the Municipal

of York on

1915, provid-

to the purpose

of en-
the Town-
ship

to be made

of the first

You would not do it for a single year. This agreement calls for a permanent arrangement.

And note this! You men, whose vote will decide this thing, that any great radical move in the matter of operation, construction, equipment, or extension of this proposed railroad, any such move, no matter how vital and serious it may be to Toronto, is voted upon, not by the different municipalities themselves, but on the contrary, the councils of these 31 municipalities have absolute power without submitting the issue to the people at all.

This means that a councilman in the township of Etobicoke, for example, or any other town or township on this proposed radial, will have more power on an issue vital to each taxpayer in Toronto than we ourselves will have.

Once we have voted in favor of the By-Law we never again can effectively raise our voice, and as for depending upon our City Council, you can see for yourselves how much the present City Council has safe-guarded us, when it has not, even as a Council, considered the By-Law clause by clause, or taken the most ordinary of all business precautions, that of asking the City's Legal Department for an opinion.

Well, you say, after all, even granting these things (for they cannot be disputed), can we not look to a man like Sir Adam Beck to see that things are run right and everybody's interests watched?

The point is well made—nobody questions Sir Adam's sincerity and good intentions. But, forgetting even for a moment the extremely dangerous features of the agreement, let us ask ourselves this: "Has Sir Adam any perpetual lease on life?"

This is not an agreement with Sir Adam Beck. This deal is a deal by which Toronto gives her streets, contributes more than \$4,000,000, at a time when if ever the city's resources needed to be conserved, they should be, to a partnership under the control of a Commission. And, mind you, not the present Hydro Commission only, made up of certain individuals, but of the succeeding Commissions down through all time, appointed by whatever government may be in power. For this is a perpetual arrangement on which your vote is to be cast.

Now then, men of Toronto, who, until this By-Law is passed, will still have your "say" as to what the city will and will not do; now then! Remember that voting down this By-Law does not mean voting against radials.

Not at all. It only means deferring the matter until we all get more information—until we can separate the good from the bad—then we can have our radials if we want them and sleep easy because we know that we have, like good business men, thoroughly informed ourselves before we took a step from which there is no retreat.

Remember :

1. Toronto gives her streets and guarantees one-third of the money (over four million dollars), and has —what?— ONE VOICE IN 31.
2. That no matter what the future brings forth, by the terms of this agreement, the electors of Toronto have nothing to say.
3. That this agreement is PERPETUAL, regardless of the personnel of future Hydro Commissions.
4. That Toronto is as valuable to the Hydro as the Hydro is to Toronto; we can afford to be careful and take our time.
5. That a measure which has nothing to fear from investigation need not object to it.
6. That a vote against this Hydro Radial By-Law does not mean a blow against radials, but simply, that, as a good business man—a partner—you prefer that action be DEFERRED until we can have a clear understanding of the vital details of the transaction.

VOTE "NO"

On the Hydro Radial By-Law at this time

A. M. Wood
President, Board of Trade of the City of Toronto

PRESENT A CANTATA FOR SOLDIERS' FUND

St. Joseph's College Students Doing Their Bit for the Invalid Heroes.

Doing their "bit" for the soldiers is now a recognized part of the curriculum of St. Joseph's College, the last effort in this direction being the concert and cantata presented in the college auditorium under the direction of Signor Carboni.

The first part of the entertainment consisted of instrumental numbers, vocal solos and readings, the artists being Winnifred Parker, Mabel Pickard, Bertha Clapp, Dora de la Lave, Olive Flint, Marie McNulty, Lois Gibson and Broadus Farmer.

One of the outstanding numbers was the vocal selection: "Theme and Vari-

ations," Proch-Carboni, beautifully interpreted by Miss De la Lave. In the second part of the cantata, "A Daughter of the Sea," was given with fine effects by the large chorus of pupils and orchestral accompaniment, Mabel Manley Pickard and Winnifred Parker dividing the honors as principals. At the piano were B. Clapp, S. O'Neil, G. Barron; organ, Mrs. W. D. Barron; violin, Broadus Farmer.

The composition of the cantata is such as to lend itself to many dramatic situations and these were all done justice to under the inspiring direction of Signor Carboni, the chorus attaining some impressive results.

The beautiful voices of the principals demonstrating their best work throughout the performance. Rev. R. McBrady, C.S.B., made a stirring patriotic address, expressing devotion and reverence which should feel for the men in khaki who go to their part for king and country.

The proceeds of entertainment are for the benefit of invalided soldiers.

GRAIN FOR GERMANY.

BERLIN, Dec. 24.—(By Sayville wireless).—According to the reports

from Bucharest received by the Overseas News Agency, the contract signed between the representatives of the purchasing committee of the Central Powers and the Rumanian exporters' central committee provides regulations for the export over the railroad

lines or by water of grain previously contracted for, and arranges further for the sale of 500,000 additional tons of grain. Payment for the grain, the advice state, is to be made after the shipment has passed the frontier, or has left a Danube port.

BRITAIN'S EMBARGO GOES ON MORE GOODS
Wireless and Telegraph Material and Hematite on List.

WASHINGTON, Dec. 24.—The United States consul-general at London notified the state department today of the following changes in the British export embargo:

Hematite pig iron, iron and steel smelting scrap, prohibited to all destinations; bicarbonate of soda, bladders, casings and sausage skins, colchicum and its preparation, solid drawn steel tubes, wireless telegraph, prohibited except to British possessions; material for telegraph and telephone, vegetable fibres and yarn made therefrom, not including linen
