Marine News Of a Day

Steamer Willapa Returns From the Coast, But Without That Wreck.

Garland to Have Competition on the Victoria-Angeles Run.

"Haven't seen a thing of her," we Captain Hughes' reply to the oft-repeated question concerning that phanton barkentine, when he came in from the West Coast on the Willapa yesterday morning. It was not because he and his men had neglected to look either-they had strained their eyes in looking, but all to no purpose. Perhaps it would have been different but for the fact that the fog was thick during the greater part of the voyage, although in the neighborhood of Cape Beale, where Captain Cameron of the Theobald believes he had a glimpse of the erratic stranger on Sunday, it was clear as a bell when the Willapa passed. In the event of time proving the derelict to be the water-logged lumber bark Discovery, whoever secures her will not reap a fortune in salse. Steamer Citage City calls on her upvage. Should it be some other craft, ward voyage this morning. working for. This view of the case has so impressed itself upon the Port Townsend towboat people that the pride of their fleet, the fast Sea Lion, has been sent out on the search, and her return is awaited with keen interest. She was awaited with keen interest. to go first of all to the quarter mentioned by the master of the Theobald, working northerly from there. It is not at all contradictory that the hulk should have sulting in the loss of seven lives occurred been reported from Kyuquot on the 20th ult., and from Beale on Sunday, for the prevailing winds would have carried her in just such a course. A majority of the shipping folk are inclined, however, to the opinion that nothing definite will be discovered until the Willapa makes the long trip up the Coast on the 20th inst. Then, if it is the fact that the crew had deserted the ship and made a landing, the chances are fair for their being return passengers on the Victoria craft. The Willapa had an uneventful voyage, according to her officers' statements yesterday. She brought home a light freight and some nineteen passengers, a majority of these being mining men who have been examining properties in the neighborhood of Clayoquot and Alberni. Mr. Herbert Carmichael had made an extended trip with the object of collecting creditable specimens of the Island's mineral wealth, to form a part for more parts which left were members of a picule party which left kere this morning in a yacht hired for the beening in a yacht hired for the beautiful was McNap's left the shipping folk are inclined, however, is being given to the development of the Lenora, and its associate mines of the Mount and collecting creditable specimens of the Island's mineral wealth, to form a part of the provincial collection at the Paris exposition, while his fellow travellers exposition, while his fellow travellers were: William Brewer, A. THE PUGET SOUND FERRY. Inspectors Bryant and Cherry Have Look at the Victorian - Outer Wharf Call To-day.

Inspectors Bryant and Cherry Came over from Seattle on the Victorian yesterday, to see for themselves how the new ferryboat of the Victoria-Puget left to their fate. Mrs. Davison was the first to disappear beneath the waves, and one after the other her companions followed left. Sound run acquits herself. They were quite satisfied with her performance, always making allowance for the stiffness of the machinery, which will wear off in a month or so, by which time the vessel will have gotten into smooth-run-ning shape, and be able to considerably improve upon her time. Just now the Victorian is not running her best, and it was 6:30 when she came in yesterday right-about schedule. This morning she is promised to come in at 6, leaving two ars later on the return. She will dock at the outer wharf

THE BEST OF THEM ALL.

United States Inspectors Have Words of High Appreciation for the Tees' Equipment.

Captains Bryant and Cherry, the United States steamboat inspectors, were in Victoria yesterday, and took advantage of the opportune occasion to formally inspect the C. P. N. Company's steamer Toos in connection with the seawing she spect the C. P. N. Company's steamer Tees, in connection with the service she maintains to the American port of Skagway. Of course the Tees, which is rated at the highest notch in Lloyd's, passed the test with flying colors, while the inspectors at the same time paid her the compliment of saying that she outclasses any rival craft in the Pacific Northwest waters in the completeness and than waters in the completeness and thoroughness of her equipment. In consequence of the inspection, the sailing of the Tees on her regular trip to the North was of necessity postponed until to-day. was of necessity postponed until to-day. The Queen City, which it was originally announced would leave co-incidentally with the Tees for the Northern river ports, has given place to the larger shoreline Amur, which sails north to-morrow in Theobald. Amur, which sails north to-morrow in charge of the Queen City's crew, this vessel going on the Willapa's route for a single trip on the West Coast, and also leaving to-morrow. Captain Hughes and his officers and crew will take her out, and return to the Willapa in time to the will apply the evasive phantom on the home run, as she now has its bearings apply to the will apply the evasive phantom on the home run, as she now has its bearings apply to the will apply th start on the long West Coast trip that undertaken monthly, on the 10th inst.

THE EMPRESS AWAY.

Jaggers, the News Messenger, a Passer ger - Tourists Take Ship Here.

Here.

The R. M. S. Empress of India sailed outward early last evening, her call off the outer wharf being made shortly after 8. Included among her passengers was the London Evening News' globecircling messenger, Jaggers, now racing a New York World trotter for international distinction. He goes from Hong-

OPPOSITION FOR THE GARLAND. Growth of Business on the Port Angeles and Seattle Route Brings the Utopia Into the Field.

The rapid growth of business on the Victoria-Port Angeles-Seattle route during the past twelvemonth has given the Garland, which heretofore has enjoyed a monopoly of the trade in this quarter, rather more than she can conveniently attend to. It has also pointed out opportunities to other steamship concerns and Messrs. Dodwell & Company have placed the Utopia on the run, commer ng with her yesterday's trip. She leaves Seattle at 8 p. m. on Tuesdays, Thursdays and Saturdays, her departures from this city in returning being at 4 p. m. on Mondays, Wednesdays and Fridays, Calls are made at both Angeles and Dun-

TEN DROWNED AT HALIFAX.

Picnic Party Meets With Disaster Brave Rescue by Naval Officers. Hallfax, Sept. 4.-A terrible accident re-

off the harbor this evening. The victims been reported from Ryd Sunday, for the were members of a picnic party which left

perienced here for some time, and when the boat was in one of the most dangerous parts of the eastern channel, a tremendous gust of wind struck them with all sail set, and tore the mast from its box. A second gust forced the heavy timber back and striking the bottom it knocked a gaping hole through the bottom.

In a moment the party were face to face with death, and the twelve were battling for their lives. Poole and Jude, who are

tention that they were resuscitated.

The news was telegraphed to the city, and Mayor Hamilton at once detailed a squad of policemen to proceed to the scene of the disaster and endeavor to recover the

TO-DAY MAY SOLVE MYSTERY. That Phanton: Barkentine is Now Wes of Cape Beale - Willapa Goes

in Search. It is quite possible that the next twentyfour hours will see the mystery dispelled in connection with that erratic barkentine that during the past month has kept the marine men of the Coast guessing as to its identity and misfortunes.

It was seen again on Sunday morning last,

The stranger was fully ten miles distant, and her hull was therefore not in view.

She had no sails set, and in this respect as well as through her nearness to the rocky shoreline evoked interest on board the

Further strength is given to this supposi-tion that although she was reported due back in port at 10 last night, the steamer had not yet arrived when the Colonist went to press, although a wire from Alberni states that she left there at 3 in the after-noon.

A Smelter For Mt. Sicker

The Development of the Len ora Mine Adds Important Industry.

New Interest in Mining the Field Near at Home.

There's a certain sage old saying that lowhere applies with greater force than here in British Columbia. "Distant fields look greenest" is the adage, and the experience of the Klondike boom days, coupled with the too general neg-

lect of our own Vancouver Island mines, illustrate the philosopher's wisdom.

Few escape attention here in Victoria who have by any means identified themselves with the ownership or working of a claim in the frozen North—but the man who speaks of the won lerful richness or extent of a mine at Albernia or ness or extent of a mine at Alberni or on Mount Sicker gets little attention, and from a small audience. Yet just here, at the Mount Sicker

camp so conveniently near Victoria, a strong Glasgow company is proving the truth of those who courted ridicule a few years ago by predicting fortunes awaiting men who would take up the levelopment of the rich mineral area back of Westholme.

The title of this company is the Mount Sicker & British Columbia Development Company, which includes in its projectties some sixteen claims and proven mines in the Mount Sicker neighborhood. The company is also interested in the British Columbia Mining & Development Company, has four claims adjoining the North Star, in East Kootenay, for which a handsome advance was only recently refused, and several gold mines in Wes

Kootenay.
Chief attention, however, is being giv

Twenty-five men are employed, and the indications on all hands are so promising that there is no longer any doubt but that in a very short time a smelter will be erected to treat the ores on the spot, the company having ample cial backing for the undertaking.

WAS STUHR DROWNED ?

Wreckage Found That Has Been Iden tified as Belonging to His Boat.

Augustus Stuhr, who has been missing from Victoria since June 11, when it is supposed he left here for the Ameri some wreckage that was reported as having been found there by fishermen. This consisted of a canvas covering for a hatch of a sloop, which the recognized at once as that of Stuhr's craft. She was unable to collect fur-ther evidence of the possible fate of the man, and it is now generally conceded that Stuhr, together with two Chinamen whom it is said he carried with him in the sloop, have been lost in the Straits. The boat was an old-fashioned fishing craft, not strong enough for bad weather and was always ballasted heavily. Since the time that her disappearance was mentioned in the Colonist the customs officers on the American side have kept a close lookout for her, and so far Anderson, a pal of Stuhr, who was convicted of smuggling in February last, is now serving a term of imprisonment in making the most anxious in garding Stuhr's whereabouts. Stuhr has considerable of a bank ac-count in this city, and should he have been drowned he has no known relatives

HAYWARD-LOUIS NUPTIALS.

Details of the Pretty Wedding Cele brated at Portland on Wednesday Last.

From the Portland Oregonian of September 10 the following is taken:
"The Hayward-Louis nuptials took place in the First Presbyterian church at 11 o'clock Wednesday. The church was neatly decorated with clinging vines and flowers. In front of the altar where the bridal couple stood during the cere-mony, there was a large marriage bell of flowers and vines. The groom, accompanied by his brother, Reginald Hayward, of Victoria, B. C., entered the church from a side door, near the altar. At the same moment other members of the bridal party came down the aisle, in the following order: Charles West, of Portland, and Roscoe Bryson, E. E. Wilson and Dr. Bowen Lester, of Corvallis, ushers; Miss Bonita Stroud, of Portland; Miss Florence Hayward, of Victoria, and Miss Sarah Jacobs and Miss Helen Holgate, of Corvallis, brides-maids; Miss Sturko, of Chicago, maid of honor; and Miss Leon Louis, the bride. The party met in front of the altar, and the ceremony was performed the solution with the light mass ever before appeared of honor; and Miss Leon Louis, the bride. The party met in front of the bride. The party met in front of
