(Cancer)

Dear Sir:-

"Inducement For Research"

Wish to state that Dr. M.V. Mayfield, has a positive cure for cancer, that he and his father has been making positive cures of cancer for many years. Doctor Mayfield himself using this cure since 1879.

He can give the names of many patients that he has cured. Many of the patients are living in this town and vicinity. Has cured Cancer on the tongue, One case where the cancer was in a man's eye. This case was in such a condition that it was decided by the physicians that the eye would have to come out. Dr. Mayfield cured this cancer and never injured the sight at all.

He has affidavits from three leading physicians here that they have seen positive cancers cured with this cure. In some of the cases they have helped to apply the cure, and waited on the case under Dr. Mayfield's instructions. All these cases are positive cures.

This cure is a secret formula and the ingredience are all non poison, in fact a person can eat it without any ill effect. Part of the cure is as hard to get as radium.

His first case treted was Mrs. General Starddord, of Washington, D.C. After all other remedies as well as the best Physicians in Washington, D.C. had failed. They decided to try this cure, The cure was applied February# 12th, 1879. result was a positive cure.

Dr. Mayfield is getting old and has become quite feeble, feels that he has but a few more years to live. It is his desire to dispose of this cure to some good Physician that will continue to treat cancer, and will dispose of the cure, with full instructions how to secure the cure, how to treat, and apply the cure, also how to prepare and mix the salves.

To the party that would be interested in buying this cure, he would send enough of the cure to treat a patient, with full instructions. *et.*

As the Dr. has me attend to all his letter writing am enclosing an addressed stamped envelope for reply. I trust that through you that we can place this cure with
