

FANTASTIC VAGARY.

A PUDDING MAN WHO CONSULTED THE OUIJA BOARD.

This is one of the strange cases which is thought to show that the spirit world is capable of making a proper will. The spirit world is thought to be a large one.

The Oujia board, that curious little device which attracted so much attention and furnished so much amusement to many people a few years ago, has got into the hands of a man who is an expert in its use.

Among the property which Charles M. Pond, of the city of New York, has recently acquired is a large tract of land in the State of New York.

TREES THAT DO NOT DIE

THEY SURVIVE HAKING, HEWING, AND BURNING AND UPROOTING.

The Babbar Tree of South Africa Cannot be Destroyed - The Malah Tree Another Example - When Uprooted It Grows More Roots Elsewhere.

There are some trees and plants which are so exceedingly durable that they are called the "trees that do not die".

The Babbar tree of South Africa cannot be destroyed. The Malah tree is another example. When uprooted it grows more roots elsewhere.
