FAMILY PHYSIC.

There has long existed a public demand for an effective purgative pill which could be relied on as sure and perfectly are in its operation. This has been prepared to meet that demand, and an extensive trial of its virtues has conclusively above with what success it accomplishes the purpose designed. It is easy to make a physical pill, but not easy demands the best of all public—one which meads have mone of the objections, but all the adomatique, of exercity other. This has been attempted new, and eath public desiration. It has been unfortuned for the public desiration in the system as to more than continer but and intuiting to the basels. This has the Many of them produce so much griping poin and revulsion in the system as to more than continer but may be produce no irritation or pan, unless it urise from a previously existing obstitution or demantement in the bowels. Geing purely vegetable, no harm can arise from their use in any quantity; but it is better, that any medicine should be taken judiciously. Minute directions for their use in the governal public desired in the system as a product of the public desired in the system and public before the public desired in the system of Jaundice, Indigestion, Languor and Loss of Appetite, Listlessness, Irritability, Shioms Headache, Billous Fever, Fever and Ague, Paln in the Side and Loins; for, in truth, all these are but the casesquence of diseased at tien in the liver. As an appetite, this desired in the primity and sure relief in Catavaness, Files, Colic. Dysenter, Mutours, Serotal and Servey, Colds with soreness of the body, Livers and impurity of the blood, in short, any and every case where a purgative is required.

They have also produced some singularly and every case where a purgative is required. They have also produced some singularly and every case where a purgative is required. The wasted or diseased energ

These Pills, the result of long investigation and stadgarar effected to the public as the best and mass compit to which the present state of medical scarce an afford. They are compounded not only of Vegetable ramelles, extracted by the micellanguage of the drugs-themselves, but of the medicinal changes where on a first first principle and principle as the best small. This system of corapsentier for medicines has been found in the Cherry Pe-terral and Pills both, to profuse a new efficient remedy than had hitherto boso obtained by any process. The reason is perfectly elevation. While by the old mode of composition, every modicine is burdened with more er loss chemical intervals and in the Cherry Pe-terral and Pills and the Cherry Pe-terral and bills with a curative effective pasent. All the inert and observed qualities of each sustaine complexed the left tobiad, the curative structure of the sustaines composition.
