Harry Tiffen, a little boy 4 years af age,

OFRE THE SUMDIFFUR.

OFRE THE ing every station at the specified time, and having in some cases a minute or so to spare. It was very gratifying to all on board to learn from the directors and officers of the road that they have surmounted all the difficulties that they had to contend with, and have the satisfaction of knowing that the line now occupies a position second to none in the country. They had experienced adversity, and had known what it was to be without sympathy, and therefore the magnificent improvements that they have effected in the railway redounds much more to their credit than the public might be disposed to etherwise accord them. The guage has been changed to the standard width, the track has been laid with the best of steel rails, the grades and the curves have been made easier, been laid with the best of steel rails, the grades and the curves have been made easier, new rolling stock of the latest and best design has been put on, and last but not lesst, all trains are run on time. In fact it almost seems as if a new road had been built. The country that the Toronto, Grey and Bruce passes through is now as well supplied with railway facilities as any other section of the province. The passengers, all of whom do more or less business with the road were delighted to witness and experience the altered state of affairs and heartily congratulated the directors and and experience the altered state of affairs and heartily congratulated the directors and officers on their success. They were the recipients of several nice little compliments, one in verse by George McMurrich being particularly happy. Mr. McMurrich has a happy faculty of putting his thoughts into rhyme, and he struck off the following literactive the consequence of the structure of the service of the service of the following these consequences and the struck of the consequences of the service of

How may that road be made to pay,
Ontario, Ontario;
And ne'er let us forget this day,
Ontario, Ontario.

We'll sing united in our views,
Ontarlo, Ontrilo.

The sentiments of the entire party were well expressed in these few lines. The management have indeed achieved a triumph that warrants commendation. Mr. Wragge informed The World reperter that the receipts of the company had increased \$50,000 in the short time since the change, and he fully expected to see the volume of business more fully developed.

The train made splendid time and the journey was a very comfortable one. At Caledon, where the Hamilton & North-western crosses the road, the party were joined by a number of Hamilton gentlemen among whom were John Proctor, Adam Brown (director Ontario and Sault' Ste. Marie railway), John Stuart, Maitland Young, Mayor Magill, Matthew Leggatt, David McCullough, Jas. Turner, Wm. Laidlaw, Jas. Watson, J.E.O'Reilly. Much regret was telt at the absence of Wm. Hendrie, president of the road, who at the last moment was called away from his home in Hamilton to attend some pressing engagement in western Ontario. The acquisition of the gentlemen from the Ambitious city was a source of much pleasure to the Toronto. party. It was a pleasure to see Hamilton citizens joining with our people in celebrating the extension and devolopment of a road that they had battled against in years gone by. Such a feeling should ever exist between the sister cities, for the interests of Toronto and Hamilton are identical. After a The county orange lodge of Toronto met at Temperance hall on Friday night last, when all arrangements were made for celebrating the 12th of July. Marshals and committees were appointed. The procession will be purely local. The Young Men's protestant association (whilom the orange young Britons) applied for a place in the ranks. After a lengthy discussion it was decided that as the young Britons had seen fit to secede from the orange body that the latter would not recognize them cities, for the interests of Toronto and Hamilton are identical. After a very enjoyable run Owen Sound was reached at one o'clock, the distance of 120 miles having been covered in less than five

son of Arthur Tiffen of Riverside, was drowned in the Don about 6 o'cleck on Saturday evening. He, in company with four companions, attempted to cross the river near the King street bridge in an old flat boat which leaked badly. Little Harry BASEBALL GAMES ON SATURDAY, At Chicago—Chicago 3, Troy 0. At New York—Metropolitan 1, Providence 8. At Philadelphia-Cincinnati 4. Athletics

was engaged in baling the water out when he fell over the side and was drowned. His companions could not rescue him. Thos. Heings, a brewer for Thos. Davies, and At Philadelphia-Philadelphia 7, Boston

Heings, a brewer for Thos. Davies, and his son, saw the accident and put out to the scene. After diving down three times he succeeded in bringing up the remains.

The body of Willie Waterman, 8 years of age, who was not seen alive after 10 o'clock on Friday forenoon, was found on Saturday afternoon by Constable Williams at Clendenning's wharf. The little fellow's clothes were on, and he must have accidentally fallen in the water. The remains were zent to Montreal on Saturday night for interment. The boy's parents had been but a couple of months in Toronto. S.

CLIPPERS V. DAUNTLESS.

A' baseball match between the above finior clubs took place in Queens park on Saturday afternoon before a large number of spectators. The game from start to finish was well contested and the excitement ran high. At the end of the ninth innings each club had scored five runs. In the tenth the Clippers were retired in one, two, three the Clippers were retired in one, two, three order, whilst with a safe hit and an overthrow to first base, the Dauntless secure throw to first base, the Dauntess secured the winning run without a man out. The pitching and catching of the Clippers was excellent, but was poorly supported at several points in the field. Mr. Chas. Wilson of the newly-organized Torontos umpired with entire satisfaction. At the Post of York Street-A Baggage

Robert Bell, driver of the Queen's hotel THE HILLSDALES IN ENGLAND. baggage-wagon, and the porter of the Walker house had a narrow escape from death at 11.30 on Friday night at the foot The Sportsman says it is utterly astonished at the committee of the Amateur rowing association passing a resolution touching the status of the Hillsdale crew, death at 11.30 on Friday night at the foot of York street. They were crossing the tracks in the wagon when a train of passenger cars which was being shunted ran against the vehicle and completely demolished it. The men and the horse, however, escaped totally unhart. There were no lights whatever on the two rear touching the status of the Hillsdale crew, particularly when it sees names attached to it. It feels with pain almost the degradation of the association in not awarding simple justice to the visitors. It learns that the entries of the Hillsdales in one or two regattas had been accepted. Now they find themselves thrown out of the entire category of amateurs though they held the proud position of amateur champions of America for four successive years. It would not be surprising if the resolution debars them from rowing in regattas for which they are entered. If so, the framers of the resolution will incur heavy odium and reproach. The Sportsman earnestly appeals to amateur carsman were no lights whatever on the two rear cars and moreover there was no flagman, brakeman or anyone else to give any kind of a warning. There is now much shunting of cars at night on these tracks since the

Midland trains arrive and depart from the union station, and if speedy and necessary precautions are not taken the foot of York street will be the scene of numerous fatal earnestly appeals to amateur oarsmen generally to decline a share in the stigma. Sunday morning last the Rev. S. P. Rose preached a sermon appropriately commemopreached a sermon appropriately commemorating the 15th anniversary of confederation. The sermon was founded on Jeremiah's prophecy, the 9th chapter, at the 23rd and 24th verses. The preacher applying his text in a national sense, endeavored to illustrate the truth that the cause for national glorying does not lie in physical strength, nor in commercial prosperity, nor even in intell settal culture, but in such a knowledge of God as will lead to such a knowledge of God as will lead to obedience of His laws. The holy man, he contended, was the truest patriot. There was a good congregation.—Orillia Packet,

DR. M'OARHOLT'S SERMON

p.m. The church was filled to overflowing by the members of the order, as well-dressed and fine a body of young men as could be cathered in Canada. The service was read by Rev. J. P. Lewis, assisted by Rev. J.H. MacCollum, hon, chaplain, The music, especially the anthem, was of a high order merit. Rev. Dr. McCarroll preached the annual sermon from the 10th verse of 2nd chapter of Revelations, "Be thou faithful unto death, and I will give you a crown of life." These words were addressed to the church of Symrna which, with that of Philadelphia, were the only ones among the seven churches to whom God addressed no reproof. It was the only it was the only it. God addressed no reproof It was the only one retaining its name, its commercial importance and its church to the present day, after passing through fire, earthquake and seige. There, amid beautiful scenery, stood the city where Honer sang. The texts contained, first, a divine command, secondly, a glorious promise. We were to be faithful first to our country. The bible tanglit patriotism as a duty. Moses, Daniel, Jeremiah, St. Paul and Christ himself were patriots. The orangemen had a ritual Jeremiah, St. Paul and Christ himself were patriots. The orangemen had a ritual which teemed with glorious examples. He exhorted them to be true to their country, to be prepared to be faithful to the end in case of need. Let orangemen for this reason crowd into the ranks of our volunteers. Let them above all "be faithful" faithful in all things social and commercial, faithful in not only justice but generosity, and in respectful consideration for all who differ from them. But above all else let them be faithful to the Lord Jesus. Many had been called away from their ranks by death during the last year, let them also be prepared. He gave it as his earnest counsel that whatever might be each man's opinion that whatever might be each man's opinion on the subject of total abstinence, let every orangeman take a vow that he will take no stimulant on the twelfth. The preacher then dwelt on the promised reward "the crown" symbol of royalty, "of life" showing that it would last for every the pleaded

The Industrial Exhibition. We have received the prize list from the office of the Industrial Exhibition, and note a few of the most important changes and additions in the same from that of last year. The exhibition will be held from the 5th to the 16th September (both days inclusive.) The amount of prize money offered exceeds that of past years. children on that day.
The farmers' day (13th Sept.) has always proved an attractive day, and we have no doubt it will hold its own this year. All railroad and steamboat lines running into the city during the exhibition will give excursions at reduced rates.

The Separate Schools.

The separate school examinations tool place on Friday in the various schools. At St. Vincent's school Vicar-General Rooney, Father Brennan, parish priest, and Mr. Ryan, trustee, were present. The scholars showed considerable proficiency in examin ation. The prosperity of this school is largely due to the efforts of Father Brennan The examinations at the other schools were attended by officials and friends, and showed that satisfactory progress had been made during the past year. At St. Mary's school the examination was held in the morning In the afternoon the distribution of priz took place. At St. Patrick's school the took place. At St. Patrick's school the program was similar to that at St. Mary's The prizes were distributed in the afternoon, the Very Rev. Vietr General Laurent in the chair. The rev. chairman addressed the children in a very happy manner. He was pleased to see the school progressing so favorably, and it was noticeable in the examinations that the high standard always enjoyed by the school in the past has been maintained. He was also pleased to see enjoyed by the school in the past has been maintained. Hs was also pleased to see that several young ladies of the high school had determined to apply for second-class certificates for teaching. But a few years ago he had seen these young ladies studying at St. Patrick's school. They were then little girls. Mr. Britton, secretary-treasurer of the board, and several redemptorist fathers also addressed the publis. At the fathers also addressed the pupils. At the closing exercises were much the same as a the schools mentioned.

FOR THE RAPID AND PERMANENT

CURE OF ATARR

Which is not a patent medicine or advertising doctors humbug, but an honest remedy discovered by an English Physician of forty years standing, and which absolutely cures this hitherto incurable disease in from one to three treatments, no matter whether standing one year or forty years.

TO BE HAD ONLY OF

A. H. DIXON & SON, 307 KING STREET WEST, - - TORONTO, CANADA.

WHAT IS CATARRH?

Catarrh is a muco-purulent discharge caused by the presence and development of the vegetable parasite ameda in the internal lining membrane of the nose. This parasite is only developed under favourable circumstances, and these are: morbid state of the blood, as the blighted corpuscle of tubercle, the germ poison of syphilis, mercury, toxemea, from retention of the effetel matter of the skin, suppressed perspiration, badly ventilated sleeping apartments, and other poisons that are germinated in the blood. These poisons keep the natural lining membrane of the nose in a constant state of irritation, ever ready for the deposit of the seeds of these germs, which spread up the nostrils and down the fauces or back part of the mouth, causing ulceration of the throat; up the eustachian fauces or back part of the mouth, causing ulceration of the throat; up the eustachian proper structure of the bronchial tubes, ending in pulmonary consumption and death.

A great variety of symptoms are present in this affection, which are modified by the specific poison which gives rise to it, to wit:—tubercle, syphilis, mercary, suppressed function of the skin and toxemes generally, but they consist chiefly of languor, lassitude, debility, mal-assimilation, derangement of secretions, great depression of the nervous system, with or without fever; aching; a bruised or beat feeling all over; confused feelings in the head; cerebral disturbance.

The want of proper respiratory function of the skin and the local pressure of the parasite give rise to coryza, tonsilitis, sneezing, a sense of fullness, stufflog of the passages, soreness in swallowing, irritative cough, tightness of chest, dry or moist rales, hemorrhages.

There may be a discharge quite heavy if the parasite causes great nervous irritation,

There may be a discharge quite heavy if the parasite causes great nervous irritation, which promotes secretion. It may be dry if the multiplication and duplication of the parasite is active. The increased pungent odor of ozoena is never present until the spores or roots of the germ penetrate to the cartilages of the nose, then the parasitical formation makes rapid

which promotes secretion. It may be all of access is never present until the spores or roots of the germ penetrate to the cartilages of the nose, then the parasitical formation makes rapid inroads into the healthy structure of the nose.

Catarrh is usually met in three stages, First—A simple parasitical development of the notes or sports or sportles of the amoeta have penetrated to the bone or cartilages-ozcena. Third—Where the parasite has spread and propagated by millions in the nose, posterior nares, up the custachian tubes, down the fauces, vocal cords and bronchi, causing excessive parasitical ulceration and destruction of tissue, the parasite usurping the normal structure.

The mode of propagation is by contagion, or infection, or both—hence its prevalence in families, districts, etc. The parasite develops itself rapidly, so much so that millions are elaborated in a short space of time. The effect of this formation upon the nervous system is to impair vital force, produce general nervous irritation, a depreciation of the vasomotor nerves. Cold in itself cannot produce Catarrh, it simply produces an irritation, a field for the propagation of the parasite. A large percentage of our population are affected with Catarrh, and its effects are not only ulceration and destruction, with pungent fetid odor, loss of the finash bone, ulceration of fauces and throat, destruction of the laryns with loss of voice, a usurpation, of the bronchial imucus membrane, a filling up of the air vesicles with the germ parasite, but bronchial or pulmonary consumption and death. The vegetable parasite is the simplest living form known that lives upon organs; structureless, consisting of semi-fluid material; large or small in size, these masses can move in any direction and propagate indefinitely; these parasites may breed, feed-and propagate upon the structure themselves. They increase very simply by spores, or roots, and so long as a pedicle or root remains they increase very simply by spores, or roots, and so long as a pedicle or

furnished to the patient, and the treatment can be applied without loss of time or interfere

with occupation.

To those who are suffering from deafness caused by catarrh, we would say that the above treatment has been successful in restoring the hearing in a great number of cases, where the patient was almost entirely deaf.

where the patient was almost entirely deaf.

Our experience for the past eighteen years demonstrates beyond a doubt that the greater majority of cases, no matter whether standing for one year or forty years, are permanently cured by one treatment—cures effected over a year ago being cures still. A very small percentage of cases require a second treatment, and a third is not necessary in more than two cases out of a hundred.

The most offensive odour, hoarseness, loss of voice, headaches, languor, weak eyes, etc.,

The most offensive odour, hoarseness, loss of voice, headaches, languor, weak eyes, etc., caused by Catarrh, are removed by one treatment.

Sufferers are particularly requested not to confound our remedy with patent medicines, quack, or advertising doctors' nostrums—it is neither—but an honest cure for Catarrh, as thousands who have been cured can testify.

We have been offered heavy inducements by numerous patent medicine dealers to allow them to sell our remedy to Druggists throughout the United States and Canada, as there is an extensive enquiry for it from all parts of the country. But after giving their propositions our serious consideration we have come to the conclusion that we cannot do this, there being so many different stages of Catarrh, the remedy must be prepared expressly for the patient after receiving a description of the case in order to effect a cure. Old and young, male and female, all require different treatment, and were we to place our remedy in the hands of the druggists we would be forced to prepare it all alike, in which case it would fail continually in effecting a cure, and the consequences would be that our remedy (invaluable when properly prescribed) would soon be classed among the patent medicine humbugs now on the market.

N.B.-As we wish to avoid the very appearance of quackery, we do not publish a long list of certificates of cures, such being the system employed by quacks and dealers in all hinds of nostrums, but prefer that the remedy shall stand upon its merits of at the same time we think that the public are entitled to references as to our reliability and integrity before forwarding their money for the remedy, and we submit the following well known names of Toronto (Canada) business men:—Wm. Norris & Son, Wholesale Piano Dealers; E. H. Tallmadge & Co., Wholesale Druggists; Hunter & Co., Wholesale Picture Dealers; Taylor & Wilson, Cigar Manufacturers; Stuart W. Johnston, Retail Druggist. In writing to either of the above, a stamped directed envelope should be enclosed to

The following letters are samples of many received by us, and which go to show that treatment effects a rapidiand permanent cure:

TORONTO, Dec. 20, 1881, TORONTO, Dec. 27, 1881. Mr. A. H. Dixon: Mr. A. H. Dixon, No. 307 King St., West. DEAR SER,—As you asked me to write and report my condition after using your remedy for catarrh, I would say that I have remedy for catarrh, I would say that I have had a very satisfactory experience with you treatment. As I informed you when I first called, mine was a very aggravated case of over ten year's duration, the discharge and odour being something frightful, so much so that I was obliged at times to isolate myself from society. I have placed my self at different times under the treatment of five different eminent English physicians and specialists in the Old Country, and after a treatment of greater or less length they pronounced me incurable. I certainly never received a particle of benefit from any quarter until I tried your treatment, three weeks after commencing which, I was entirely rid of my catarrh, and am now a sound man. Your cure is a perfect boon to sufferers from this chronic complaint, and I do not think that you will ever meet and I do not think that you will ever meet
a case that you cannot cure. I shall shortly
call on you to make arrangements to send
some of your remedy to a near friend in
Scotland who is suffering similarly.

Yours very truly,

J. M. NICHOLSON . Winnipeg, Man.

THOROLD, Nov. 1, 1881. A. H. Lixon, Esq., Toronto: SIR,—I have great pleasure in informing you that after one treatment of your catarrh remedy, I am entirely recovered. I suffered from the disease for over three years, and during the last few months the catarrh was most aggravated. In fact, I scarcely had my handkerchief out of use for a moment. It is now six months since I was cured, and

there is no return of the complaint. I regard my recovery as a wonderful one. I remain, yours truly, [Signed] Francis Brown,
Some time Superintendent of the Mail
building, Toronto. DEAR SIR, -I deem it my duty, in the interest of those who are suffering from catarrh, to state that I suffered from this catarrh, to state that I suffered from this dreadful disease in a very aggravated form for a period of fifteen years. I was under the treatment of (here comes the name of a prominent specialist and physician) which, for obvious reasons, is omitted) for a year, he having guaranteed me a cure, without deriving the slightest benefit. I have also tried other treatments with a similar result, and which had the effect of thoroughly discouraging me. Finally, hearing that you

and which had the effect of thoroughly dis-couraging me. Finally, hearing that you had a cure for this disease, I called on you, and was treated by your method on the 7th of November, 1880, and in ten days there. after I was completely cured by one trea ment, and I have had no return of to disease since that time, which is now over a disease since that time, which is now over a year ago. Judging from the effects of your treatment on myself, I am satisfied that yours is the only treatment for catarrh which will effect a permanent cure.

I remain, yours truly,

Wilson McWhinney,

Waterford, Ont.

TORONTO, April; 24, 1882. A. H. Dixon, Esq., 307 King St., West. DEAR SIR,—We take pleasure in stating that our junior partner, who had for years been troubled with catarrh, was successbeen troubled with catarrh, was successfully cured by three treatments of your remedy. The catarrh was much aggravated with continual dropping into the throat, accompanied by loss of voice, hawking and spitting and blocking up of the nostrils, all of which we are pleased to say disappeared almost immediately after the remedy was applied. Your remedy is certainly an invaluable one and we hope all who may be suffering from this disagreeable disease will find it a complete success. satisfied they will find it a complete success.
