Manager Harry Wisner had his team out to practice at the Arenal last night after the St. Patrick-Newman Hall game and quite a number watched the champions in action. There is practically no ice in the Kitchener rink and the team has decided to stay in Toronto and get in condition for Saturday night's important senior fixture with Newman Hall.

Barney Oldfield Cleveland for many years famous as an automobile racer and holder of the time record for one mile from a standing start announced his permanent retirement from the track. He will devote his time to a tire manufacturing concern of which he is the head.

On May 16 1910 Oldfield set a record for 40.53 seconds for a mile from a standing start at Daytona Fla. which still stands.

Oldfield was disqualified as a racer last year by the American Automobile Association because he drove in exhibition races at country fairs, as the official exhibitions were cancelled because of the war.

SKATE JUICE

By Dan

On Saturday night when the Champs meet Jerry La Flamme's Newman Hall in the Toronto Arena those boys will have to step to a merry tune if they are on the long end of the score. The Champs are going down grim and determined to register a win and providing the ice is kept their changes are good.

On Wednesday night the entire team saw the Saint Pats and the Newman mix it and they are all of the opinion Jerry's men should have won on the play. Any team that can give the Saints such a shake up are not to be lightly treated, and realizing this Hick has been getting his charges to bed bright and early.

After the game on Wednesday night the Champs took the ice and had a splendid workout. After the conditions that exist here it was a treat for them to get onto a sheet of decent ice. This was the only time the Champs have been on skates since their game here with the Saints on the 17th.

Providing the ice is hard the old machine that carried the Kitchener boys to the top of the hockey ladder last season will again be in operation. Team work and condition constitute eighty per cent of the winning essentials in hockey and providing the long overdue cold snap comes the Champs will have both these, and when the season is over the John Ross Robertson and the Allen silverware will remain here for another year.

The prospects of ice in the local rink continue anything but good and as the pros say "Mild" for Saturday the chances are it will be late next week before the ice is ready for practice.

The local juniors are to be disappointed again tonight, the game at Preston having been cancelled.

Ice at the Auditorium this morning was fairly good considering last night's freeze was the first for some time. An attempt will be made to have a workout there this evening providing the ice will stand it, if not, the team will try the Park Lake. This will be the better thing of the two to do, and so give the Auditorium ice a chance.

With the decided change in the weather today it is hoped that the scheduled will be run from now on the three games the juniors had booked this week have been cancelled and it has put things back considerably.

The story centers round ner-do-well Squire and his endeavours to obtain the hand of a pretty daughter of Erin—needless to say he fails.
