THE VALUE OF CHARCOAL.

Few People Know How Useful it is in Preserving Health and Beauty.

Nearly everybody knows that charcoal is the safest and most efficient disinfectant and purifier in nature, but few realize its value when taken into the human system for the same cleansing purpose.

Charcoal is a remedy that the more you take of it the better; it is not a drug at all, but simply absorbs the gases and impurities always present in the stomach and intestines and carries them out of the system.

Charcoal sweetens the breath after smoking, drinking or after eating onions and other odorous vegetables.

Charcoal effectually clears and improves the complexion, it whitens the teeth and further acts as a natural and eminently safe cathartic.

It absorbs the injurious gases which collect in the stomach and bowels; it disinfects the mouth and throat from the poison of catarrh.

All druggists sell charcoal in one form or another, but probably the best charcoal and the most for the money is in Stuart's Absorbent Lozenges; they are composed of the finest powdered Willow charcoal, and other harmless antiseptics in tablet form, or, rather, in the form of large, pleasant-tasting lozenges, the charcoal being mixed with honey.

The daily use of these lozenges will soon tell in a much-improved condition of the general health, better complexions, sweeter breath and purer blood, and the beauty of it is, that no possible harm can result from their continued use, but on the contrary, great benefit.

A Buffalo physician, in speaking of the benefits of charcoal, says: "I advise Stuart's Absorbent Lozenges to all patients suffering from gas in stomach and bowels, and to clear the complexion and purify the breath, mouth and throat; I also believe the liver is greatly benefited by the daily use of them; they cost but twenty-five cents a box at drug stores, and although in some sense a patent preparation, yet I believe I get more and better charcoal in Stuart's Absorbent Lozenges than in any of the ordinary charcoal tablets."

GOSSIP.

A good sale of Aberdeen-Angus cattle was that from the herd of C. H. Gardner, at Dexter Park, Chicago, January 14th, when 16 bulls and 40 females brought \$15,605, or an average of \$278. The bulls averaged \$337. The two-year-old, Barbara's Rosegay, sold for \$2,000 to L. Van Winkle, of Michigan, and Imp. John of Morlich, a three-year-old, for \$1,200. Imp. Envy 2nd of Drumin and calf brought \$950, the highest price for a female. Two other cows brought \$800 each.

The splendid farm owned by Mr. Stephen Benson, of Neepawa, Man., is composed of rolling land of great fertility. As a wheat-yielding farm, it still possesses the maximum powers of production, for Mr. Benson applies the scientific principles of good husbandry to the working of his farm, and what he puts in crop is always well prepared. There are, hence, no crop failures with him. The farm buildings are situated on the slope of a hill, about one mile from the town of Neepawa, and close by the beautiful lake, which supplies the electric power to the town.

Mr. Benson has been highly fortunate in locating where he now lives, for we know of no spot more eminently suited to mixed farming in Manitoba. Such favorable conditions could hardly do otherwise than bring success, and this has been the proprietor's fortune, both as a farmer and as a breeder of pure-bred stock. With the splendid buildings, fitted as they are with every modern convenience, in which Mr. Benson keeps his stock, he is provided with every facility for maintaining his animals in the best of condition, and in that state they almost are invariably found. The "Advocate" field man, on a recent tour over the district, had the pleasure of visiting Mr. Benson's herd of Shorthorns, when every animal was found to be in good breeding condition. The herd is led by the bull, James Stamford Watt. He was bred by J. & W. B. Watt, got by Balmoral, and out of Salem Stamford. He has developed into a grand animal, long, deep, massive and smooth, and of the best of quality, and indications point to his becoming a good sire. Amongst the females of the herd were noticed: Princess Alice, by Brigadier Beresford, out of Prairie Beauty, by Knight (imp.). She is a fine, straight, deep, well-ribbed cow, smooth and a good handler. A three-year-old heifer out of her was sold a short time ago to Mr. Ritchie Johnson, Saskatoon, who intends to found a herd of Shorthorns, and in this heifer he has certainly made a good choice. Princess Matilda is a fine, promising two-year-old, by Victor of Halse, out of Princess Alice. Bertha o' Day, by Robbie o' Day, out of Bertha 11th, is a grand, massive, deep, smooth cow, showing a grand combination of constitution with good quality. Roan Lily, by Scottish Prince, out of Lily's Favorite, is a splendid young cow of the best of breeding; a half-sister of her's sold at Chicago for \$5,000. Duchess of Maitland 2nd, by Brigadier Beresford, out of Duchess of Maitland, is another choice individual, with a record as a breeder. A cow out of her, Duchess of Woodmere, was seen with a good bull calf at foot. She is got by Victor of Halse. Duchess of Woodmere 3rd is a choice two-year-old heifer, and a calf by her side is a young animal of great promise. Little Duchess is a very sweet heifer, by Red Diamond, out of Duchess of Maitland. Lily White is a massive, smooth cow, by Robbie o' Day, out of Lily Gray, she by Manitoba Chief. Several young animals of both sexes are in the herd, and intending purchasers could not find a better lot to select from.

Mr. Benson has also a stud of choice, registered Clydesdale mares, amongst which was noticed: Princess Lonia, by MacClinker, out of Princess Letitia, Marguerite, by MacToper, out of Cherry Bird. These are a pair of splendid, clean-boned, free-moving mares with lots of constitution.

In Mr. Benson's herd of Yorkshire swine are to be found some very superior animals, and buyers by mail can depend upon getting nothing but the best. His flock of Barred Plymouth Rock fowls have also distinguished themselves in the showyard, and altogether Mr. Benson's success has been general in all the many branches of industry in which he has engaged.
