

SAVED FROM AN OPERATION

How Mrs. Reed of Peoria, Ill., Escaped The Surgeon's Knife.

Peoria, Ill.—"I wish to let every one know what Lydia E. Pinkham's Vegetable Compound has done for me. For two years I suffered. The doctor said I had a tumor and the only remedy was the surgeon's knife. My mother bought me Lydia E. Pinkham's Vegetable Compound, and today I am a well and healthy woman. For months I suffered from inflammation, and your Sensitive Wash relieved me. I am glad to tell anyone what your medicines have done for me. You can use my testimonial in any way you wish, and I will be glad to answer letters."—Mrs. CHRISTINA REED, 105 Mound St., Peoria, Ill.

Mrs. Lynch Also Avoided Operation.
Jessup, Pa.—"After the birth of my fourth child, I had severe organic inflammation. I would have such terrible pains that it did not seem as though I could stand it. This kept up for three long months, until two doctors decided that an operation was needed.

"Then one of my friends recommended Lydia E. Pinkham's Vegetable Compound and after taking it for two months I was a well woman."—Mrs. JOSEPH A. LYNCH, Jessup, Pa.
Women who suffer from female ills should try Lydia E. Pinkham's Vegetable Compound, one of the most successful remedies the world has ever known, before submitting to a surgical operation.

Stray Shots by Solomon.

If you have made up your mind to gamble, go down to a faro layout and put your money on the ace and have done with it. There are a lot of people who would be shocked to death at the sight of a roulette table or a wheel of fortune who have no compunction about gambling along more genteel lines. A man can be a church member and belong to the society for the suppression of vice and be a worse gambler than the fakir who runs a thimble rig. Ananias and Sapphira are held up as examples of moral obliquity on whom the just vengeance of an outraged God fell with fearful swiftness. Yet they were doing what hundreds of church members do every day. They thought to purchase stock in the Kingdom of Heaven on a margin and their stock was "called." Their example in regard to earthly stock as well as heavenly has since been followed with seeming impunity. Some of the biggest gambling deals on earth are consummated by people who would resent being styled "knights of the green baize." Gambling is gambling, no matter whether it is in wheat or in draw poker, or

whether it is conducted in a "dive" or in the rotunda in the board of trade. It is all very well to draw nice distinctions, but the church raffle and the friendly penny ante after all are in the same category with the "seven up" and the lottery swindle. Call yourself by your right name if you indulge in games of chance either socially or commercially.

Mind Your Own Business.

Your clerks will not do it for you. Don't make any mistake. The man who goes chasing around the country talking politics, temperance or riding other hobbies, and leaves his business in the hands of his help or his family is sowing the seeds of business decay. The man who devotes most of his time to church affairs or the neglect of his business will just as surely come to grief as he who is found at the circus or the gaming table when he should be at his store or office. To be "diligent in business" is not as imperative as being "fervent in spirit." Men talk about the misfortunes of business and attribute to "mysterious Providence" results that knew no other cause than common laziness or wilful neglect. Humbug! The best clerk in the world will not fill the place of the proprietor of an establishment. We heard the other day of a merchant in a Western city who missed one of his best business opportunities of the season by being so interested in a sporting event that he could not be seen in his office at the proper time. There is as much money to-day as ever for those who know how to "mind their business." If ever business requires increasing, painstaking attention, it is right at this moment.

Catarrh Cannot Be Cured

with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly upon the blood and mucous surfaces. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly upon the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing catarrh. Send for testimonials, free.

The Pretty Girl and the Plain Girl.

A gentleman who has a large staff of girls under him remarked recently that he would much prefer to employ a plain girl than a pretty one. "This is not because I fear that the male clerks might flirt with her," he said, but simply because experience has taught me that the pretty girl is not such a good worker as the plain one. It is also a curious fact that, while I have a number of pretty girls in my employment, it is seldom one leaves to get married. On the other hand, I am constantly losing the plainer girls, who are my best workers. I think it is because the man of to-day argues that if a girl is a good business girl she will make an ideal wife, and physical charms are but a secondary consideration."

LOST VITALITY

Caused by Kidney, Stomach and Bowel Disorders

St. John, N.B., September 18th, 1911.—My brother was a great sufferer from kidney, stomach and bowel troubles and was given up by two doctors. He was advised to try your Fig Pills, which he did, and after taking five boxes was completely restored to health and is better than he has been for years. You can't recommend Fig Pills too highly.

Man knows there are times when potatoes are more to be desired than roses, and the girl who simpers, who affects artless "pretty little ways," and who indulges in all the other flirtatious foolishness which is so often characteristic of the pretty girl, does not occupy his serious thoughts, although he may seek her society for a time.

Where can I get some of Holloway's Corn Cure? I was entirely cured of my corns by this remedy and I wish some more of it for my friends. So writes MR. J. W. BROWN, Chicago.

Food From the Air.

Scientists long since have promised they would supply the world with heat and power extracted from the rays of the sun. Now they announce discoveries that will enable them to produce a variety of nitrogenous food, notably eggs, from the air. This news is not surprising. In fact, nothing can surprise an age in which has been produced wireless, telegraphy, the telephone, the aeroplane, radium, antiseptics, anitoxins, spectrum analysis and the X-ray—the seven modern wonders of the world. The world is prepared for anything in the way of marvellous discoveries and inventions.

Uniformity in Canadian Dairy Products.

A few months ago there was held at Ottawa a conference of dairy experts and officials from all parts of the Dominion. The meeting was called by the Honourable the Minister of Agriculture, for the purpose of endeavoring to perpetuate the uniformity in quality and character in Canadian cheese and butter that has been responsible for the success of Canadian dairying. As pointed out by the Dairy and Cold Storage Commissioner, who presided over the Conference, many things come up in the practice of dairying which slight differences of opinion may arise so that it seems desirable to bring together from time to time those in charge of dairy schools, and the chief instructors, in the various provinces, to discuss methods and practices, in order to arrive at some agreement as a body of dairy advisors. The Conference lasted two days, during which time many matters of importance were taken up and freely discussed. Some of these were the pasteurization of whey, factory refuse in relation to tuberculosis in hogs, testing and grading cream at cream gathering creameries, whey butter, methods of raving patterns of cheese factories, and other subjects relating to the production of butter and cheese. For the information of buttermakers and cheesemakers, and others interested in dairying, there has been printed a verbatim report of the proceedings of this Conference. Copies may be procured by applying to the Publications Branch of the Department of Agriculture, at Ottawa.

Fruit Growing in Canada.

A year ago the Department of Agriculture at Ottawa, through the Branch of the Dairy and Cold Storage Commissioner, undertook an investigation of the fruit growing conditions throughout Canada. The inquiry was entrusted to Mr. Wm. H. Bunting, an extensive fruit grower at St. Catharines, Ont., who secured as much information as possible on the following points:—

1. The possibilities of the extension of the fruit growing industry of Canada in the different localities visited.
 2. The tendencies in the matters of planting and growing of different kinds of fruit, and with regard with apples, the varieties which are being most extensively planted in the different districts.
 3. The difficulties which are likely to be encountered in the further development of the fruit growing industry.
 4. Methods of production and orchard management which have been most successful in the different districts, and the probabilities of over production.
 5. The conditions under which British Columbia, Ontario and Maritime Province fruit is marketed in the Prairie Provinces as well as the effect of American competition.
- The enquiry was concluded in due time and the report has been printed for general distribution. It contains a large amount of detailed information gathered in every province making it an invaluable guide to persons who desire to take up fruit growing as an industry.
- In his general conclusions Mr. Bunting points out that while the growing of fruit offers ample reward to the men of energy, patience and perseverance, there is perhaps no phase of agricultural endeavor which requires to be more closely studied and in which a wider range of information is more desirable and necessary. The future of the industry he states, was never brighter than it is to-day, the prospects never more attractive nor the field of extensive effort in all fruit growing provinces more inviting.
- The report which contains eighty-four printed pages and many illustrations, is available to all who apply for it to the Publications Branch of the Department of Agriculture, Ottawa, Ont.
