There was a time when the Globe would have been vastly amused by the Conservative ticket nominated in this city would have been vastly amused by the Conservative ticket nominated in this city on Tuesday night, but it contents itself with saying that the ticket "Is not as strong as a judicious selection of candidates for nomination would have made."

The Globe is quite right. Its remarks will be endorsed by Conservatives as well as Liberals, although from the party standpoint the Liberals have reason to rejoice that they are not compelled to meet with stronger opposition than that which will be put up by Measrs. Wilson, Lockhart, Grannan and Tilley. Col. A J. Armstrong, by the way, has reason to feel that the treatment accorded him was now what he had a right to expect. He was urged, as he says, by Mr. Baxter and Mr. Maxwell, to enter the field, but did not get a place on the ticket. Neither did Mr.

The Globe is quite right. Its remarks will be endorsed by Conservatives as well an average increase of \$1,057,960.17, which is an average increase of \$264,490.04 per year. And in addition there has been an enormous increase in the liabilities, as a result of legislation adopted, while there was also an admitted deficit of \$56,000 last year. How much larger the deficit really was the people will not be told before the elections, but they may take it for granted that the whole story has not been revealed.

Can a government with this record call itself a business-like government, guarding the interests of the people? Is it not time for a change?

The Young Liberals are ready for a vigure of \$264,490.04 per year. And in addition there has been an enormous increase in the liabilities, as a result of legislation adopted, while there would wait the chalk the c Maxwell, to enter the field, but did not get a place on the ticket. Neither did Mr. Mullin, who had every reason to expect that he would receive a nomination. The result of the convention shows that there are heart-burnings and jealousies in the tory ranks. This will make the task of the Liberals all the more easy.

The Young Liberals are ready for a vigorous participation in the campaign in St. John.

The Young Liberals are ready for a vigorous participation in the campaign in St. John.

A western paper observes that the deriders of the "tin-pot" navy are in deep water.

The Sackvilla Post, which asserts that

ment is both undesirable and impractic able," and that the party must "work in harmony with, and court the sympathy of the Dominion government." That interesting fable about Liberals and Conservatives lying down together at Fredericton may as well be dropped from the campaign literature of the time.

One of the speakers at the Conservative convention on Tuesday night made the customary attack on Hon. Mr. Pugsley, and made the customary charges against him in connection with the Central Railway. The Hazen government appointed a high

ed to do so, or to substantiate the charges made against him. Moreover, Dr. Pugsley did not virtually hand over to the Canudian Pacific Railway a valuable asset of try. Mr. Borden has had a fright. the province. That iniquity has been perpetrated by the government led by Hon.
Mr. Flemming. The attacks made upon Dr. Pugsley are made because of his thorough exposure of the government in the matter of the Central Railway and the St. the day largely to the consideration of John Valley Railway.

THE LAURIER BANQUET

The Canadian people will await with interest an opportunity to read a full report of the great speech delivered by Sir Wilfrid Laurier in Montreal last evening. The banquet was a brilliant success, and brought together leaders of the Liberal party from all parts of Canada. The key-note was optimism, and those present not only expressed but felt the conviction not only expressed but felt the conviction "I have a terrible cold," he complain that the party must soon resume the direction of affairs in this country. As Sir would aptly said, the party was defeated sweetly.

"My head feels all stopped up." "Have you tried a vacuum cleaner?" she queried, sweetly.

COLWELL BROS. 61-63 Peters LONDON HAS AERIAL TAXI

London May 30—The aerial taxi-cab has apparently arrived. A peculiar machine is on view at Brooklands, which the experts termed an "avro." derived from the name of A. V. Roe, the maker. It is, perhaps, one of the most extraordinary aerial vessels yet constructed. The body is shaped like a fish, and has two great staring eyes, which, on close inspection, turned out to be windows. The pilot sits in complete seclusion after climbing into the small cabin through an opening at the top, which is like a submarine conning tower. No draughts can bother him, as he sits in a light metal armchair, and no fumes from the engine enter the cabin, which is well ventilated by small air currents during flight.

At present the "Avro" seats only one person beside the pilot, but the inventor
