----Our ex-Governor General Rotton-

London, Oct. 25 .- It is 'now evident that the parlimentary campaign will not pass off without serions rioting in many quarters, as party feeling, which already runs high, daily grows more bitter. The Marquis of Lorne, liberal candidate for Hampstead, went down to Brantiord, seven miles west of London, to deliver a campaign speech. While addressing the electors a mob assaulted him with rotten eggs, and some gaining the platform smashed his hat over his head. . The suphastily departed from the scene and ran Ploughing, —James Falconer, Arch. parted for London. Meanwhile the row friends will be present at the contest. continued. The supporters of the Marquis were being severely handled, and betheir champion, they finally retreated, On 10th September the following item leaving the contestants masters of the field. THE REV. D. D. CURRIE'S CASE.—A correspondent of the Telegraph writes:

Referring to Riel's case Hon. Mr. Chapof the same Line is due to arrive about 4th Nov
ember, and after loading, will proceed about time for Mr. Kelly to be removed leau recently returned to Ottawa from

Paris said, -"At first there was a good deal via Charlottetown P. E. I. A despatch of 21sc inst. says.-Quite of sympathy for Riel because they an important event occurred in St. George had a wrong idea about his case. They to-day—the opening of the fishway recent_ | thought he was a Frenchman who was perly under construction. The matter of secuted by the English Government, and The process of ensilage has been going shways on the Magaguadavic river, at this idea was given vent to in articles in all fishways on the Magaguadavic river, at brough a state of evolution, gradually First and Second Falls, has been agitated the papers in France having the best standfor years. Early in the spring a mouster ing, like the Figuro-articles which were minister of marine and fisheries, through true facts. * * They now feel exactly the Hon. A. H. Gillmor, M. P., request- as all men feel-that is to say that law ing the government to take action in the and justice should be supported in their

"THE ELECTORAL LISTS.—Our attention which recently had the subject involved made consideration, were the most powerful influences with which the counsel for the defence had to contend. This is the first case of the kind within the memory of the oldest officials of the courts in Queens county wherein the plaintiffs have failed to get a verdict, whether the defence made now the counted to get a verdict, whether the defence on the list before it is too late."

"THE ELECTORAL LISTS.—Our attention has been called to the fact that the revisions while the relation which the subject to a heavy taxation, while the sales of large estates m bloc should not be divided into smaller to should be left duty free. As to the electoral list and objectiors to any that are already on. It looks rather tishy that though encof the revisors publishes a paper here he makes no mention of the failed to get a verdict, whether the default was innocent or guilty. Messrs.

"THE ELECTORAL LISTS.—Our attention has been called to the fact that the revisors which the reconsideration, were the most power-visors was the sales of large estates m bloc should be subject to a heavy taxation, while the sales of land to be divided into smaller to should be left duty free. As to the devisor of the subject to a heavy taxation, while the sales of land to be divided into smaller to should be left duty free. As to the House of Lords, he hardly went so far as the Hampstead radicals desired, being of the courts in small slices and so pressed down into the silo. In course of time as the relation of the subject to a heavy taxation, while the sales of land to be divided into smaller to should be left duty free. As to the House of Lords, he hardly went so far as the Hampstead radicals desired, being of the courts in the proper light before their was cut in small slices and so pressed down into the silo. In course of time as to the cut of the repair that the very solon gave way to the use of permaent to the solon for inverting the subject to a heavy taxation, while avoided and the fodder be preserved sweet. This was effected by leaving cut fodder in the silo exposed to the air as the silo was slowly filled until it reached 140 degrees or more, a heat which made it unbearable to the hand. At this temperature the germs of acidification or former threatened between Haulan and thread the fodder be preserved sweet. This was effected by leaving cut fodder in the silo exposed to the air as the silo was slowly filled until it reached 140 degrees or more, a heat which made it unbearable to the hand. At this temperature the germs of acidification or formed in the fodder be preserved sweet. This was effected by leaving cut fodder in the silo exposed to the air as the silo was slowly filled until it reached 140 degrees or more, a heat which made it unbearable to the hand. At this temperature the germs of acidification or form Montreal, on Saturday with sickness on board. It appears that when the vested ays ago, the captain engaged one seaman who took sick shortly after leaving port. The dam is about 63 feet. There are three ladders and two flowages; the rise is one foot in the finest fishways in America. The height of water to be surmounted from low tide, below the falls, to the Lead of the dam is about 63 feet. There are three ladders and two flowages; the rise is one form Montreal, on Saturday with sickness on board. It appears that when the vested as cleared at Montreal, some four or five days ago, the captain engaged one seaman who took sick shortly after leaving port. The height of water to be surmounted from low tide, below the falls, to the Lead of the dam is about 63 feet. There are three ladders and two flowages; the rise is one for bard of the days ago, the captain engaged one seaman who took sick shortly after leaving port.
