## Semi-Aveckly Telegraph and The Alems

ST. JOHN, N. B., JUNE 21, 1913.

Toronto has said farewell to the dele gates who attended in that city the greatest congress of the kind ever convened in this country. It is doubtful if anything on such a scale will be attempted again in years. The question still much attention to the marketing end of his business as to the producing end, for he knows that, no matter how of this great concourse. One thing is country and its future religious history of this great concourse. One thing is certain that the emphasis of the church is undergoing a profound change. This undergoing a profound change. This was apparent not only in the subjects set for discussion but in the whole atmosphere of the gathering. The complication and fortune was celebrated, and fortune to bettering their conditions where many of the products are of the modern theologian is seeking anew for some theologian is seeking anew for typ that still remain to roughle the limit in a strong reaction life of man. There is a strong reaction in this great concourse. One thing is certain that the emphasis of the church in the situation. And they are great, these and taken from the home to the factory. The evil is that women have been organized in the situation. And they are great, these and taken from the home to the factory. The evil is that women have been made again, further to susues. There, for the industrial competitors instead of the collaborrs of nee, and have been organized in the situation. And they are great, these and taken from the home to the factory. The evil is that women have been made gloss to end of its, in espousing lost causes. There, for the industrial competitors instead of the collaborrs of nee a year.

Surely there never before was so great a number of June weddings! "All the sufferings of animals in Italy, devoted to fortune to all of them!" Surely there never before was so great a number of June weddings! "All the suffering of a nimber of the industrial competitors instead of the collabors of nee, and have been organized.

NOTE AND COMMENT.

Surely there never before was so great a number of June weddings! "All the industry has been organized. The complex of the cottage and again, further on, more ruthless than an Egyptian by the curel dome, and according to the cast, west, in the industrial competitors instead of the collabors of nee a year.

NOTE AND COMMENT.

Surely there never before was so great a number of June weddings! "All the

were not within the ken of Saint Augustine in his day.

That is not the question that is troubling the ecclestiastical leaders of the present. The church is at the cross-preads. The forces which were confidently expected to abolish the evils of life are proving less powerful than was expected. The golden age has been relegated to a remoter future. According to the Hon.

The golden age has been relegated to a remoter future. According to the Hon.

The consumers the end of saint Augustine that stated prices to the something that comes nearer to seing factories. The evils are increased because some of the larger factories are as the the housing question is at the consumer. The church is at the cross-proads. The forces which were confidently expected to abolish the evils of life are proving less powerful than was expected. The golden age has been relegated to a remoter future. According to the Hon.

The golden age has been relegated to a remoter future. According to the Hon.

The church is at the cross-proads. The forces which were confidently expected to abolish the evils of life are proving less powerful than was expected. The golden age has been relegated to a remoter future. According to the Hon.

The matter of the consumer. The reliways transport the consumer. The evils are increased because some of the larger factories are as that the land question is at the root of the housing question, and the housing question, and the housing question at the root of the tuberculosis in factories. The evils are increased because some of the larger factories are as that the land question is at the root of the tuberculosis in factories. The evils are increased because some of the larger factories are as that the land question is at the root of the tuberculosis in factories. The evils are increased by child labor in factories. The evils are increased because some of the larger factories are as that the land question is at the root of the tuberculosis in factories. The evils are increased because some of the larger factories ar The golden age has been relegated to a fremome time. According to the Hom.

H. S. Black, in the goally eithy of Torona, alone there are 100,000 people who are being "Gehumanized" two sincists, in the market place, above our rights, and other people and untoward conditions. The consumer. In addition to this, motors and untoward conditions. The consumer. In edition to this, motors and untoward conditions. The consumer. In edition to this, motors and untoward conditions. The consumer in this same are the significant through powerly and untoward conditions. The consumer in edition to this, motors are thus as a significant. The world has grown rich and churches large, but the process has left and pick up the produce along the roads churches large, but the process has left and pick up the produce along the roads in the season this province will have a great to be consumer at a lower rate than the text that the tranger that the the community by the fine and morals. Christianity is be
manners and produce in the tast dors of the late Dr.

A chicas and the treestile have stated to constant the constant the constant that thirty per cent of the late Dr.

A chicas and the measure and of the versitis feath are a stated many quarters of deterioration in both manners and morals. Christianity is believed to be a specific against selfishness and greed, and it seems reasonable that the rising nations of the East should ask that it cure these evils in the West before accepting the gift of its greater light at our hands. It was to the test of fruit that the Master was always eager the farmer and the consumer.

Swift intelligence that plays so brilliant as swift intelligence that plays so brilliant to their climax. They should have a suffering now; the farmers must pay a suffering fruit that the Master was always eager the farmer and the consumer.

It has been logically demonstrated a pends upon the home, and whether the the farmer and the consumer.

It has been logically demonstrated a pends upon the home, and whether the thousand times that all men are free and race improves or retrogrades in the days ister has admitted that production is not cause of the lack of a steamer to Nova equal. Nature and the English know to come depends upon the same instituted.

SIR MAX AND THE WEST.

SIR MAX AND THE WEST.

St. John Is done the lack of a steamer to Nova equal. Nature and the English know to come depends upon the same instituted that production is not cause of the lack of a steamer to Nova equal. A religion of this type will come since the war of Independence. While more quickly when we realize that the thurch and family and state are but later, more often the early impressions means to its realization. So long as the have become intensified.

A marked change is now taking place.

farmer. The middleman here comes in their kindness is not always untouched

while the crops are growing, he seems to have little knowledge of how or when he is to sell what he raises. Very often at planting time he does not figure on the probable demand in the fall and winter for certain kinds of stuff, and consequently, plants too much of one thing and too little of another.

The farmer should no longer neglect these things. The manufacturer pays as the writer, "who long ago at Rome, took me under her wing and gave me a liberal education in the city of the Caesars. I remember a young English lady, assually encountered many years later in a railway train somewhere near Stratford, who insisted upon showering upon us the wealth of her fine information about the place, demanded our addresses, and afterward sent us books and dresses, and afterward sent us books and the city of the husband, which he is unable to meet. The evil is not that women work in factories but that they work in fac-

INDUSTRY AND THE HOME. Is there laughter in the land? is there one who dares to stand Unashamed in sight of men. While from foul and fetid pen tise the little children's voices?

The decency of human toil,
Hounding out of God's good light
The stunted thousands, once so bright,
The nation's nurslings, pent and chained
Until their very life is drained?"
—"The Children's Blood," by Orrick
Johns.

The greatest need of the world today is that men and women shall consecrate themselves to the service of childhood. themselves to the service of childhood. by the feudal system; it has no room hope of stimulating trade between the of The Telegraph, finished his term as appreciation of the value of the home both to the individual and to the community. It is from the homes where the old home ideals have been preserved that the men and women have come who have the men and women have come who have

THE FARMER AND THE MARKET pressions among the masses. School his tories in some states are to be rewritten, other institutions are now to threaten the very existence of the family it must be due to their defects. Cannot these defects by a handful of Americans and defeats by a handful of Americans and feets be removed? It is generally said business is not unjust. In no other business on earth is there so much waste and loss in marketing the result of and loss in marketing the commons were rushed through Parketing in gabout for reciprocity arrangement in the commons were rushed through Parketing in gabout for reciprocity arrangement so so soon as Congress passes the present tariff bill. Naturally, Canada will be first on hi and is an important factor. Even to him the farmer does not supply his produce to the best advantage. As a rule, while the crops are growing, he seems while the crops are growing. The difference is that she does the work to-day with the crops are growing to the crops are growing. The difference is that she does the work to-day under changed conditions. family was then the industrial unit. But

the still remain to fromble the little life of man. There is a strong reaction towards constructive beliefs and construct

is not- so operative. The old, struggle to the produced strong characters hewn from rock, but the newer struggle for wealth strengthens covetousness and offen produced smoney madness with its long crain of evils. The struggle to live is one thing, but the struggle to amass wealth is a very different thing. The imfluence of wealth, like the pressure of the danger and its fruit is one with which the celestial respectified not his arms nor he that gate reflicts not his arms nor he that gate reflicts to day is one of the utmost difficulty. The task which lies before the church to does he criticize the financial butmost designed to the produced strong characters hewn from rook, but the newer struggle for wealth is the pressure of the Regina Leader, which devotes, a long editorial to some of the methods only consumer is forced to buy at home or more could suggest some of the reads of rural England, and a success in civilizing, in colonizing, in adapting that old, firm, yet fiexible type of government to new conditions and new climates, it is partly, perhaps, because they have had so little to say and so much to do. With my ears still ach in the people have become and its fruit is one with which the celestial respectified not his arms nor he that gate reflicts not his arms nor he that gate with its associates."

After presenting Sir Max in a rather unfavorable light, the Leader asks:

"The task which lies before the church to dos why does he criticize the financial to do do so the country. England has gone on so of the utmost difficulty."

The task which lies before the church to do so the country. England has gone on so of the utmost difficulty. The little animais in the wire cages at the deal of attention from visitors—too a structure of the church to do so the country of the country. England has gone on so of the utmost difficulty. The little animais in the wire cages at the country of the utmost difficulty. The country of the country of the utmost difficulty of the country of the country of the country of the coun

raccoons. Human beings ought to show arding housing, overcrowding and other onditions. In Mr. George's most signifunct speech on this question he said:

This work is not so spectacular or sen-sational as the hunger strike and the to develop; its roots are breaking two dominions, to have a preference ex-short time ago as ambassador from sational as the hunger strike and the martyr role, but it is more useful to the state. Nothing is more needed than a revival of the home spirit, and a better appreciation of the value of the home by the difficulties of obtaining access to it, by the difficulty of obtaining sites for

All the malice that threatened intera condition about and in continuing it. individual is dominated by personal interests it is impossible for this ideal to be realized. No people has ever become great without sacrifice. The important duties are all positive. It is not enough not to resolve. We are bound to act.

THE FARMER AND THE MARKET

The criticism that the average farmer

The criticism that the average farmer

The more thoughtful citizens of the world, is not all other institutions, and it supplied the basis and foundation upon which other institutions, could be built. If these there is a condition about and in continuing it. Canada wants larger markets. As Hon. William Pugsley declared in Parliament, then the government's action in bringing such a condition about and in continuing it. Canada wants larger markets. As Hon. William Pugsley declared in Parliament, the Minister of Trade and Commerce should be sent to Washington to negonate the government's action in bringing such a condition about and in continuing it. Canada wants larger markets. As Hon. William Pugsley declared in Parliament, the Minister of Trade and Commerce should be sent to Washington to negonate the market the attention of the people of Canada will/know that they can produce as much as they please.

The criticism that the average farmer proposed by the government. Time is the great legalizer of plunder, and the interests wish more time to clapse before any land reforms are introduced, concerned, there would be an unlimited because it was only quite recently that market in the United States. President the acts allowing the hobles to enclose Wilson has declared that he will be look-

that have been instituted cannot be made to work smoothly in a day. There are seven and a half millions of new insurers. The insurance act provides for the systematic teaching of the laws of health, Sanatoria are being built throughout the land, and, even if the Unionists were not throwing bricks at the builders, the work would take much time. The advantages of these reforms will soon be come clear, and their advantages are everywhere being enlaged upon. Defending the insurance act on a recent Sunday night the Chancellor of the Exchequer, in speaking of the ravages of consumption among his own school-fel-

sons for this. The producer is held at looking for trade in Corea this business

"My honest scholar, it is now past five of the clock. We will fish till nine and then go to breakfast. Go you to yonder sycamore tree and hide your bottle of drink under the hollow root of it, for about that time and in that place we will make a brave breakfast with a piece of powdered beef and a radish or two, which I have in my fish bag." Good English, and a brave programme or a fine summer morning, but not safe from Winnipeg to the seaboard. stuff for city men to be reading in a Maritime Province June. By the way, old Izaak was a model fisherman, Christian, gentleman and philosopher. All the preachers, reformers, editors and poli-

social reform, every real improvement in the lot of the people, is a thorough and tain the Canadian market as a protected nuisance of people standing upon the omplete change in our land system, earch out every problem, look into every question thoroughly, and the more thoroughly you look, you will find that the days that they would regard the property of their own exploiting. They have said that they would not oppose a policy of preferred tariff treatment to Australia, but that they would regard the property of their own exploiting. They have said that they would not oppose as an imposition upon those who have paid fares for seats. The only good ad is at the root of most of them. with concern any increase in the British rule is to allow no more passengers on ousing, wages, food, health, the de- preference, which simply means that board after all the seats are filled.
