

# FOR AND ABOUT WOMEN

## MISSIONS IN COREA DESCRIBED

Instructive Talk Given Last Evening at Meeting of Women's Missionary Society at West Side.

A very interesting meeting was held last evening under the auspices of the Women's Missionary Society of St. John.

## Stomach So Bad

THOUGHT HE WOULD DIE. CAN EAT ANYTHING NOW.

But for indigestion and dyspepsia, many a life might be a pleasant one. The misery which stomach troubles cause the sufferer knows only too well, and any one who has suffered knows what joy it would give to be able to eat three good meals a day and not be punished for it.

Nearly everything that enters a weak stomach acts as an irritant, and even the little that is eaten causes such trouble and is digested so imperfectly that it does little good.

Before you can eat heartily, and not pick and choose your food, you must put your stomach right so that it will manufacture its own digestive ferments.

For forty years now Burdock Blood Bitters has been making weak stomachs strong, and permanently curing severe cases of indigestion and dyspepsia that other remedies were powerless to reach.

Mr. H. L. Fairweather, Cumberland Bay, N.B., writes: "I was troubled with my stomach for two years, and sometimes was so bad I thought I would die. I tried everything I ever heard tell of, and had medicine from three doctors, but continued to grow worse. One day I read of some wonderful cures made with Burdock Blood Bitters. After taking two bottles, I could eat any kind of food without any bad effects, and by the time I had taken four I was in perfect health."

Burdock Blood Bitters is manufactured only by The T. M. B. Co., Limited, Toronto, Ont.

## A THOUGHT FOR TODAY

Oh my sister! Children small, Blue-eyed, waiting through the city, Our own babes cry in their all; Let us take them into pity. Elizabeth Barrett Browning. From "A Song for the School Children of London."

The First Presbyterian church of West St. John. Miss Mary Walker is president of the society. The meeting was an open one for members of the congregation and the scholars of the Sunday school and a large number availed themselves of the invitation.

Miss Jennie Robb was the speaker of the evening, and in a most entertaining way with good descriptive powers told of her work in Corea during the past fifteen years. Miss Robb was sent out from St. David's church, and in speaking of this, referred to the sympathetic appreciation of Dr. Morrison, which had been instrumental in her being chosen for this post.

Miss Robb gave a lucid and instructive talk of Corea, describing the country. Its history, people, the customs and modes of living practiced there, and the development shown in the last thirty-five years under Christian missionaries.

Speaking of the workers there, it was explained that in addition to those sent from the Canadian Presbyterian church of which there are thirty-four, there are also missionaries from the two branches of the Presbyterian church of the United States, North and South, as well as workers from the North and South Methodists of the United States. In addition to these missionaries are sent to Corea from Australia.

An interesting fact mentioned regarding the medical branch of the mission work that 1400 patients were treated at the dispensary in one year, and through the medical missionaries many converts are made.

Miss Robb had for exhibition several pictures, one of a class of High School graduates were fine looking girls who would be a credit to any school in any land.

At the close of the address, which was greatly enjoyed by all present, a collection was taken up for missions.

## WE MUST KEEP WATCH AGAINST DISLOYALTY

War Election Act and Women at the Peace Conference Discussed—Are There Such Members Among St. John Societies?—(Cordelia in The Toronto Telegram).

Dr. Margaret Gordon, one of the first members of the Women's Liberal Association, at their meeting, moved a resolution of two women on the peace commission, basing her recommendation on a resolution of like nature formed by Mrs. Carrie Chapman Catt and forwarded to President Wilson. Dr. Gordon also moved that the Premier be asked to repeal the Canada War Act, by which only women who have husbands or sons overseas may vote.

Does not the fact that Dr. Gordon could bring in such a resolution to Canadian women without being strongly denounced prove that Canada is not safe yet without the War Election Act? Are not women whose husbands and minds have been nearest to the struggle the safest to decide Canada's fate now?

During our four years and more of war the Local Council of Women in Toronto has been called upon five times to make important decisions. Each time Dr. Gordon has been the mouthpiece of the pacifist sympathizers who opposed the most vigorous conduct of the war. Before the war Dr. Gordon was a peace and arbitrator. Now she is a peace and arbitrator.

It was Mrs. Catt's friend Rostin who proposed the Ford Peace Ship. But as the valiant Providence Journal says in denouncing Wilson's growing peace trip: "It is not one Ford Peace Ship enough for us in a generation!"

Why should Canadian women help to supply a second one? Have not Canadian women enough problems now without spending time furthering Mrs. Catt's ambitions?

American women who could not see the danger their country was in for three whole years had to be trusted to meet Germany's wildest at a peace table. Mrs. Catt, as vice-chairman of the Women's Peace Party, was opposed to U. S. preparedness up to the very month before her country entered the war.

Yet Canadian women are now acting as cats' paws!

Spanking Doesn't Cure! Don't think children can be cured of bed-wetting by spanking them. The trouble is constitutional, the child can't help it. I will send to any mother FREE my successful home treatment, with full instructions. You make up your mind to try it, send no money, but write me today. My treatment is highly recommended to adults troubled with urine difficulty by day or night. Address: MRS. M. SUMMERS, BOX 937, WINDSOR, Ontario.

FADS FOR THE WELL DRESSED WOMAN All girdles are narrow. Torpedo turbans are still with us. Terra cotta is a fashionable color. Conservative styles are liked in coats. Open squares ornament the newest veils. Fox furs predominate, but in the quieter colors. Paris is making hats entirely of fringed ribbon. A very simple velvet is called "light as foam." They are trimming velvet dresses with dyed lace. Grosgrain ribbon is best for military purposes. Buttons are not considered smart on evening wraps. A new homespun looks very much like knitted fabrics. Dark-colored nets are being used for elaborate trims. The jersey cloth with velvet finish is a great favorite. Whatever and whenever you shop, shop at Bassett's, 14-16-18 Charlotte street. No branches.

Elid Bennett, who is a great lover of birds, has added to her collection a linnet that promises to remain in her favorite as long as the little feathered being shall chirp its song. She became its owner a short time ago when she was far out on the desert acting scenes for a picture and is now making for Thomas H. Ince. The little bird, which had injured a wing, presumably by flying against a cactus tree, came to her in the hands of a hunter, and she, almost famished from thirst, a saucer of water and food was placed at its disposal. Shortly it submitted to being picked up and finally became an intimate friend of the entire company. It went with the actors as a mascot and was brought to a comfortable home in the beautiful garden of Miss Bennett's Los Angeles residence.

Charles Ray, the Thomas H. Ince actor, is having a lot of sport these days organizing baseball teams to participate in a new picture he is making. This new story has in it three games, it making necessary six teams. There is a shortage of professional ball players and Mr. Ray, who has had some experience in "bush" leagues himself, is training athletes for the picture drama. He says he will be in a position to farm out some first class baseball material to re-establish the national game, so hard hit by the war.

RESUME FIGHT AGAINST DISEASE

Rockefeller Institute Will Try to Conquer Yellow Fever and the Chinese Plague.

Chicago, Ill., Dec. 13.—Dr. George E. Vincent, President of the Rockefeller Foundation, which has an endowment of \$100,000,000 announced today that the organization after diverting its activities for four years to war relief and army welfare work in which it expended \$21,000,000, will immediately resume its work of attempting to rid the world of disease.

The peace program adopted by the organization contemplates the expenditure of millions of dollars annually in attacking human ills in every part of the world.

Dr. Vincent said that Major General William C. Gorges, until recently surgeon of the United States army, will soon head an expedition of scientists to Central and South America to conquer yellow fever. He will be accompanied by five noted experts and believes that by battling with the disease at its source in these countries it can be exterminated in a few years.

The organization will also launch a campaign to wipe out the plague in China and other countries of Asia. The medical university in Peking, China, being erected by the Rockefeller Foundation at a cost of \$6,000,000, will be opened not later than October, 1920, Dr. Vincent said.
