HERBERT READ WILL REACH NEW YORK MAY 5

Father in City Has No Details of Mysterious Disappearance—Drew No Money for Passage Home.

Herbert Read, the young man who disappeared from Montreal last summer and whose adventures up to the time he cabled home from Buenos Ayres are still shrouded in mystery, is expected to arrive in New York on May 5.

Mr. Read stated that he had received no information regarding his son's mysterious disappearance or subsequent adventures.

Some difficulty was experienced by Mr. Read in communicating with his son. He was unable to find an Argentine consul in Montreal, and on going to Halifax met with the same difficulty.

Mr. Read is a general farmer with eight years experience. Wm. Chapman and F. Dickenson have been following the occupation of a farmer.

Mr. Read's attention was called to the fact that about the time his son disappeared from Montreal a revolutionary movement was in progress of organization in Argentina.

It is not improbable that some of the revolutionary juntas may have prevailed upon young Read, who was of an adventurous spirit, to make a trip to the Argentine for the purpose of taking a hand in the revolution.

The Argentine has enjoyed a stable government for eight upon twenty years, and at the present time a revolutionary movement there is as quixotic an affair as that of the hair brained Brazilian who landed at Bahia five or six years ago.

The applications were referred to the buildings committee.
