**Matthew's New Universal Seeders and Cultivators**

They save practically all hand labor, that's expensive you know. They open the drill, drop the seed, cover the seed and roll and firm the earth all at one operation. In cultivating they cultivate deep or shallow, cultivate between the row or straddle the row and cultivate on each side of it. Destroy all grass and weeds and leave a mulch of fine earth on top, which effectually preserves the natural soil moisture. They are fast and effective, strong and durable. Our **Horse Hoe** with 1 beam frame and spring steel standards is unequalled. Our book describing and illustrating a score or more of different types sent free to anyone.
