Sawyer & Massey Co., Limited
HAMILTON, CANADA

EMINENT AUTHORITIES

all agree that the finer the clinker is ground the better the cement. It costs more to grind 10 % finer than other brands, but
"WE DON'T CARE!"

"It is generally accepted that the coarser particles in cement are practically inert, and it is only the extremely fine powder that possesses adhesive or cementing qualities. The more finely cement is pulverized, all other conditions being the same, the more sand it will carry and produce a mortar of a given strength." Report of Committee on Uniform Tests of Cement, American Society of Civil Engineers.
