THE TROUBLES OF THE SPANISH REPUBLIC -WEAKNESS OF THE MINISTRY-DISOR DER IN THE CORTES-ARMED REVOLU-TIONISTS IN THE STREETS—A NEW MINE

London, June 12.

A special to the London Times from Madrid reports that the crisis in the government of Spain continues, and fears of a serious outbreak in the capital are entertained. The Cortes remained in secret session most of the day yesterday. During their deliberations a party of armed volunteers surrounded the Cortes. A large party of armed police was concentrated at the column of Dos De Mayo, and detachments of troops were posted at their places in the city in anticipation of an outbreak, but their services were not called into requisition. The irreconcilable press openly advocate an armed re volution. The situation is very disquiet ing. LONDON, June 12.

Another Madrid despatch sent from that city last night says the Irreconcilables are opposed to the formation of the Ministry from the Right. Bodies of armed Irreconcilables and armed partisans of the majority of the Cortes respectfully occupy strategic positions in sans of the majority of the Cortes respectfully occupy strategic positions in the city, and a conflict between the opposing factions is feared. At a meeting of the Deputies belonging to the majority it was agreed in order to conciliate their opponents to propose a Ministry to be composed of four Conservatives and four Irreconglables.

Madrid, June 12.

The Cortes has accepted the resignation of the Figueras Cabinet. At a meeting of the majority last night the following new ministry was agreed upon: President of the Council and Minister of the Interior, Senor Pi'y Margall; Minister of Colonies, Senor Sorni; Foreign Affairs, Senor Muzo; War, Es: avanz; Marine, Ourich; Finance, Ladus; Public Works, Benot; Justice, Gonzales. The authorities are determined to resolutely sustain the majority in whatever measures that they may adopt. Senor Figueras has left the city of Madrid.

FOR PURIFYING THE BLOOD, nothing has ever been offered which can compare with this Extract of Sarsafarallla. It is found a great promoter of health, when taken in the spring, to expel the humors that rankle in the system at this season of the year. Many complaints have their crizin in the spring, and in the causes above mentioned, for which no better remedy has ever been devised. By its use multitudes can spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system strives to rid itself of corruptions, if rot assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions, or sores cleanse it when you find it is obstructed and slugg'sh in the veins; cleanse it whenever it ifoul, and your feelings will tell you when. Even where no particular disorder is felt, people en joy better health, and live lorger, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Prepared by DR. J. C. AYER & CO, Practical and Analytical Chemists.
