

Scorn the Cheap Product— Secure the Safe

When you send your order in to any Page branch, it's just as if you paid a personal visit to the big Page factory, except that you could then see with your own eyes how carefully we make fence.

Enormous output, modern methods, direct selling—that is the secret of why we can offer you fence that's properly made at prices little, if any, higher than that "cheap," defective fence that's dear at any price. Surely some of the hundreds of miles of Page Fence that has been stretched across Canada can be seen in your neighborhood. Find it, examine it, see how uniform are the spaces between the uprights, note how free it is from any suggestion of loose wires, how strong and rigid the locks, how staunch and true and tight it remains after years of service.

Orders should be mailed to the nearest Page branch: with cash, cheque, bank-draft or money order. We make immediate shipment, and pay freight if you order \$10.00 worth.

Farmer

Made in Canada

Monarch Gasoline Engines

1½ to 35 Horse Power

Grain Grinders, En-
silage Cutters, Saw
Frames and Pump
Jacks

1½ H.P. Horizontal Hopper Cooled

This engine built specially for small jobs around the farm and in connection with our intermediate pulley takes care of the churning, washing, pumping, etc. Being mounted it is easily moved from place to place.

Read this letter received by Canadian Engines, Limited, from their Eastern Sales Agents

The Frost & Wood Co., Ltd., St. John, N.B. Clifton, Gloucester, Co. N.B., Dec. 13th, 1915.

Dear Sir—In regard to the Monarch Engine purchased through you, I would like to say a few words as I may not have a chance again. I have used it two years now, and every day I run the machine I like it better. In fact I think it's the best thing I ever saw. I threshed six weeks this fall, and I just kept a record of its work for fun. In the six weeks I just made an average of 403 bushels a day, on an average of 2 gallons of gasoline a day, and the engine never missed an explosion in the six weeks. If this can be beat by any of the other makes of engines I am ready to eat my shirt.

I am entirely satisfied with the engine and would not take my money back to-day. You can publish this letter in any of your engine catalogues, and I am ready to prove what I said any old time.

Yours, (Sgd.) Jas. G. Powers, Clifton, N. B.

Good live agents wanted in unrepresented territory.

The milk in the pail the cow kicks over is lost forever

AND the butter-fat that goes into the can through the skim-milk spout of a cheap, inferior or worn-out cream separator is just as surely lost as the milk in the pail the cow kicked over.

If you are trying to get along without a cream separator; or with an inferior or worn-out machine, you are losing butter-fat right along and butter-fat is money.

Get Your DE LAVAL Now—Right Away

every day you use it it will be paying for itself out of its own saving.

If you haven't the spare cash right now that need not hinder your immediate purchase.

We have an arrangement with De Laval agents which makes it possible for any reputable farmer to secure a De Laval on the partial payment plan—a small payment at time of purchase and the balance in several installments, so that a De Laval really pays for itself while you are using it and getting the benefit from it.

Let the De Laval start saving cream for you right now while butter and cream prices are highest. See the nearest De Laval agent at once, or if you do not know him, write us direct for any desired information.
