## TRADE RELATIONS WITH JAPAN ARE THREATENED

Japanese Chambers of Commerce Adopt Strong Resolutions—Attitude at Washington.

TOKYO, June 30.—At a joint meeting of seven chambers of commerce here it was resolved to address the principal chambers of commerce in America, in part as follows: "It has always been a matter of profound satisfaction to the people of Japan to witness the constant growth of cordial relations between our two countries and of our community interests in the fields of trade and commerce."

"But since last year the people in a section of your country have unfortunately acted in a manner calculated to prejudice the legitimate rights of Japanese people, who have been frequently subjected to unjust and humiliating treatment at the hands of a lawless element prevailing there."

"We, therefore, venture to address you, confident of hope that you will, shared by you and that you will, considering the matter upon the right principles of national intercourse and the mutual advantage of trade relations, do your best to speedily eliminate the present causes of discord and insure our common prosperity for the future."

A resolution was also addressed to President Roosevelt, stating the resolutions they had sent to the chambers of commerce, and asking him to use his power in bringing about a solution of the existing difficulties.

**WORK, NOT LEARNING, IMPROVES THE NEGRO**

Hoke Smith, Inaugurated Governor of Georgia, Gives His Views on the Problem.

ATLANTA, Ga., June 30.—Hoke Smith was inaugurated governor of Georgia yesterday. In his inaugural address Governor Smith suggested special legislation to prevent corporations from using improper influence to control legislation. The legislature, he said, should prohibit the railroads from issuing free passes between points within the state.

Discussing the negro problem, the governor said:

"Any plan for the negroes which fails to recognize the difference between the white and black races will fail. The honest student of history knows that the negro had full opportunity for generations to develop before the days of slavery, that the negro race was improved by slavery and that the majority of the negroes in this state have ceased to improve since slavery."

"Few have been helped by learning from books. All have been helped who have been taught or made to work."

The missionary funds had been increased, last year the amount given by the church being the largest in its history. The educational fund, which had been given to the youth of the church, the Sunday school had been reorganized and plans had been completed for a new building.

A farewell reception will be held on Wednesday night, Rev. Mr. Couch goes to Hamilton. He will be succeeded by Rev. F. W. Falls of Hamilton.
