

Visual Arts Programs at Canadian Cultural Centres and Canadian Missions Abroad

Canadian Cultural Centres in Brussels, London, Paris, and in particular the Canadian missions in Mexico, New York, Rome and Tokyo organize their own programs of exhibitions. These programs may include the Department's travelling collections as well as exhibitions negotiated directly with established Canadian artists.

Artists wishing to inquire about exhibiting their works abroad should write directly to the appropriate post (see Annex III), or to the Visual Arts Officer of the Cultural Affairs Division, enclosing biographical notes, reviews from previous showings and photographs of their works.

Films

The film program of the Cultural Affairs Division is limited. Financial assistance to cover international transportation is made available by the Department to such federal agencies as the National Film Archives to tour collections of films of special cultural interest.

Feature length films are occasionally purchased by, or loaned to the Department for screening as part of programs or events organized by missions abroad.
