

ST. JOHN STAR, FRIDAY, AUGUST 25, 1905.

GOVERNOR VANDAMAN, the governor of Mississippi, has been very prominently before the public recently on account of the serious difficulties his state has been in with the Louisiana authorities. The trouble was an outgrowth of the yellow fever epidemic and a clash of the military of the two states was considered imminent for several days at the height of the excitement.

LITTLE CHILD WAS TERRIBLY BURNED.

Jennie Watson Set Fire to Paper at Her Home

Jennie, the five-year-old daughter of Fred Watson, 88 Sheriff street, was badly burned yesterday afternoon about 5 o'clock. The little one had been playing in the yard, and according to her sister, Beads, must have come into the house and secured some matches. She was lighting some paper in the yard with these when Willie Upton, son of Jeremiah Upton, who lives next door, saw her, and went into the yard and put out the flames. Soon after this the little one lighted more paper, and set herself on fire, as the next seen of her was when, with clothes all ablaze, she was running round the yard. Geo. Oram, whose house adjoins the same yard, ran to the little one's assistance. Mrs. Upton brought out a mat, and she and Mr. Oram smothered the flames. The child's breast and arms were terribly burned, and Dr. Roberts was summoned. He saw that her condition was critical and ordered her removal to the hospital. The child's mother was away at the time of the accident, but was hurriedly summoned. She went to the hospital and remained there nearly all the evening, as the child's condition was extremely serious. Dr. Pratt was also called to the case, as it was some time before medical help could be obtained, and several physicians were rung up. Enquiry at the hospital this morning brought information that the child was suffering terribly, but it was impossible to say whether the burns would prove fatal.

TOWN IN DANGER FROM FOREST FIRES.

HOULTON, Me., Aug. 23.—Forest fires have been burning for the past three days in the vicinity of Monticello, and this afternoon the flames swept within one-fourth of a mile of Littleton. Citizens became alarmed at the situation and wired for a Houlton fire company, which left on a special train at once. Firemen and citizens are working hard to extinguish the flames, and if they do not get them under control by tomorrow forenoon nothing can prevent the entire town from becoming a mass of ruins.

SNEAK THIEF ROBS WIFE OF SENATOR MACKAY.

MONTREAL, Aug. 23.—A sneak thief obtained access to the room of Mrs. Robert Mackay, wife of Senator Mackay, one afternoon two weeks ago and succeeded in getting away with five diamond rings, a gold watch and \$20 in money. The value of the stolen jewelry is placed at about two thousand dollars. Word was received from Toronto today that a portion of it had been recovered in that city.

Expert Tea Blending

HAVE you ever tried to blend colors to match the shade of the red rose?

Pretty difficult, yet an expert can do it easily. Why? Because he can tell by looking at the rose what colors are required to produce that tint or shade. He can make that precise color every day in the week.

Just as the artist in colors blends the tints of the red rose, so my artists in tea blend the "rich fruity flavor" of Red Rose Tea.

With expert knowledge and intuitive skill he selects the particular picking of rich, strong Indian tea and the precise grade of fragrant, delicate Ceylon, and by skillful blending produces the peerless flavor of Red Rose Tea—a tea which for delicacy and strength is matched by no brand of Ceylon alone.

Red Rose Tea

is good Tea

ATTY-GEN. PUGSLEY TAKES A HAND.

He Will Look After the Interests of McArthur and McVay

Another actor has appeared on the civic stage on which the Loch Lomond drama is being played. This performer is Dr. Pugsley, and he will probably take a leading part. Dr. Pugsley has been engaged as counsel for McArthur & McVay, and in order to become familiar with the work with which he will be called upon to deal he yesterday spent the afternoon at Loch Lomond.

Dr. Pugsley says that he was impressed with the magnitude of the work, and sees now the many difficulties with which the contractors have had to contend. Dr. Pugsley was asked how his clients felt about accepting or rejecting the \$15,000 bonus offered by the city. He said that they were prepared to accept any reasonable and fair offer, but before giving a decided answer they would have to look carefully into the proposition which may be made by the city.

MRS. GLOSE WILL PURCHASE A FARM IN NEW BRUNSWICK.

Attorney General Pugsley has received from C. Pratt Miller, agent general for New Brunswick in England, information relating to Mrs. Glose's scheme for the emigration to New Brunswick of poor law children. Mrs. Glose has been interested in this scheme for the past few years, and has made an arrangement whereby she will receive the aid of the New Brunswick government. Mrs. Glose has just received from a London banker a generous donation, which she will devote to the purchase of a farm of about two hundred acres in New Brunswick. The site of this farm has not been selected, but it is expected that Mrs. Glose will come here shortly.

THREE LAME DUCKS.

The river steamers have been having a little trouble this week. The Beatrice Waring struck a rock going up on Tuesday, which started some of her planks. She was repaired on coming back to the city and started out on her regular trip again yesterday. The Hampstead went aground on Wednesday near Day's wharf and bent one of her shafts, making it necessary for her to be towed to the wharf by the Elaine. The passengers were taken on board the latter steamer. The Hampstead was brought back to the city and is now being repaired at Hill-yard's dock. Early Wednesday morning the steamer Majestic met with an accident near Glenwood by which her rudder was broken, and after disposing of her passengers, she was towed into the city for repairs.

WORK ON THE FERRY Dredging the Slips will be Begun Next Monday.

On Monday next the work of dredging under the ferry docks on the west side will be begun, and for three or four days thereafter the Ouagondy will run from the east side docks to No. 2 berth at Sand Point, carrying foot passengers only. A platform has been built on the Sand Point wharf, and on the steamer stairs have been constructed to the top of one of the piddle boxes. This will afford an easy method of getting ashore. Teams will have to go round by the bridge.

In the following week the dredge will be employed in the east side slip, and for several days passengers will be landed at Reed's Point. Three new floats have been built for the Carleton side, and it is thought that these can be put in at one tide. Some of the floats rest at low water on piers, and on the tops of these piers or abutments much mud has gathered. This will have to be shovelled off into the spaces between the abutments, which spaces will be cleared out by the dredge.

There is also on the south of the east side slip a portion of an old wharf, and as this is under water a diver will be employed to cut it away.

W. O. RAYMOND'S BRILLIANT CAREER

His School Life Ends and He Will Be Ordained on Sunday Next.

W. O. Raymond, son of Rev. W. O. Raymond of this city, will be ordained to the Anglican ministry next Sunday at the Cathedral, Fredericton, and will immediately take up pastoral duties at McAdam. Mr. Raymond has attained a very high standard. He took his A. B. degree from the University of New Brunswick in 1903, winning the Douglas gold medal, and graduating with honors in Natural Science, and distinctions in English. The same year he entered the Montreal Divinity College, Montreal, and while there carried off many leading prizes. In his second year he captured every prize in the university, while in his final year he succeeded in winning the Gault gold medal, the Gault prize, and the Ellegood prize, and was appointed valedictorian of his class.

NO ROOM FOR THE NEW FIELD GUNS

They Are Now Stored in the Exhibition Building Until Another Place Can Be Found for Them.

The four guns for St. John's new field battery have arrived. They are not in the military stores building, for owing to the cramped quarters there is no room for them there. But they have been placed for storage in the exhibition building and are there at the order of Col. Geo. West Jones, to whom they were consigned. The guns and their carriages are painted green. They are twelve pounders, and with all the gear attached take up considerable space. But this is nothing to the space they will require for the whole equipment of the battery. There are about a dozen other wagons, ammunition wagons and chiefly, which are due to arrive at any time, and these with the harness for 70 or 80 horses, will almost require a building of their own.

HON. MR. GOODERHAM DIVIDED FORTUNE.

Value of Estate Was \$9,325,017.—Province Gets \$460,000.—Minister's Wife Receives Half a Million.

TORONTO, Ont., Aug. 23.—Among his nine sons and daughters and relatives of two children, who died before him, the late George Gooderham, head of the firm of Gooderham & Worts, divided his fortune. The value of the entire estate is placed at \$9,325,017. Upon this amount the province will derive about \$460,000 succession duties. The executors are four sons and one son-in-law, T. G. Blackstock. The widow receives the family mansion, interest on \$600,000 for its maintenance, and income of \$20,000 for life and \$100,000 in cash. The estate will be divided at the end of ten years, but each son and daughter receives \$10,000 a year in the meantime. W. H. Brouse, son-in-law, and his children receive half a million. Mrs. Acheson, a daughter, wife of Rev. E. C. Acheson, receives a similar amount.

THE GLOBE'S NEW BUILDING.

Work has been begun on the new Globe building. The site is being cleared, and the contract has been awarded to R. A. Corbett and A. L. Dodge. G. Ernest Fairweather is architect. The building is to have a frontage of fifty feet, and will be the same height and of the same style as the present structure. The whole will form very roomy offices. The Globe has for a long time felt the need of additional space for the job printing and news departments, and in the new building there will be ample accommodation with perhaps a little to spare.

Opening Tomorrow, Saturday.

As already announced in the papers, we purpose opening a store in the North End of the City where we will carry a full stock of

Men's, Youths', Boys' and Children's CLOTHING

AND Gentlemen's Furnishings.

All Goods Marked in Plain Figures. One Price to Everybody. Terms Strictly Cash.

Henderson & Hunt

553 Main St., North End,
Store lately occupied by F. S. Thomas.

FELL FROM BOILER AND BROKE HIS THIGH.

David Lowell, Watchman in Sayre & Holly's Mill Seriously Hurt Last Night.

David Lowell, night watchman in Sayre & Holly's mill, Long wharf, met with a very serious accident while attending to his duties there last evening. Mr. Lowell had climbed on top of the boiler to fix something that was not in order and while working with a rope overhead he lost his balance and fell off backward onto a hard asphalt floor. The result was that he received a fractured thigh, and his left arm was badly hurt. The accident occurred about 8 o'clock and the man being all alone in the mill at the time, was left lying on the floor in a helpless condition for some 15 or 20 minutes. Finally a small boy passed near the place and Mr. Lowell called him and sent him for assistance. A number of men came and carried the unfortunate man out to the main street, where he was put in a coach and taken to his home on Moore street. Dr. Roberts was called in to attend him. Mr. Lowell is a man of something over fifty years, and the fracture received is likely to prove quite serious.

MRS. CHARLES V. FORNESS, wife of the president of the Board of Aldermen of New York and acting mayor in the absence of Mr. McClellan. Mrs. Forness is suing her husband for divorce, and has made some very sensational charges against him.

MEDICAL ASSOCIATION ELECTED OFFICERS

Toronto Will be the Meeting Place Next Year—Interesting Papers Read.

CALL TO TAKE UP WORK IN TRINIDAD.

CHARLOTTETOWN, Aug. 24.—A meeting of the Presbytery of Prince Edward Island was held yesterday in St. James' Hall to dispose of a call addressed by the foreign mission committee of the Presbyterian church in Canada, to Rev. A. D. Sterling of New London, North and Kensington, the call requesting him to take up foreign mission work in Trinidad. The foreign mission committee was represented by T. J. James, a member of that body. A strong delegation representing all sections of Mr. Sterling's congregation was in attendance to urge upon Mr. Sterling and the Presbytery the absolute necessity that Mr. Sterling should remain in his present field. They were supported by petitions from practically every one in the congregation, urging Mr. Sterling to decline the call. In view of the very large number of accessions to the communion roll and the work of grace going on in the congregation, the several members of Presbytery expressed themselves as decidedly unwilling that Mr. Sterling should sever his connection with the Presbytery. Taking all the facts into consideration, Mr. Sterling decided that it was his duty to remain, and the Presbytery set the call aside with the earnest prayer that the vacancy in Trinidad may be speedily filled by a suitable man.

REGARDING LINE THROUGH WESTERN PROVINCES.

Prince Louis of Battenberg Received at Ottawa—Earl Grey Off for the Northwest.

OTTAWA, Aug. 24.—Prince Louis of Battenberg and 300 bluejackets and royal marines arrived here today, and were accorded a splendid reception. The admiral was the guest of honor of the Canadian Club at luncheon, and later received a civic address at City Hall. In reply his Highness said the navy might always be counted upon to do its duty.

The Prince left for Toronto tonight, and the bluejackets go to Toronto on Sunday. C. M. Hayes and Wm. Wainwright of the G. T. P. were here today concerning the location of the line through the western provinces, respecting which it is said the C. P. R. has raised objections on the ground that the line as planned encroaches on C. P. R. territory.

Earl Grey and party leave for the Northwest Sunday at midnight.

BOSTON SURGEON'S DIFFICULT TASK IN LABRADOR.

Dr. Kingman, Summering With Labrador Missionary, Only Physician in Vast District.

OTTAWA, Aug. 24.—A Bostonian, Dr. Kingman, has performed a very unusual operation at Labrador, removing from the abdomen of a woman a tumor weighing 37 pounds. J. H. Wood of London, secretary of the deep sea commission, who has reached St. John's, N. F., exhibits a photograph showing the extraordinary malformation. Dr. Kingman, a gynecologist, who is spending his vacation in Labrador with Dr. Grenfell, a Labrador missionary of note, has proved a veritable godsend to wretched sufferers. For 500 miles to seaboard there is no physician. The government has been asked to take action in the matter. Without medical aid the woman had been 19 months with this enormous tumor, which should have been removed and diagnosed. Her suffering was extreme. The tumor was the largest the Boston surgeon, operating for 13 years, had ever seen. The woman is progressing well and will soon be back with her husband and seven children.

RESIGNED FROM C. P. R.

MONTREAL, Aug. 23.—C. W. Spencer, superintendent of transportation on the Canadian Pacific lines east of Fort William, has resigned for the purpose of accepting the position of general manager of the Canadian Northern railway's lines east of Fort William, with headquarters in Montreal.

GRAIN RATES HIGHER THAN THOSE ON C.P.R.

MONTREAL, Aug. 24.—President Shaughnessy of the Canadian Pacific, when shown a press dispatch relating to the reduction in grain rates on the Great Northern Railway and Mr. Hill's statement to the effect that the reduction was made to increase the profits to the producer, remarked that this was merely following the policy adopted by the Canadian Pacific long ago. The grain rates on the Great Northern are still one cent per hundred pounds higher than those that have been in force on the Canadian Pacific for some years past.

A Most Remarkable Remedy.

Has Used it for 22 Years.

DIARRHOEA, DYSENTERY, COLIC, STOMACH CRAMPS, CHOLERA MORBUS, CHOLERA INFANTUM, SEA-SICKNESS, and in fact all BOWEL TROUBLES can be quickly cured by the use of DR. FOWLER'S EXTRACT OF WILD STRAWBERRY. It is the original Laxative of the Bowels remedy.

Be sure and accept no substitute.

Has been on the market 60 years, so you do not experiment when you buy it.

Mrs. D. Taylor, Cranbrook, Ont., writes: "For the past 22 years I have used Dr. Fowler's Extract of Wild Strawberry as a family remedy for all kinds of summer complaints with the greatest success, in fact, I have found it a most remarkable remedy."

Price 35 Cents. ALL DEALERS SELL IT.
