Remember when you used to skate on your ankles?

Well, everybody's got to be a beginner sometime. And now, isn't that gorgeous feeling of whizzing over the ice worth those first, awkward steps?

Learning to use Tampax tampons is a lot easier. In fact, you won't believe how comfortable, how easy they are to use until you've tried them.

Tampax tampons were developed by a doctor, so you know they're safe. They come in three absorbency-sizes: Regular, Super, Junior. No other tampons do. And one will be perfect for you.

They have a silken-smooth container-applicator that makes insertion correct and comfortable, every time. And for extra safety, the withdrawal cord is chain stitched the entire length of the tampon. Disposal is no problem either, because both the applicator and the tampon are completely flushable.

Tampax tampons. Millions of girls all over the world have tried them. And use them. Some day you'll remember when you first tried them too.

And you'll be glad you did.

Light from the start . . .

DEVELOPED BY A DOCTOR NOW USED BY MILLIONS OF WOMEN
TAMPAX TAMPONS ARE MADE ONLY BY CANADIAN TAMPAX CORPORATION LTD., BARRIE, ONTARIO

Classified ads

Hoechst thinks ahead

Moving with the Times

This year Canadian Hoechst marks its eighteenth year of growth in Canada by moving into new custom-built Montreal headquarters. The Canadian expansion has been closely linked to the worldwide development of Hoechst, which is now among the world's top five chemical companies, with worldwide sales that last year totalled approximately 3.5 billion dollars.

In Canada, sales have almost doubled in the past three years. The new St. Laurent head office and warehouse buildings will provide space for a 100% increase in the company's head office staff, and have been designed for expansion to accommodate increased Canadian production.

Research: Window to the Future

Today's research creates the products of tomorrow. One-third of Hoechst's current sales come from products which did not exist 10 years ago. And with worldwide sales approximating close to 3.5 billion dollars last year, Hoechst spent close to 100 million in pure research, and on laboratory buildings and equipment. The results of this investment decide Hoechst's position in future markets, including Canada.

Helping Build Canada

Products and ideas from Hoechst have touched and improved the quality of people's lives in every area around the world, in a hundred countries on six continents. As an affiliate of the worldwide Hoechst organization, Canadian Hoechst has a full century of research and achievement to draw upon. In Canada, Hoechst is an autonomous company employing Canadians to serve Canadian needs.

This new building is just one of the more visible indications of Canadian Hoechst Limited's continuing investment in Canada.

Hoechst in Canada concerns itself with supplying both the present and future needs of Canadians. The range of products and services covers the spectrum through industrial chemicals, dyestuffs, plastics, human and veterinary medicines, pharmaceuticals, and textile fibres. Hoechst products and services, Hoechst techniques and know-how in these fields, combined with a large international fund of experience, have given the Company a reputation for expertise which takes constant striving to live up to. Hoechst likes it that way. So do their customers, here and around the world. Hoechst thinks ahead.
