Look This Square in the Face

LET a man ask you six months after you buy an I H C outfit, "Why are you using a cream separator?

Is it making money for you?" and the question will sound as sensible to you as though he had asked why you used a

binder. The outfit pictured above will give you more cream from your milk, saving from \$5 to \$15 per year for each cow you milk; separator skim milk, sweet, warm, and wholesome, will give you healthier, fatter pigs and calves, and this again means more milk and increased son fertility. Many more things an

IHC Cream Separator Dairymaid, Bluebell or Lily

will do for you. Then the one-horse power back-geared I H C engine will be your most efficient helper. It is mounted on a portable truck, is economical, steady and reliable. It will pump water, run a washing machine, churn, sausage grinder, grindstone, and do any other farm work to which its power can be applied. Each style has four sizes. See the local agents who handle these machines, and have them can be applied. Bach style has four sizes. See the local agents who handle these machines, and have them qualities, and efficiency to you, show you the close skinning qualities, and efficiency to you, also would not make the with you. They will give you catalogues and call information.

Dairy Awards at London

Dairy Awards at Lougon
This year the boys were out with a
good display of cheese at the Western
Fair, London. There was an increase
in quality, about 25 more cheese
shown, and according to the judges,
Hart, London; Wm. Grey, Stratford,
and J. Bristow, St. Thomas, the
quality was ahead of last year. The
June cheese were a fine lot. George
Purper serviced off two specials, one quality was ahead of last year. The June choese were a fine lot. George Empey carried off two specials, one offered by the Bank of British North America and a cup by A. M. Smith & Co., and several firsts. C. J. Don-nelly won the medal offered by the Heintzunan Co. It. will be remember-

Heintsman Co. It will be remembered that these exhibitors got the lion's share of the winnings at Toronto. The butter exhibit was somewhat disappointing, the number of entries not being as large as might be wished. The premium butter honors went to Quebec, T. W. Dunn & Son, Cowansville, winning both on 50-pound package and 50 pounds in prints. J. R. Almonte, Silverdale, upheld the honors for Ontario. The following are the awards in full:

He Visits His Patrons

One buttermaker has discovered a new method of making friends of his patrons. He visits different patrons in the afternoon and on Sundays, and in the afternoon and on Sundays, and he makes it a point to stay and help milk in the evening to stay and help milk in the evening to stay and the separate the milk and feed the call and he, of course, takes a special in terest in the way the cream is cared for, and if the methods employed don't suit him he has a friendly talk with the patron and better methods are suggested, and as he has already worked himself into the good graces of the whole family, he has little trouble in making them think as he does.

does.

The above might be a good suggestion for any buttermaker who has trouble getting the patrons bring good cream. It is a little trouben accurace, to get eaf to the different patrons, but for any one who has a horse or an automobile it can be done, and there can be no doubt that such work pays, and it will prove to be pleasant as well as profitable.—Ex.
