

having an opportunity of thanking Mr. E. N. Kendall, assistant-surveyor, for the very able way in which he has assisted me with his observations, and in the plan of our route. Mr. Edward Finden, by whom the plates are engraved, has obligingly presented me with some etched outlines, copied from sketches which I made of a few of our acquaintance on the last voyage, and I have here taken the liberty of introducing them, as they give some idea of the cast of the Esquimaux countenance.

To Professor Barlow I beg to return my thanks for the interesting paper in the appendix, on the observations which Mr. Kendall and myself were enabled to make on the magnetic errors of our compasses; and I am no less indebted to Dr. Hooker of Glasgow, for his valuable communication on the few plants which I procured in three short visits to the shore.
