SOCIETY TURNED OUT TO WITNESS THIS GAME.

Annapolis Naval Cadets and Westpoint Military Cadets Played Football Saturday Before 30,000 People at Philadelphia—Vice President Fairbanks and Japanese Prince Were Present.

FOOTBALL.

Great Society Event.

Philadelphia, Nov. 26.—In a football game marked by the most desperate playing, West Point today defeated Annapolis by the score of 11 to 0.

Society recognizes the West Point-Annapolis game as the proper football function. Not in the history of the University of Pennsylvania has such an immense crowd witnessed a football contest in this city, with the exception of the game which was attended by President Roosevelt two years ago. The ideal weather brought out a crowd of over 30,000 persons.

On Franklin Field the scene was brilliant and inspiring. The army ground stood out prominently on the south stand and made an artistic blending with the multi-colored hats and gowns of the ladies whose sympathies were with West Point, while on the north stand the navy blue, banked on either side by a veritable flower garden, combined to make a gorgeous spectacle. It seemed as though the war and navy departments and the foreign legations had been transferred from the national capital of this city. In the foreground and attaching the most attention was Prince Fushimi, member of the reigning house of the Japanese empire. The prince did not know much about the game but took an intense interest in the immense throng and seemed to thoroughly enjoy the terrific noise of the volleys of cheers. Vice-president elect and Mrs. Fairbanks occupied seats on the West Point side of the field. The secretary of the navy was the center of a large group in a box on the Navy side and opposite him on the Army side sat Acting secretary of war Oliver. Near him were Lt. General and Mrs. Chaffee, Miss Chaffee, Sir Mortimer Durand, the British ambassador, Lady Durand, Miss Durand, and Miss Taft. Seated in the other boxes were secretaries and members of various foreign embassies. Everywhere in the stand could be seen men whose names are famous in either the army or the navy. With the exception of

the cadets from the two academies, no one was in uniform.

THE RING.

Britt vs. Corbett.

Young Corbett's desire for a fight with Jimmy Britt may be gratified. Friday these two pugilists made a compact whereby they are to meet in a 20-round bout some time next month at San Francisco. Britt and Corbett are to weigh in at 130 pounds, ringside. Britt insisted on this scale, and although Corbett preferred to do battle at 130 pounds he finally gave in. Corbett declares that he is so desirous of arranging this bout that he will go further than this and consent to meet Britt at catchweights. Jimmy Corbett of the Yosemite A. C., San Francisco, has been empowered to go ahead and clinch the combat, and in a few days will present a set of articles of agreement, which he is now drawing up. In it he will insist that both sides post forfeits of \$1,000 for appearance. This the rivals aver they will do.

Maher Coming Home.

London, Nov. 25.—"Dandy" Maher, the famous American jockey, sailed for the United States yesterday on the Kaiser Wilhelm der Grosse. He heads the list of winning jockeys in England this season, having won \$500,000 for his employers, including three \$50,000 stakes.

Gordon—Emile is certainly the sweetest girl in all the world.
Gordon—That's what the man in love always says of his flame.
Gordon—But it is true in Emile's case. I told her it might be many years before I could ask her to marry me, and she said that she would wait for me. I was completely satisfied. Wasn't that good of her?

On the ice slider—After all, the poetry of motion is best demonstrated in skating. (His foot strikes an obstacle and he plunges up the ice with his nose.)
Slider—The poetry of motion, eh?
Slider—Yes, and then the poetry and melody like that is the poetry of emotion.

SUSSEX NEWS.

Two Accidents on Saturday, One of Them Serious.

Sussex, Nov. 28.—William Walker of Ward's Creek met with a very serious accident here on Saturday. He was unloading a portable mill from a car at the I. C. B. platform, when some part of it fell on him crushing him to the ground. He was released as quickly as possible and taken to his home. The doctor reports the case a critical one.

Humphrey Johnson of the place also met with an accident on Saturday. He was riding a horse through town when the animal stumbled and fell, rolling over on Mr. Johnson's leg. He received injuries which will keep him in the house two or three weeks.
G. W. Fowler, M. P., entertained a few of his friends at his home Friday evening.

THE NEWSPAPER AND THE BIBLE.

Some Pertinent Utterances and Broad Statements by a St. John Unitarian Clergyman.

In the Unitarian Church on Hazen Avenue last evening, Rev. A. McWalter, gave an interesting talk on "The Newspaper and the Bible." He said the newspaper was a book of chronicles to mirror and record the present life and our interests are centered in the events of the present. The newspaper was not the simplest thing on earth and had to be studied in the same way as the Bible. Among the important points to be read and studied, Mr. Walker instanced the records of crime, and, in passing, complimented the St. John press and said that in some places, crime was dealt with in the newspapers in such a way as not to lead to crime. In the columns of the newspapers, life was seen as it really was. The record of misfortunes was also important as when for instance a whole family might be depicted starving while the police would be keeping the crowds back from an extravagant ball nearby, instead of hunting for cases of destitution.

Newspapers contributed to the "no life cause of pessimism" by presenting life as it really was and preventing back from an extravagant ball nearby, instead of hunting for cases of destitution. The editor of a newspaper was a true descendent of the true prophet, and handled the language of the day in a spirit of true prophecy, and a careful study of the daily world gave enough texts for a lifetime. The position men had to face today was that the newspaper was preferable to study to the Bible. There was no time for Bible reading when the newspaper was at hand.

"I'm afraid, Johnny," said the Sunday school teacher, rather sadly, "I shall never meet you in the better land."
"Why? What have you been doing for the purpose of escaping work?"

Have You One of Those Can't Taste, Can't Smell Colds?

If you have you had better get rid of it immediately. If you don't, that terrible and disgusting malady, Catarrh, is sure to take hold of you and make you miserable, and an object of repugnance to your friends. The best and quickest cure for your cold is

Dr. Wood's Norway Pine Syrup. It contains all the virtues of the Norway Pine Tree, combined with Wild Cherry Bark and the soothing and expectorant properties of other excellent herbs and barks.

Mr. Harry Mosher, Mosher's Island, N. S., writes:—"We have used Dr. Wood's Norway Pine Syrup in our family for the past six years, and have always found it a reliable remedy for the cure of coughs and colds."

Many cases of substitution have been brought to our notice. Do not be humbugged into taking any other pine syrup which unscrupulous dealers say is just as good.

Dr. Wood's is the original, put up in a yellow wrapper; three pine trees the trade mark, and the price 25 cents.

ST. PETER'S Y. M. A.

Dr. Thomas Lunney Delivers an Interesting Address on Emergency Cases.

Dr. T. H. Lunney delivered an interesting lecture yesterday afternoon, before the Y. M. A. of St. Peter's church. His subject was "Emergency Cases."

Examples of these were taken in foot ball, hockey, base ball, swimming, boxing, and other forms of athletics. Dr. Lunney outlined the locomotor, circulatory, and respiratory systems of the bodies as a preface to his lecture, and gave the purpose and character of each. The majority of emergency cases come under two heads, fractures and dislocations, the first a break and the second a displacement of bones. A slight knowledge in this direction can be of great utility in case of an accident, and not only relieve the sufferer but aid the doctor when he finally arrives.

FUNERAL OF E. B. WINSLOW.

With Crick in the Back

You are up against a whole lot of trouble unless you have a strong remedy like Nerviline to settle pain and lissidage stiffness from the muscles and joints. Just rub Nerviline on the painful spot—not much rubbing because Nerviline has more power than ordinary remedies. You applied for it relieves almost instantly.

Mr. Phillip Adams of Oakland says: "If I hadn't used Nerviline I guess my back would be stiff yet. A few applications of Nerviline took out all the soreness and stiffness. I can recommend Nerviline for any kind of muscular pain, also for rheumatism. Price 25c."
