**Tons of Coal Wasted.**  
Annually tons and tons of coal are wasted by not paying attention to the flues. If the chimney is filled with soot, it will not draw, thus your fuel smoulders away without doing its work. Do not throw the blame on your furnace, stove, grate or the coal you are using, when the fault lies with your foul chimney. A conservative estimate easily places the saving of fuel by having a clean chimney at 10 per cent. Now by paying \$5.00 for a Chimney Cleaner that will last a life time. Universal Chimney Cleaner Company, Limited, Lake of the Woods Building, Phone 1317, St. John, N. B.

After October 1st, the street car service to Seaside Park will be discontinued.

## Y.M.C.A. PLANNING FOR BUSY WINTER

Association now well Organized for Season in all Departments—Gymnasium to be Opened on Thursday.

With the advent of the autumn and the return of the majority of the members from their suburban residences, the winter's activities in the Y. M. C. A. have already begun, and next week will probably see the fall and winter schedule in full swing. The members have commenced to plan for the season's work and the different departments are being reorganized.

The new physical director who arrived on Thursday to replace E. J. Robertson, who has gone to the United States, comes with excellent credentials as a most capable man for the department of which he will have charge and one with considerable experience in boys' work. For ten years he was engaged in the German gymnastic physical work. For some time he pursued a course in the Y. M. C. A. summer school, later being connected with the work in Keene, N. H.

The new director has already taken up his duties and expects to have the work in progress within a few weeks. Last evening he met the physical committee at the association rooms when with them he discussed the proposed work for the season.

At the meeting last evening the class schedule for the year was decided upon as follows: Seniors, Monday, Wednesday and Friday, 8 o'clock until 10; business boys, Tuesday and Thursday, from 7.30 to 9 Saturday, 7 to 8 o'clock. The days for the high school boys will be Tuesday from 5 to 6, and Thursday 4 to 5, and Saturdays, 10.30 to 12 o'clock. Class C will meet on Tuesdays from 4 to 5 and on Saturdays 9 to 10.30. The classes will open on Thursday next, Oct. 5th and the leader's corps will be reorganized in each class.

Other departments of the work are being reorganized and a successful season is expected. The membership contest which is now being conducted is exciting great interest. The different teams taking part have started in their campaign for new members, and it is anticipated that at the close of the contest, the membership will be greatly augmented in consequence of the efforts of the workers.

## TO EXTEND THE JUNK LICENSES TO COUNTY

**Matter Discussed at Meeting of Municipal Finance Committee Yesterday Afternoon—Collection of Licenses.**  
At the meeting of the finance committee of the municipal council yesterday afternoon the question of extending the system of junk licenses into the county was discussed. As, however, the matter is one which requires legislation, it will probably be taken up by the bills and by-laws committee. A strong feeling was expressed by those present that the propensity of junk dealers for snapping up unconsidered trifles makes it highly desirable to have a hold over them.

Another matter considered was the proper collection of pedlars' licenses. These amount to \$2 for residents and \$20 for non-residents. A recommendation was submitted to the committee looking towards placing the matter more directly under the care of the county secretary and it will be discussed at the meeting of the council next week.

The committee appointed to consider the advisability of erecting a new municipal building, has made its report. In this they recommend that the courthouse be sold and a new structure built. It is expected that plans will be submitted to the council.

## WOODSTOCK FAIR CLOSED LAST NIGHT

Special to The Standard. Woodstock, Sept. 29.—The Woodstock four days' exhibition closed this evening. The Agricultural Society conducting the fair had had luck, so far as weather conditions went, for the first two days were rainy, and yesterday and today were cold enough for snow. Notwithstanding these drawbacks, the attendance was good and the exhibition was a grand success.

The prizes in the manual training department were allotted today, the winners being Frank Riordan, 1st; Ray Fewer, 2nd; Douglas Balmain Jasper McElbannon and Arthur Kelly had also fine exhibits. Four benches with the necessary tools were in the booth, and a lesson was given the boys working on a book case, dove tailed joint and inlaid work.

Miss Smith, who has charge of the manual training department, has 116 boys in her school. She is a native of St. Stephen, and is a most capable teacher, taking her first course of studies in Fredericton, and last year she took a special course in manual training at Columbia University New York.
