EXTENSIVE KNOWLEDGE OF PRIVATE MEMBER.

In Connection With the Manitoba Boundary-Mr. Borden Asks About it in the House,

OTTAWA, April 25 .- Today Mr. Bor den (Carleton), drew attention to a press message which appeared in yesterday's newspapers to the effect that Mr. Jackson (liberal) who is now taking part in the Manitoba campaign, for the constituency of Mountain, had made an announcement during a speech that there had been conferences between the representatives of Sas-katchewan, Manitoba and Ontario before the Roblin government took any action in connection with the boundary question. He had stated that a satisfactory arrangement had been reached which would be made the bas is of a settlement as soon as the autonomy bill had been disposed of.

Mr. Borden thought it very unusual that so important an announcement should be made by a private member. He asked whether the statement was well founded and if so, why the government had chosen to make an anent in this somewhat informal

Sir Wilfrid replied that he did not understand that Mr. Jackson had presumed to speak on behalf of the government or indicate any policy that had been determined upon. He had been determined upon been conferences between the representatives of Saskatchewan, Manitoba, and Ontario and that they had come to a conclusion that the arrangement suggested would be acceptable. As far as he was concerned he would say that if the government came to any conclusion upon the subject it would be made known to the house and the

VANCOUVER MINERS ARE OUT ON STRIKE

VANCOUVER, B. C., April 25.-Because the British Columbia Copper Co. refuses to increase their pay from \$2.75 to \$3 per day, the converter miners employed at the company's smelter at Greenwood have gone on strike. To date the company has been unable to get men to fill the vacant places, and the converter plant has been compelled to close down. Manager Deffer is absent and a settlement is unlikely till he returns. The leaders of the union declare they will call on a sympathetic strike if the demands of the converter miners are not then met.

CHARLOTTETOWN, April 24 .- The legislature is adjourned for the Easter holidays. Business has dragged along slowly up to the present. The public accounts have been tabled and show a deficit for the year of about \$84,000. AN HOUR WITH General dissatisfaction is expressed both among liberals and conservatives with this showing, as it brings the total indebtedness up to about \$700,000. There is now a bill before the house to provide for the funding of the debt, the debentures to run for 20 years and The Interview Which Brought About to bear interest at a rate not exceeding three and a half per cent. To redeem these debentures it shall be the duty of the government to set apart every year a sum equal to one and one-half per cent on the amount of the debentures actually issued. The estimated expenditure on current expenses this year is \$337,000.

the Removal of the Russian Censorship on Foreign

(From Melville E. Stone's "The Associated Press' in the May Century.) A private audience with the Emperor of Russia in the Winter Palace is an onor which must impress one. I was notified upon the formal card of command what costume I was expected to wear-American evening dress, which in the court language of Europe, is known as "gala" garb. At half-past three on the afternoon of February 1 I presented myself. A servant removed the ever-present overshoes and overcoat, and a curious functionary in red court livery, with long white stockings and a red tam-o'-shanter cap, from which streamed a large white plume, indicated by pantomime that I was to follow him. We ascended a grand staircase and began an interminable march through a labyrinth of wide halls and corridors. A host of Harper, formerly of Summerside, was attendants in gaudy apparel, scattered along the way, arose as we approached and deferentially saluted. In one wide hall sat a company of guards, who clapped silver helmets on their heads. ose, and presented arms as we passed.

I was shown into an ante-room where the Grand Duke Andre awaited me. He introduced himself and chatted most agreeably about American affairs, until a door opened and I was ushered into the presence of his imperial majesty. The room was evidently a library. It contained well-filled book shelves, a large work table, and an American roller-top desk. Without

ceremony and in the simplest fashion, the Emperor fell to a consideration of the subject of my visit. He was dress ed in the fatigue uniform of the Russian navy-braided white facket and blue trousers. The interview lasted about an hour. I represented to his majesty the exdifficulties which we encountered, and the desire on the part of his ambassa
