

PARENTS

The following advantages afforded by our College have secured for us a material increase in registration this year:

1. An up town location. Large, bright, airy rooms. No noise, no dust, no smoke. No hotel, pool or billiard room in the vicinity.
2. A private elevator. No continual stair-climbing.
3. The best of accommodation in private homes for its students. No car fares.
4. Trained teachers, experts in every department.
5. A system of purely individual instruction. This guarantees the most rapid progress.
6. Practical business men who have themselves been employers, to train the students specially for office work and business life.
7. Students drawn from the best homes in the country and in the residential part of the city.
