of information and requests from foreign Governments for the declassification of information by the Canadian Government.

The total of requests and consultations received is 25% greater than last year. The challenge of responding to this increase with declining resources, while maintaining service standards, continues.

## Complaints

Forty complaints were received during the year by the two Commissioners' Offices in addition to 27 outstanding at the beginning of the year. Of 46 investigations completed, 20 were considered to be well-founded, 16 were judged to be not substantiated and 7 were discontinued. Twenty-one complaints were still under investigation at the end of the year.

This represents an 11% decrease in complaints over last year.

## Other responsibilities

In addition to the management of Access and Privacy requests, the Coordinator's Office provides advice and guidance to departmental units on compliance with the legislation. Briefings on Access to Information and Privacy were given, inter alia to service centre personnel, consular officers, and Ministers' offices. In addition, the Coordinator's Office developed and presented tailored ATIP briefings to new officers as part of the Canadian Foreign Service Institute training program for recruits in the political/economic, commercial/economic, and consular/administrative streams. The Coordinator is the departmental point of contact for the Registration of Information Collection and Public Opinion Research, (although the function is carried out in the Coordinations Bureau). The Department reports new requests on a daily basis to the Coordination of Access to Information Requests (CAIR) system and consults it to stay abreast of the range of requests being processed across Government. The Department contributes financially to the ATIP tracking system maintenance and participates in related interdepartmental consultations.

## Screening program

The Coordinator's Office is responsible for screening records for transfer to the National Archives. The Coordinator directs a team of retired senior foreign service officers who review records and determine whether they may be opened for public examination. This is a unique program that has helped to provide access for researchers to greater volumes of information concerning Canada's conduct of international relations.
