

NEUTRALITY LAWS.

Mello's Agents ask the President to Interfere.

WITH THE PREPARATIONS BEING MADE TO SEND WARSHIPS FROM NEW YORK TO FIGHT MELLO.

They Say It is in Direct Violation of Neutrality Laws of the United States—Denounce it as an Outrage—American Officers Manning the New War Vessel.

Buenos Ayres, Nov. 24.—News from Rio de Janeiro is that President Peixoto will call to President Cleveland requesting that nothing be done by the American government prejudicial to the rank or commission of Admiral Stanton, as it is now believed by the Brazilian government that no discourtesy toward it was intended by Admiral Stanton when he saluted the rebel admiral.

Montevideo, Nov. 24.—Advice received from Rio de Janeiro as to the effect that the proclamation issued a few months ago by the foreign ministers in that country forbidding the bombardment of Rio has been withdrawn.

New York, Nov. 24.—The Brazilian flag will be unfurled from the mast-head of the old Britannia and the vessel will be christened America with appropriate ceremonies this afternoon. The work of transforming her into a President's vessel is nearly completed.

New York, Nov. 24.—Edmund Duerin, who says he is a Montreal barrister, and Francis E. Devin, both of whom claim to be friends of Admiral Mello, but whose actions indicate they are rather agents in this country for the insurgents, are making efforts to aid Mello by having the departure of the new Brazilian cruiser American from this port stopped by legal means.

Washington, D. C., Nov. 24.—No action has been taken by the president on the application of Messrs. Guerin and Devin, acting in Admiral Mello's interest, to have the government stop further recruiting in this country for the Brazilian navy. It is difficult to see that the government can take any action in the matter as it now stands.

New York, Nov. 24.—The British ship Delcomon arrived from Rio to-day. She reports that while aground on a mud bank two days ago a cross fire between the vessel's ship and Peixoto's forts struck the vessel was struck amidships by a bullet from a rapid firing gun. There was no serious damage.

British Evacuation of Gotham. New York, Nov. 24.—The 110th anniversary of the British evacuation of New York was celebrated this morning at daybreak in Central Park with the usual ceremonies. This afternoon there was a military parade over the route traversed by the Continental army to the battery. This evening various patriotic organizations will give banquets.

Guarding Against Smallpox. New York, Nov. 24.—Strenuous efforts are being put forth by the health officials to guard against a possible epidemic of smallpox. The urgent suggestion of the department that the citizens should use the resources provided in order that assurance might be doubly sure has been heeded to an unexpected extent, and the total number of persons vaccinated during the past week runs up high in the thousands. A few cases of the disease have now been treated at the pest house and are being regarded as of a sporadic character, although a careful inspection is daily made of the quarters of the city where new cases might be likely to develop.

Arms and Machine Confer. London, Nov. 23.—The Madrid correspondent of the Daily News telegraphs as follows: "To-day (Thursday) General Azaña has been interviewed by Muler Azaña outside the Spanish lines at Melilla. Azaña renewed his friendly assurances on behalf of the Sultan and made proposals to stop further fighting, offering guarantees for the good behavior of the tribes. The government will reply to-morrow."

Canada in England. London, Nov. 24.—The statements of Sir Charles Tupper in an interview with Reuters reporter to the effect that the Montreal dynamite incident would be repudiated by French-Canadians; that the people of Quebec are loyal to the queen and to British institutions, and that he did not advocate annexation to the

TWO CRYING EVILS.

Ottawa is Stormed by Delegates from Many Cities.

WITH MANY WRONGS TO BE RIGHTED.

A General Bankruptcy Law for the Dominion Wanted.

In Place of the Present Insolvency Act—Which is Unsatisfactory—Electric Street Railway Men Crave Audiences—They Wish Duty Taken Off Rails Over Twenty Five Pounds.

Ottawa, Nov. 24.—A large delegation arrived here this afternoon from Montreal and Toronto and waited on Mr. Foster to ask that a general bankruptcy law be passed for the Dominion so as to do away with the present unsatisfactory condition of the insolvency law.

A big delegation from Montreal, London, Hamilton, Toronto, Port Arthur, Peterboro, Windsor and Ottawa, representing the electric city street railway companies, waited on the government today and asked that street rails over 25 pounds used for street railways be admitted free of duty, the same as rails used on ordinary steam railways.

At present electric companies have to pay \$7 a ton. They met Thompson, Foster, Caron, Daly and Wallace, who promised to consider the matter.

Nicholas Connolly has not so far resigned the presidency of the Richelieu & Ontario Navigation Co. Michael Connolly will take an active part in the management of the line during his brother's imprisonment.

Italian Cabinet Resigns. Rome, Nov. 24.—At a meeting of the cabinet this morning the situation arising from the reading yesterday in the chamber of deputies of the report of the committee appointed to investigate the bank scandals was most thoroughly discussed. The ministers decided their usefulness was at an end, and in accordance with this decision the cabinet resigned.

The Hawaiian Middle. Washington, D. C., Nov. 24.—Washington has settled down to the belief that the first authentic news as to William's instructions on the Hawaiian complication will be laid before the country in President Cleveland's message to congress, which re-assembles on Monday week. It is believed the president's message will be sent in on Monday.

Rusk's Funeral. Virroqua, Wis., Nov. 24.—The funeral of ex-Secretary Rusk took place to-day. The funeral was a most impressive one. The town was crowded with people of all conditions who came to pay their respects to the memory of the departed.

Had His Fill of Politics. Boston, Mass., Nov. 24.—Gov. McKinley, in conversation last evening on his arrival from New York, said: "I have about had my fill of politics in the last ten weeks, and I feel pretty tired and ready for rest." McKinley generally thinks the people show they are thoroughly aroused on protection, and the effect upon the congressional elections in 1894 will show what may be expected next year. He said it is hard to tell how the result of the election would affect the ways and means committee. McKinley thought indications looked promising for Republicans carrying the Presidential election. He refused to talk regarding the Presidency in 1896. When his will was mentioned McKinley said quickly, "Oh, I can't speak upon that."

Spanish America. Montevideo, Nov. 24.—Foreign residents here are alarmed at the prospect that the legislative elections will be held. Some persons predict that restriction on independent opinion at the elections by the government so as to secure the success of official candidates will cause revolution. Foreigners living here are uneasy, as there are no gunboats in port for their protection.

Big Railway Mortgage. Louisville, Ky., Nov. 24.—A mortgage covering \$18,850,000 was yesterday filed in the office of the recorder in Jeffersonville by the Baltimore & Ohio railway to the Farmers' Loan & Trust Company of New York. This completes the transfer of the Ohio & Mississippi to the Baltimore & Ohio.

Killed by Frigate. New Brunswick, N. J., Nov. 24.—Twenty-year-old Mary Howell, a Prospect Plains, this county, went to the cellar for her doll last night, and while ascending the stairs her brother made a mournful sound and slammed and locked the door. The girl screamed in terror, but the boy kept her locked in. At once she screams ceased, and when the door was opened the girl was found dead. A physician who was summoned said there was due to a shock's death by fright. The brother, who is thus apparently responsible for her death, is ill from remorse.

Effects of Bad Whiskey. Shamokin, Pa., Nov. 24.—Eight months ago James Starke, an iron worker, became angry and swore in a most frightful way. He became dumb at the time and did not speak again until yesterday, when he attended a protracted meeting and made a profession of religion, after which his speech came to him. Next day, however, he was speechless again, and he is now losing his sight. When

PREFERRED DETAIL.

An American Resident of the Hawaiian Islands.

SAYS THE WHITE PEOPLE OVER THERE WOULD RATHER BE SHOT DOWN BY U. STATES MARINES.

Boston, Mass., Nov. 25.—Ex-State Senator Gillman has received from a prominent gentleman in Honolulu a letter in which the writer says: "The strong people await with anxiety Minister Willis' disclosures. The provisional government is in a position to stand with much tenacity for its rights. People here will not tolerate the restoration of the monarchy upon any terms. We shall resist any attempt at restoration, and many of us would rather be shot down in the streets by our own countrymen than submit to any such event. My impression here is that Mr. Blount's report is misrepresenting us. It is desirable that we should learn as soon as possible what is to be done as the effect of waiting is paralyzing all business. If the question be restored by force it would have to be done wholly by the United States, as the queen has no army. The United States would have to maintain the queen on her throne if she were placed there."

SPANISH AMERICA. Senator Teller Studying Mexican Silver.

Managua, Nicaragua, Nov. 25.—The representatives of British syndicates have had another interview with the president, but he refuses for the present to consider any overtures from them respecting the canal. He has told them repeatedly the American company has the first right, and it must first be seen whether they can carry out their contract before any proposals can be entertained.

San Jose, Guatemala, Nov. 25.—The man calling himself Menage, the Minneapolis embezzler, has given the American slouch bounds the slip, having got safely across into Honduras. The men who conducted him across have returned here, but none of them will talk about the matter. One of them has since sold some fine clothes marked "L. V. M." Mystery surrounds the entire affair.

Too Many Deaths. Cleveland, Nov. 24.—The alarming increase in mortal among members of secret societies conducted on what is known as the fraternal or assessment plan is giving considerable concern both to the supreme officers and the membership generally of these organizations. In the case of one particular association of the kind, the membership nearly one-third of the deaths reported in the current monthly mortality statement are ascribed to consumption or complaints allied thereto. As a result of these exhibits there is considerable talk concerning the advisability of the officers elected endorsing and recommending to their membership the scientific remedy for consumption originated by Dr. Amick, of Cincinnati, which has attracted considerable attention both among the medical profession and laymen. So widespread is this feeling that the members of supreme lodges and the ruling bodies of organizations in question, and which are to meet during the present winter and coming spring in different parts of the country, the question of formally endorsing this discovery and recommending its use to the membership of lodges throughout the country will be submitted and advocated by representative delegates.

They Want His Scalp. Minneapolis, Minn., Nov. 24.—It is reported that articles of impeachment against Mayor Burtis will be preferred at to-night's council meeting. The mayor publicly declared a few days ago that he would permit anyone to keep their hands off his scalp on Sundays contrary to law. Now the ministers and crusaders want his scalp. The people of the Third ward are terrorized over a mysterious "B12" that has appeared on the residence of nearly every Roman Catholic. This ward has a large A. P. A. membership and that organization is credited with the action.

Heading for Canada. Atlanta, Ga., Nov. 25.—Harry Hill, who is known as the "Society" forget, and whose use of the name of the wife of President Porter of the Merchants' Bank led to his arrest and caused a great sensation throughout the south, was quietly released on bonds yesterday afternoon and quickly got out of town. While the proceedings were regular, there was much secrecy about them. Hill has said since his arrest that he used Mrs. Porter's name on notes with her full knowledge, and that she personally endorsed the notes. An effort will be made by the holders of notes to catch and have him brought back. His ultimate destination is believed to be Canada.

Government Clerks Use Them. Ottawa, Nov. 13.—One striking feature of the Dominion civil servants is their esprit du corps. The actions of one member are sure to find favor in the eyes of all the others. This is strikingly illustrated by an incident that occurred recently. A clerk in one of the departments found himself the subject of a Kidney Pills and in a short time was completely cured. He had told some of

BRAZIL'S LITTLE WAR.

The Destroyer to be Towed South—The Last Javary.

New York, Nov. 25.—The seagoing tug Ocean King has been bought by the Brazilian government to tow the Destroyer to Brazil. She belonged to L. Luckenbach and is one of the most powerful tugs in New York waters. She was built in Philadelphia in 1884, is 100 feet long, 21 feet beam, 12 feet 5 inches draught, and 200 tons burthen. She will probably carry eight torpedoes for the Destroyer, and it is possible she may be armed with rapid-firing guns. It is proposed she shall tow the Destroyer to St. Thomas, take on coal and then proceed to Brazil.

Montevideo, Nov. 25.—Mello's ill-fated warship, the Javary, which was sunk by the guns of Fort San Juan in Rio harbor, is considered a total loss. Nothing can be done in the way of raising her, as long as the conflict lasts, and it is doubtful if she could be raised from the depths where she now lies by any appliances available here, even in times of peace.

CONDEMNED AS UNSAFE. Dominion Museum Closed to Visitors for a While.

Ottawa, Nov. 25.—The Dominion Geological society's buildings, Sussex street, this city, have been considered unsafe, and the museum has been closed to the public. The floors are said to have sunk about six inches. It is a stone building situated upon marshy ground. Members of the survey staff are still at work in the buildings, which will require to be attended to at once. There are 180 tons of specimens of minerals upon one flat. The speaker was here to-day arranging the estimates for the next session of parliament, which is expected to meet on January 25th.

Lynching Would be Excusable. Glassboro, N. J., Nov. 25.—Samuel Jones, a glass-blower, yesterday became angry at his boy assistant, and filling a blow pipe with molten glass wound strands of the hot composition about the lad's wrists and hands. The boy screamed for mercy, but Jones showed none. Finally the victim fell fainting. Jones continued pouring out the molten glass until the blow pipe was exhausted. The cooling glass had tightly bound the boy's hands and wrists together. When the glass was broken the flesh fell away with it. It is feared the boy will die. Jones is under arrest. He has been noted for his fiery temper. Other blowers who know from handling it what terrible burns are caused by molten glass, are threatening to lynch Jones.

World's Fair Profits. Chicago, Ill., Nov. 25.—The profits of exhibitors at the World's Fair have surpassed those of all previous exhibitions. The final count has been made by the concessionaires with the department of collections this week. Over \$10,000,000 worth of goods have been sold by exhibitors of the eight nations best represented. Italy leads the van. During the six months of the exposition concessionaires in the Italian sections of the various departments took in \$2,500,000 for carvings, porcelains, marbles and bronzes. Germany is second in amount of her sales, \$1,500,000. France, England, Australia are rated alike in the aggregate of their sales at \$1,000,000 each, but French and English sales are likely to exceed this amount considerably. The Russian and Spanish exhibits were not in so great a measure commercial as those of Italy, France, England and Japan, but nevertheless their sales reached large and unexpected figures. Both Russia and Spain are down as having transacted business that reached the amount of \$750,000.

Heirs of Old Tippecanoe. Cincinnati, Ohio, Nov. 25.—In the common pleas court yesterday afternoon suit in foreclosure was entered against Betsy Eaton, sister of ex-President Harrison, by Elizabeth S. Fisk, for ten acres of land at the Eaton homestead at North Bend, Ohio. The suit is on a note for \$14,784 dated Oct. 10th, 1879. At his death "Old Tippecanoe" Harrison left about 2,700 acres of land in one tract to his heirs. This tract is the last in the possession of the family.

Died of Football. Wooster, Ohio, Nov. 25.—Robert Christie, of Delmonco, Pa., a member of the freshman class of the University of Wooster, died last evening from injuries received by a kick in the stomach and over exertion in playing football last Saturday.

Unaware of the Tragedy. Davisville, Cal., Nov. 25.—Miss Lydia Dodge was very low last night, but rallied this morning, and is now resting quietly. She is still in ignorance of the murder of Eaton and the death of her brother.

The Lehigh Strike. Buffalo, N. Y., Nov. 24.—At 9:30 this morning Lehigh officials began moving freight trains. Three freight trains a short distance apart were started, all manned by men who will make the run to Sayre, and there take new crews. The strikers say the new men are incompetent and that they have burned out a number of locomotives.

The Olympia's Accident. Washington, Nov. 25.—Nothing has been heard at the navy department about the unsuccessful attempt to run the new gunboat Olympia on her official trial yesterday.

San Francisco, Nov. 25.—A statement was telegraphed east this morning that the gunboat was making 22.2 knots when a pump bolt broke. The engineers were pleased for the engines of the Olympia are counterparts of those of the gunboat Columbia.
