracted several heavy colds, which turned at last to chronic catarrh. I tried doctors, who helped me, but did not cure me, and several special catarih medicines was relieved but not cured. I was suffering ntolerably when Mr. Shuff recommended me to try CHASE'S CATARRH CURE, and it began at once to help, and in about two months had entirely cured me. I cannot speak too highly of this remarkable medicine, and cheerfully recommend it to all sufferers from catarrh. The blower included is a great help to sufferers.
