Gossip.

MILLGROVE HOLSTEINS—THE 100-LBS.-A-DAY HERD.

The renowned Millgrove herd of record-smashing Holsteins owned by D. C. Flatt & Son, near Hamilton, Ont., holds the unique position of having at its head three stock bulls whose dams have milk records averaging over 116 lbs. each for one day, and butter records averaging over 33 lbs. each for seven days, a position unequalled by any other herd on the continent. In the herd are five cows with milk records of over 100 lbs. a day each, something no other herd in America can lay claim to; and still further, in the herd is a cow that has made the world-breaking record of making 30 lbs. of butter in seven days for five consecutive years, a feat never equalled by any other cow. Surely all this is worthy of more than a passing thought, for with such an array of 100-lbs.-a-day blood, the time must soon come when the Millgrove herd will be in a class by themselves, the more so when the six daughters of the five 100-lb. cows are repeating the sensational performance of their illustrious dams. Further, relative to the producing ability of the herd as a whole, the R. O. M. official records of those of mature age range from 25 to 34 lbs., and this year in a R. O. P. test, at least three of them will easily make over 20,000 lbs. each, with twice-a-day milking. Worthy of special mention is the remarkable world's record feat of Jenny Bonerges Ormsby. For five consecutive years she has made an official seven-day butter record of 30 lbs. She is a daughter of the great sire, Sir Admiral Ormsby, and in the herd are five of her daughters and two granddaughters, besides ten of her sisters and five of their daughters. Another of the great cows in the herd is Idelia De Kol Tensen, in her two-year-old form at first calving, she gave in one year a fraction less than 17,000 lbs. milk and 834 lbs. butter, and at the end of the twelve months she made a R. O. M. record of 19 lbs. butter, a record that still stands the world's best for the age. Last year as a four-year-old, with twice-a-day milking, she gave over 20,000 lbs. Two of her daughters are also in the herd. Coupled with this great production is the high standard of individual excellence and show-ring form, as well as a remarkable uniformity all through the herd. A word or two regarding the stock bulls may prove interesting. Senior in service is Canary Mercedes Pietertje Hartog 7th. He is a son of Paul De Kol Royalton, which only sired 10 daughters when he was sent to the butcher. Six out of the 10 gave over 100 lbs. of milk each in one day. No other bull ever sired so great a sextette. On the other side, the dam of Canary Mercedes has a one-day record of 116 lbs., and a sixty-day record of 6,196 lbs. of milk, and a seven-day butter record of 34.60 lbs. Another of the bulls in service is Paul Plus Burke, whose dam, Daisy Pauline Pietertje, in one day, gave 110.7 lbs. of milk, and over 100 lbs. a day for 40 consecutive days. Her seven-day test is 28.59 lbs. of butter, and thirty-day test 116 lbs. Eight months after calving she made, in seven days, 325 lbs. of milk and 20.72 lbs. of butter, which is a world's record for that period. Her R. O. P. record is 23,807 lbs. of milk and 1,037½ lbs. of butter. Her dam, Helena Pietertje Pauline, is the only cow in Canada with two 110-lbs.-a-day daughters. The dam of this bull's sire, De Kol Plus, was R. O. P. champion in 1910, with a record of 22.304 lbs. of milk and 956 lbs. of butter. The other sire in service is Lula's Prince of Glenspring, a son of the great cow Lula Keyes, which in one day gave 123 lbs. of milk; in seven days she gave 785 lbs. of milk and 36.05 lbs. of butter; in thirty days she gave 3,192 lbs. of milk and 144.39 lbs. of butter. As a two-year-old in R. O. P. test, she gave 19,258 lbs. of milk and 658 lbs. of butter. Without a doubt, here are three of the greatest producing bred bulls of the breed, and with their service on so strong a producing herd, sensational results are assured.
