Manufacturing Company, Corner St. John & Duke Sts. CHATHAM, N. B. THE GENUINE SINGER SEWING MACHINE

OF NEW YORK.

OVER HALF A MILLION SOLD IN 1880. The GENUINE SINGER SEWING MACHINE has been awarded the first premium over all others more than two hundred times at Great Wor'd's Fairs, at State Fairs and at County Fairs, in every part of the United States.

Three quarters of all the Sewing Machines sold throughout the world in 1859 were "Singers," and there must be a reason for that. When any of our style of machine used in millions of homes, leads all the other kinds to such an extent as that there must be some way of accounting for it all. Other Sewing Machine Manufacturers refuse to state their sales! Why? Companies have sprung up in every part of the Union and Dominion of Canada for making an initiation "Singer Machine." Why are not similar companies formed for making initiation of other Sewing Machines? The public will draw its own inference. Gold is continually counterfeited; brass and tin ever! Beware of superficially ornamented machines with an infinite number of worthless nickel plated attachments, but The GENUINE SINGER SEWING MACHINE
