HOW TO PREVENT

fermentation interfere with and retard the process of digestion. The stomach is usually healthy and normal, but irritated almost past endurance by these foreign elements—acid and wind. In all such cases—and they comprise over 90 per cent. of all stomach difficulties—the first and only step necessary is to neutralize the acid and stop the fermentation by taking in a little warm or cold water immediately after

the fermentation by taking in a little warm or cold water immediately after eating, from one to two teaspoonfuls of bisurated magnesia, which is doubtless the best and only really effective antiacid and food corrective known. The acid will be neutralized and the fermentation stopped almost instantly, and your stomach will at once proceed to digest the food in a healthy, normal manner. Be sure to ask your druggist for the bisurated magnesia, as f have found other forms utterly lacking in its peculiarly valuable properties.—F. J. G.
