I. S. SHIP RUN DOWN OFF MASS. COAST

STEAMER GOES ON WITHOUT OFFERING HELP

Nova Queen Forced to Anchor in Heavy Sea

HIT IN CHANNEL Coast Guards go to Aid of Craft But Tow Impossible

NORTH TRURO, Mass., Oct. 6.—The three-masted schooner Nova Queen, bound with a deckload of laths from Nova Scotia ports to New York City, was run down in the early morning darkness off Nantucket Shoals by an unidentified steamer, the coastguard station Monary Light reported today.

The bow and head gear of the schooner was smashed. All the damage occurred above the water line, but the schooner was forced to anchor near Stone Horse Lightship, in a heavy sea, to await the arrival of a coastguard cutter to take her in tow. Captain G. R. Merriam, of Parrsboro, N. S., is master of the schooner.

STEAMERS PROCEED

Word has been sent to New York to watch for the arrival of two steamers, presumably enroute to Boston. One steamer was trying to pass the other in the narrow channel, at that point, according to Captain Merriam. He said that he was at the edge of the channel and that one of the steamers crowded over and struck his vessel, a wooden ship of 476 tons displacement. Both steamers continued without making known their identity or offering assistance, he said.

Consular officers went out to the aid of the schooner and hoisted her clear away from the wreckage, so that she could be towed. Late today they reported that it might be possible to take her in tow, with the heavy seas that were running. It was feared that unless the schooner could be towed to the coast, she would be wrecked on Handkerchief Shoal.

Forke Promises Maritimes Consideration In Securing More Immigrants

For First Time In History Woman Presides At Sessions of British Conservative Union

British United Press. SCARBOROUGH, Eng., Oct. 6.—Trade unionism, strikes, picketing and organization of union finances came under a cross-fire of resolutions here today when the National Union of the Conservative party began its 54th annual conference. For the first time in the party's history, a woman presided over the conference. Tonight, Premier Baldwin was to speak.

The scope of the conference's intentions toward trade unions was indicated in the resolutions introduced by Sir Arnold Gridley in behalf of the Rugby Conservative Association. In four blunt items the resolution proposed that any strike which had not been preceded by a secret ballot should be

illegal; that greater protection should be given trade unionists against victimization and intimidation; that mass picketing and the picketing of workers' homes be forbidden by law; and that the national accounts of trade unions be subject to public inspection, with annual certification by chartered accountants.

The English Conservative Association asked the government to make a private investigation, all testimony to be secret, in an effort to discover from the workmen themselves "the difficulty from which they are suffering under trade unionism."

Dame Caroline Bridgeman, who has been actively engaged in Conservative party work for many years, presided today.

Belgium Prince Enlisted When 13 Years Old

BRUSSELS, Oct. 6.—Crown Prince Leopold, who is to be married to Princess Astrid of Sweden, next November, holds the distinction of having been the youngest soldier to join the colors of his country, for active service in the great war.

The Prince was exactly 13 years and 6 months old when on April 3, 1915, he enlisted. It was no "parade enlistment." King Albert himself accompanied his son and heir to the recruiting office, and insisted that Leopold should be enlisted as a private, and treated like an ordinary soldier. Leopold was a sergeant when the armistice was signed.

The wedding date of Princess Astrid and the Crown Prince has been set for November 20 in Brussels.

Cunniffe is wanted by authorities in Nassau County, N. Y., in connection with the slaying there of Ernest L. Whitman, a bond salesman, during a holdup at the Belmont National Bank, Belmont, in April 1925.

HERTZOG STAND TO GET REPLY AT IMPERIAL MEET

When King at War, Dominions at War, Fact Now

NO NEUTRALITY

London News Says Coming Conference Will Clarify Empire Situation

By HERBERT BAILEY British United Press. LONDON, Oct. 6.—When the Sovereign is at war, all his Dominions are at war, and it is impossible for the Dominions legally to contract out of such a war, although they may not contribute one soldier or one sailor to the defence of the Empire. This is the attitude taken by the British government here toward Premier Hertzog's intention to raise the question at the forthcoming Imperial Conference.

Every Dominion can, of course, decide for itself whether it wishes or not to participate in any war in which the Mother Country is involved. It has perfect freedom in this respect and enjoys the fullest sovereign rights, but so long as its people are subject to the King they are liable to be regarded as being in a state of war by the King's enemies.

IS LEGAL FACT

It is not a question of policy but one of international legal fact from which there is no escape, unless the dominions withdraw from the Empire. Naturally, any enemy of the Mother Country who will discover a loophole to increase its enemies without good cause, and expectation of advantage, but on such matters as the coming conference in the way of clarifying Imperial relations and improving the machinery for co-operation in foreign affairs.

PAPER'S COMMENT

Meanwhile newspapers are still reviewing Hertzog's policy. The Liberal Daily News says: "We hope a great deal will be done at the coming conference in the way of clarifying Imperial relations and improving the machinery for co-operation in foreign affairs."

"It is well to state plainly that if the British Empire is to function at all it must function as a whole and if one or more of the partners is determined to be half in and half out the concern must sooner or later cease to exist. Hertzog is an able and conscientious man but he will discover ever put to trial South Africa will decide very emphatically in favor of the British Empire."

AMBASSADOR DENIES TROUBLES IN SPAIN

Declares False Reports Spread by Financial Speculation Circles

LONDON, Oct. 6.—Alarming false reports about conditions in Spain are being circulated by "certain financial circles" to further speculation in Spanish exchange, the Spanish ambassador, Marquis Alfonso Merry Del Val y Zulueta, charged in a statement yesterday. He declined to identify the "circles" mentioned.

The ambassador's statement followed the circulation in Europe yesterday of reports that trouble had broken out in Spain and that King Alfonso had been assassinated.

"A state of siege has not been proclaimed in Spain," he said, "and the troops have not been confined to their barracks, in spite of telegrams from Biarritz, published yesterday, and in there any movement in certain sections of the army, as reported."

NEW MINISTER HONOR GUEST AT BRANDON DINNER

Policy, He Declares, Will Mean More Settlers

IS OPTIMISTIC

Difficulty in Getting Farmers From Old Country, He Says

Brandon, Man., Oct. 6.—Hon. Robert Forke, Minister of Immigration, and federal member-elect for Brandon, was a guest of honor last night at a banquet following his return from Ottawa.

Mr. Forke said that while he would do his utmost for Western Canada to secure immigrants, that at the same time he would have in mind the interests of the whole Dominion. He referred particularly to the Maritime Provinces, which he said could absorb many immigrants.

Hon. T. C. Norris, provincial Liberal leader, who preceded Mr. Forke, said that Manitoba and the rest of the Dominion, were to be congratulated on the selection of Mr. Forke for the ministerial post.

FORKE OPTIMISTIC

Mr. Forke in replying, stated that he was most optimistic in regard to immigration, and had no doubt that a great influx of immigrants could be expected as a result of "a more aggressive immigration policy." He stated, however, that he had no revolutionary immigration policy to announce.

"Remember this is a hard country to govern," stated Mr. Forke. "What will win applause in the West will be greeted with silence in Ottawa. We cannot all get what we want and if we can get section best, the last few years, I cannot tell you what my program is because I do not know what it will be. There are some difficulties in obtaining agricultural immigrants from Great Britain because they are not to be had."

MARITIMES' POSITION

Mr. Forke continued by stating that there were plenty of unemployed in Great Britain but they did not come from the farms. He had no doubt, however, that a large number of people could be induced to come to Canada and he would endeavor to bring them in at least much larger numbers than had been the case in the last few years. He had been informed, he said, there were large numbers of younger sons of people of means who were desirous of coming to Canada. That opened a wide field which would have careful investigation.

He did not think it was wise to make a declaration of policy, but it was unquestioned that Canada was capable of accumulating and really required double the population of the present time. There was no doubt that the Maritime Provinces could absorb many immigrants and he could assure them that while he would do his utmost for Western Canada, he

Fair Weather Pitchers Are Named For Today's Contest

Hoyt and Reinhart Scheduled to do Honors in Fourth Game

ST. LOUIS, Oct. 6.—A warm sun and a light cool breeze today gave promise of a dry diamond for the fourth world series game. The weather bureau forecasts "fair today" and "rain Thursday, with rising temperature."

ST. LOUIS, Mo., Oct. 6.—Fair weather is in sight for the fourth game of the world's series between the Yanks and Cardinals today, with clear skies and warmer temperatures, by Thursday.

In spite of the forecast of fair today, the man-killing tarpaulin is down and will remain so until the sun definitely chases it away. Fair weather pitchers were in readiness for the fourth test of the series. Miller Huggins, who makes no secret of his pitching thoughts, had definitely decided on Waite Hoyt to serve. Rogers Hornsby, after mentioning Arthur Reinhart as a possibility, every day, finally drew the left hander's number from the hat.

HIS FOURTH SERIES

Although only 28 years of age, Hoyt has been pitching professional baseball for nine years, and has tossed with varying success in three world series. Reinhart is just Hoyt's age but lacks the New Yorker's experience. He is a left hander, who is able to

add to the offensive as well as defensive power of his team.

Neither manager indicated today that he anticipated injecting any new faces into the line-up, with the exception of the ever-changing pitchers.
