CHRISTMAS TREE ENTERTAINMENT

Annual Event at the Recreation Hall
Was a Very Successful
Affair.

It speaks well for those interested in the provision of this annual event which has now become part and parcel of the local Christmas festivities that they are greeted year by year with a full house. There is no question as to the worthiness of the cause. The furnishing of the gift laden trees for the inmates of the respective institutions is usually assured from the start by the contributions of friends who so gladly contribute year by year. But the Hall has to be maintained, consequently the entertainment, though primarily conceived for those first concerned, is also designed to attract the public. As noted above the usual full house greeted the performers this year and "Extra good" was the general verdict on a varied and well rendered programme. A new feature was the inclusion of a short sketch by way of conclusion, also a splendid exhibition of Indian Club Swinging. Owing to the length of the programme no encores were given although unusually generous applause was accorded every number.

On behalf of the management of the Superintendent of the County Hospital took advantage of the occasion to thank all those who had in any way contributed to the evening.

It should not be forgotten to note the great all round improvement made by the installation of Electric lighting.

Captain W. A. Morehouse, of the White Star liner Cretic, was forced to give Ponia Delgada, a wide berth because a heavy gale made it impossible for the Nova Scotia captain to take his ship into that port in the Azores. She arrived at Boston Wednesday from Mediterranean ports, a day ahead of time. Not very often Capt Morehouse enjoys the privilege of spending Christmas with his family in Boston and some of his Nova Scotia relatives shared the joyous season.
The British fishing schooner Clarence Trohan, which left Yarmouth, N. S., on Nov 29, for Gloucester with a cargo of 67,000 pounds of salt fish and 33 barrels of fish skins for a Boston firm, has not yet reached her destination and fear is felt for her safety. A report that she sought shelter at a Maine port reached the consignees, but they have been unable thus far to verify it. The missing vessel is commanded by Captain George Trohan and carries a crew of five men. Under ordinary conditions, the passage should have been completed within two weeks.
