

President of the Shalham Manufact-
 uring Company in the words of their
 Superintendent of wagon works who
 the President states is a practical man
 of 35 years experience in the making
 of wagons: - "A set of shafts and
 means that they are connected together
 by a double runner so that two
 horses may be used." The President
 of the Company also states that the
 Department on his opinion, and
 edly takes exact ground, and in
 in which it will be sustained by
 every honest practical man in the
 Dominion. and that the true charge
 being \$2.00 for all rights than his
 Company will show for at present have
 no room to doubt that the Contractor
 had or complete all in their minds
