McIntyre & Wardwell (John J. Dixon) received the following despatch from Schwartz, Dupee & Co., Chicago: Wheat lost part of yesterday's advance to-day and closed at the bottom. The design of the realization by long. Schwartz, Dupee & Co., Chicago:
Wheat lost part of yesterday's advance to-day and closed at the bottom. The decline was due to the realization by longs and by the lack of outside demand. Cables were hardly as strong as was expected after our advance of yesterday. There was less cash demand. The world's visible decreased 475,000 bushels. The fact that the Government report will be published this afternoon no doubt had a tendency to curtail, business, and perhaps influence some of the buyers of yesterday to realize. Corn was weak, December and January getting to 25%c, May to 28%c. This was a decline all around of %c to %c, the nearly deliveries suffering the most. To-day practically closed the lake navigation—one reason for the weakness. Samples were hierease. The trade was not large. Cables were barely steady. Seaboard elearances were 213,000 bushels. Bradsteet's report increase east of the Rockies of 196,000 bushels.

Provisions again weak and lower. Packers were very free sellers all day, and there was also considerable liquidation by January longs. The public sent buying orders early, but turned sellers later. Shorts were the best buyers, and as this demand is daily filled by packers selling against manufacture the speculative situation is not improved. The cash market was heavy at lower prices.

Let Ilivareed earton is firm at 4 19-324.
