VICTORIA, B.-C., TUESDAY, JUNE 2, 1896

His Enemies in the Orange Grand Lodge Dare not Oppose Him for Grand Mastership,

To Which He Has Been Re-elected by Acclammation-Birmingham Had to Fight Hard.

Wallace's Friends to Bring Out a Man to Oppose Him and There Will be Fun.

Collingwood, May 29.—The Grand Orange lodge has compromised the differences between Clarke Wallace and his followers, and the straight ministerialists or supporters of Birmingham, by re-electing both the Grand Master and the secretary.

The anti-remedialists, however, claim to have the best of it, inasmuch as Mr. Wallace was re-elected by acclamation, of his opponents caring to contest the office with him, while Mr. Birmingham had to fight for his life, and only succeeded in securing a majority of twenty-one in a total of 250

Wallace's opposition to the government, as shown in the meeting of the Orange Grand Lodge at Collingwood, will, in the opinion of the government supporters in West York undoubtedly result in the placing of a candidate in the field Wallace's conduct in the Grand Lodge now settled and the nomination of Dr. Jefferson City, Ill., 6. Orr or some other straight ministerialst is now certain. In fact the agitation to put forward a straight Tupper candidate in opposition to Mr. Wallace has been going on for some weeks. The Liberals have decided to place one can-It is understood the Liberals of South Lanark will support the McCarthytte

St. Louis City Partially Wiped Out the railroad property began. Cars went of Existence by a Terrible Cyclone.

Many Large Steamers Lifted Bodily and High Houses Razed. Carrying Death.

Since the Terrible Johnstown Deluge.

St. Louis, May 28.-At 7:15 a.m. the oss of life in St. Louis and East St. Louis was conservatively estimated at between 400 and 500, but the death list is constantly growing, as additional details of the horror come to hand. Over 200 persons are known to have perished in this city, at least that numper lost their lives across the river, and the number injured will reach into the thousands. The south side of St. Louis near the river suffered most. In East St. Louis, following the line of the river, buildings were razed by thousands, trains wrecked, boats sunk, te'egraph wire crippled in every direction, in fact everything in the cyclone's path MOSCOW'S GREAT DAY was laid waste. The course of the storm was from the southwest to the northeast. There is no means at this hour of estimating the loss of life on the river, but a number of excursion steamers were sunk, and it is probable that hundreds of passengers went down with them. It is impossible to get reports from the police stations, where many of the dead and injured have been taken, consequently any statements in this regard up to the present is no doubt, however, that the loss of Local papers tell of the sympathy life is greater than anything the coun-

> miles, as the reports from the various erly and here various small towns were

wiped out and many persons killed. the western part of the city where the station was blown off while the last race was being run, but it is now known that the people saw the storm coming and took refuge in the adjacent fields. The city bears the appearance of having been shelled by an enemy. In some places the structures have been entirely destroyed, while in others high, jagged walls stand, a constant menace to passers-by. There must be a great number of people imprisoned in the destroyed buildings who cannot be released for hours, although thousands of citizens have offered their aid to the police department to help in the work of rescue. Every hospital in the city is filled with victims, but there is a lack of nurses, physicians and medicines. The bodies are being brought in every minute.

One thing which hindered the work of taking out the dead and rescaing the njured was the prevailing darkness. This even prevented communication beween the various parts of the city. To add to the dismal situation, the rain which fell shortly after the tornado follows: passed began again about 7:30 o'clock and came down in torrents for hours. As to the loss of life on the river, it is reported that the magnificent steamer Grand Republic was sunk with all on He advanced with a gracious bow and oard. The steamer D. H Pink, with thirty passengers on board, bound up Directly the Czarina's hand touched the the river for Peoria, was blown bottom up. The steamer Dauphin, containing and at the same moment the whole of twenty women passengers, and a crew the Kremlin burst into flame. NO 28.

HE KNOWS HIM. Vancouverite's Tribute to Mr. E. · King Dodds.

Mr. King Dodds was denied a hearing by the electors of Vancouver, but he has friends in that city who are determined upon setting forth the truth about that distinguished personage. The following letter, which appeared in the News-Advertiser, will be with interest in view of the fact that Victoria was honored by a brief visit from Mr. E. King Dodds:

"To the Editor of the News-Advertiser: Sir,-Much has been said and more thought about Mr. E. King Dodds' failure to obtain a hearing in the Market Hall. If those who are acquainted with the actions of a disgusted meeting and who willingly or unwillingly shut their eyes to such evidences, would his actions with regard to the Duncan and Scott acts? A person whose playform subterfuges are a by-word and whose oratorical powers are sold to the highest bidder. Neither do we require to be reminded of his connection with the Toronto Times, a sensational publication which the authorities suppressed, as its influence could only be detrimental to the morals of those who were unfortunate enough to read it. This is the man who we are asked to sanction by toleration of speech on a public plat-form. As well listen to a libertine giving an eulogy on morality. The past more and worse might be said, is the reason he did not get a hearing, and may it ever be that Vancouver will always stand on platform prestige ONTARIO.

Vancouver, May 28th, 1896. THE DECLINE OF PIE.

Report comes from the restauranteurs of Chicago that one of the most distinctive of American institutions is in danger. Pie, dear to Emerson and so many other good men, consumed thrice daily for generations throughout the length and breadth of the great Ameriapparatus in commercial form. He length and breadth of the great American pie belt, is no longer in demand at the lunch counter or the batel table. the lunch counter or the hotel table. The pudding, the biscuit and the berry are slowly but surely taking its place in popular affection. The World's Fair covery in these words: "What I have did it, say the pie people. There were strange things to eat there, and visitors, began to experiment. The insidious love of novelty having once taken possession of them, they were lost, and few have
