In Stanley at the closing of the polls there was intense excitement which increased as the ballots were counted. When it was found that McGoldrick led by two votes, and that two ballots were cancelled there was a wild time. In Wellington the counting of votes is very slow, but at the time of going to press it was known that Alderman to press it was known that Alderman Christie was a winner by a large majority.

FREDERICTON GETTING READY FOR THE FAIR

Exhibition Prize List is Increased I \$2,000-Sons of England to Erect Victoria Monument

FREDERICTON, N. B., April 16.—
The Fredericton exhibition association has got down to work for the exhibition this fall and all are sanguine that it will be the most successful fair ever held in this city. The aggregate prize list will amount to \$12,000, an increase of over \$2,000 over 1905. The list is now being made up.On Thursday afternoon the directors will meet when the chairmen of the different comittees will be appointed and the general proce-Clothing and

Starving are Helped SHANGHAI, April 16.-Investigation

SHANGHAI, April 16.—Investigation shows that plans of the famine relief committee are admirable. There has been no leakage of the fund administered by foreigners. A house to house inspection has resulted in 90,000 families, totalling 500,000 famine sufferers, being enrolled by the committee, which is attempting to provide food for them.

ST. JOHN STUDENTS SAVED THE MIGHTY COOK FROM DEATH

McGill Medical Building Totally Destroyed by Fire This Morning—Ralph Powell Painfully Hurt—Belief That Incendiarism Was the Cause of the Blaze

MONTREAL, April 16—McGill medical college was destroyed by fire this morning.

A fortnight ago the splendid engineering building fell a prey to flames, and today there is some suspicion that incendiarism is responsible for the destruction of both institutions.

The loss from the medical conflagration has been estimated at fully \$500,000 but many of the records, works, etc., cannot be replaced by money. The college was one of the best equipped in America.

The fire was discovered shortly after.

THEY WHO ARE ABOUT TO DIE, SALUTE YOU

for the Murder of Thomas

SUMS ON HER NAVY ed missing were afterwards accounted for.

MADRID, April 16—The minister of marine today declared that the naval programme to be presented at the opening of the Cortes comprised expenditures amounting to \$16,000,000 annually and lasting for several years. The propositions approved by the naval consultative committee included the construction of a defence squadron, improvement of the coast defences, and the re-organization of the arsenals. It is understood that the total appropriations demanded amount to \$61,000,000.

SHECK DEFEATED WILLE.

America.

The fire was discovered shortly after one o'clock but it had such a start that the firemen could do little but try and prevent the flames from spreading.

The caretaker, Mr. Cook, would probably have lost his life had it not been for the determined work of two maritime province students, Mr. Landry, son of Judge Landry of New Brunswick, and H. LeBaron Peters, son of William Peters, Jr., of St. John, Mr. Landry arrived at the college shortly after the alarm was sent in. He says that at first glance the full scope of the flames could hardly be appreciated. Through the windows on the extreme west the glow of the fire was plain. With other students he forced an entrance in the attempt to save personal belongings, but Mr. Cook was saved interest.

trance in the attempt to save personal belongings, but Mr. Cook was saved instead. They also helped out Mrs. Hospiace at Dorchester tomorrow before Judge Forbes.

Dr. J. R. McClung, of McGill University, may be engaged to fill the chair of physics now vacant at Mt. Allison College, so Prof. Andrews of Mt. Allison College, so Prof. Andrews of Mt. Allison Said today. Dr. McClung has already achieveed international reputation in physic research. The college has had a very successful year.

ANOTHER BIG STORM

trance in the attempt to save personal belongings, but Mr. Cook was saved instead. They also helped out Mrs. Hogan, the caretaker's servant. Just after the rescue the roof on the extreme eastern side fell in, a peculiar circumstance, seeing that the first glimpse of the fire had been in the opposite direction and as far away as possible. Another maritime student, Mr. Powell, formerly of Westmorland county, N. B., now of Westmorland county, N. B., now of St. John, N. B., sprained his ankle during the fire, trying to save some property.

Messrs. Landry and Peters say that practically each of the three hundred students will suffer considerable loss. Instruments, books and paper have

Edward Sexton Electrocuted This Morning Explosion in Eastern QI Plant Was the Start—Loss is Estimated at

Fuel Dealers are Charging Famine Prices for Coal and Wood—Conditions

AUBURN, April 16.—Edward Sexton, who was convicted on Friday, April 29, 1904, of murder in the first degree, for killing Thomas Mahaney, was electrocuted at Auburn prison this morning at 6.15 o'clock. Sexton was small of stature and slight, but it required five distinct contacts before he was edeclared dead. The contacts and the unfortunate railroads find themselves again almost crippled. Conditions are reflected here in the cost of wood, which has gone soaring to famine prices.

Dealers are taking full advantage of the situation to squeeze the shorts, as may be judged by the following schedule of prives prevailing today: Tamarack, cut and split, delivered, per cord \$9; hard coal, per ton, delivered, \$12; soft coal, per ton, delivered, \$20. The amount of wood consumed in the city daily is 700 to 1,000 cords.

Roosevelt to Prevent Any Interference by Outside States With Nicaragua

SHECK DEFEATED WILLE.

SAN SALVADOR, And 15—President Roosevelt has cabled President with particular and additions to the list of families will be made only when the funds available justify it. Thousands of relief tickets are issued. First are free food tickets which are not issued unless the family has absolutely no money, food, or pawnable articles, and its members too weak to work. Often the thatch roofs and timbers of houses are sold and families, because they had a table left, have been refused assistance, and, utterly discouraged, have committed suicide.

Secondly, where they are physically able to labor, when they are given work for which they are paid in food.

The Chinese government is paying some families one and one-half cents per day. Tickets are given these familes entitling them to purchase famine supplies at cost. Food is furnished to the ticket holders at the relief subcentres at stated times.
