

PROVINCIAL NEWS.

WOODSTOCK, June 26.—It has been fully ten years since the hay crop looked so promising at this time of year as it now does. In the past few years timothy has been light and clover has been almost a complete failure. The clover is most promising this season. All other crops promise abundance. There was some frost last week. On Wednesday night it was quite severe, and certain sections of the country suffered. A Wicklow farmer says that the beans were badly injured in that parish. The buckwheat was also touched in places. Fortunately the damage was not at all general. Yesterday it rained heavily after a warm Saturday. There promises to be an early harvest, and hay will be a week earlier than last season. It is now thought that there will be a far better crop than when cut last year.

The village of Lakeville is one of the most prosperous centres of the county. Wilson & White, who conduct a large general business there, have begun the excavation for a larger store and warehouse on a new site. J. W. Lifford, who operates a grist mill at Lakeville, says that last year he ground 33,000 bushels of grain. Of this amount 3,200 bushels was in wheat. It is now expected to have a great wheat grinding, as all the farmers have sown more or less.

A serious loss to Tracey's Mills and vicinity, as well as to the owners, as the destruction by fire of the grist and saw mills at that place. The grist mill was run by Zebulon Sloan, and the saw mill by Sloan & Miller.

On the 23rd circuit court will meet in adjourned session, a new trial having been granted in the case of the Queen v. Chalmers and Melvin Crab, charged with having set fire to the buildings of Sidney Lloyd. At the regular session of the court the jury disagreed.

Word has been received from Archdeacon Neales, who is now enjoying a rest at Newport, R. I., that his health is much improved by the rest and change. He expects to return to Woodstock the last of the month. Rev. W. B. Bellows has conducted the services in the three churches connected with the union during the pastor's absence.

An interesting event took place at Debec on Saturday morning in the raising on the school house of a new flag purchased with funds subscribed within the school district. Inspector Meagher was present and delivered an appropriate address. Speeches were made by other gentlemen.

John Wright of Temperance Vale was drowned near the end of March. His son, W. R. Wright of Upper Woodstock, received word yesterday of the finding of the body. Deceased was a very old man, having nearly reached the century mark. His remains were brought to Upper Woodstock and buried there today.

BRISTOL, Carleton Co., June 26.—A much needed rain has been falling since Saturday evening. The remains of the relic of Mr. Braydon, who passed away at this village on Saturday, were interred at Oak Mountain cemetery yesterday. Mrs. Braydon was a well respected person of 79 years, and at the time of her decease was residing with her daughter, Mrs. William Anderson, of this place. The ceremonies were conducted by Rev. Mr. Miller, Presbyter.

Adam Kelly cut one of his hands on a saw in the mill of A. S. Murdoch & Sons, while Frank Willett lost a finger of his right hand in the tannery there on Friday last. A very pleasing wedding was held on the 8th inst. at the residence of Mr. and Mrs. H. Maxan, Benton Ridge, the contracting parties being Miss Alice Maxan of that place and George Little of Woodstock. The presents were numerous and costly.

Last week crops were damaged by frost. SHEFFIELD, Sunbury Co., June 26.—Rev. G. P. Brown, pastor of the Baptist church of Sheffield and Manguerville, received several persons into fellowship of the Manguerville church last Sabbath.

Rev. Charles Henderson now cares for the Baptist church at Scotchton, Queens Co., in addition to his Upper Woodstock charge. ANDOVER, Victoria Co., June 26.—During the past week there has been frost three times and the crops being quite advanced have suffered in proportion. Near Grand Falls and on the Debieux basin and buckwheat were badly affected. The crops are fully two weeks ahead of last year and are looking better than they have for some time.

Goshin's mill in Lilly, which was burned a month ago, will be re-built this week for work in two or three weeks. The corporation drive passed here on Friday but will have to make another trip, there being more lumber still behind. Jas. McNeil, who has the toboggan corporation drive this year, has everything ahead of him at Red Rapids.

CHATHAM, June 26.—In the death of Rev. Neil McKay, D. D., this community has sustained a heavy loss. He has been a resident of this parish for many years. Although he had been complaining of heart trouble for a number of years and had been advised to leave the last year or more, no one suspected the end was so near. During his last pastorate in Chatham he had secured "immunity" to the congregation and passed the remainder of his life in the most cheerful and contented manner. He was a man of great energy and a man of great faith. He was a man of great energy and a man of great faith. He was a man of great energy and a man of great faith.

ST. ANDREWS, June 21.—The octave of St. Andrew's was celebrated in the parish church, Sunday forenoon. The pastor, Rev. John C. Berris, preached a sermon appropriate to the occasion. Bert Clinch conducted the choir by very creditably singing a tenor solo, "A Dream of Paradise," by Claude Lytton. The accompaniment was played by Mrs. Clinch on the organ.

proved since he went to Boston to reside. On the return of the Foresters to their lodge room, a vote of thanks to the Rev. Mrs. Berris was unanimously adopted. Judge Cockburn and wife celebrated the tenth anniversary of their marriage on Monday evening. A large number of friends and well wishers assembled at their residence on McLennan's hill and spent with the judge, his wife and other relatives a pleasant evening. The happy couple were made the recipients of a large number of pieces of useful and ornamental tinware. There are no more highly esteemed citizens in the shiretown than the general judge and his amiable wife.

The ship, Mary Stewart of Bangor is discharging at DeWolf's wharf a four hundred ton cargo of Lackawanna coal, consigned to Mr. De Wolfe. Part of the cargo is being loaded on the cars of the C. P. R. to be forwarded to the mill at Hamilton. C. Nelson Cliff, an extensive orange grower in Florida, U. S., formerly resident of Fredericton, N. B., is making his annual visit to St. Andrews. He is staying at Miss Sprague's. The fish weirs in this vicinity are doing good business. Wm. Thompson of the shiretown has just received one tide this week of mardine herring for which he received \$55.

Thomas Wren, an old and respected resident of St. Andrews, died on Monday evening of heart failure at the great age of eighty-seven years. He was a native of New Brunswick, Durham, Eng., from whence he came to St. Andrews seventy-five years since. During the rainy days of the shiretown when shipbuilding was booming, he designed and built the cabins on a large number of the ships constructed here. He was admitted a first class mechanic in that line. He built the brigantine Jarvis on his own account, and went across to England to sell her. She unfortunately was wrecked on the Babur shoals at the mouth of the River Mersey. Subsequently he built a schooner named the Wren, which he ran for some years in the West India trade. He leaves issue two sons—Captain John Wren and T. Rudolph Wren, druggist, both living in St. Andrews. The deceased lived a pure and spotless life, and was in every respect a good citizen.

Quite a number of ladies and gentlemen interested were present.

Rev. Mr. Hubby, rector of the Reformed Episcopal church, leaves here by train for Boston on Monday next. From thence he will take steamer for London, where he goes as a provincial delegate to the world Sunday school convention in July. Mr. Hubby today was made the recipient of \$120 by his congregation towards defraying his expenses, a tangible proof of the high esteem in which he is held by them.
