

# Free Trial Until Cured

**My offer to all who lack Strength and Vigor, who have Rheumatism, Lumbago, Sciatica, Lamé Back, etc., is:— Use my Invention until Cured, then pay me. I ask not one Penny in advance or on deposit.**

A man in good, vigorous health is full of electricity. The eye and brain sparkles with it, and his nerves and muscles are strong and elastic as steel. He is successful in business or his occupation, and his wit and general good nature makes him sought after by all. Could electricity be seen he would appear as in the illustration—emanating "something" you instantly feel as you approach him. This "something" is simply his natural electricity. We call such men "magnetic." Are you one? If not, don't you want to become one? During 40 years' practice in Electricity I have aided more than a hundred thousand to become so. Men have come to me broken down from overwork, worry, or abuse of nature's laws, having exhausted all medical and drug treatments and apparently past aid, suffering tortures from Nervousness, Exhaustion, Varicocele, Rheumatism, Lumbago, Sciatica, Lamé Back, Wrecked Stomach, etc., and even these I have helped to regain their health and strength—made them men like the above. I can do the same for any man who will use my invention, and who is not too far gone for help.

## I Cure you before you pay me One Penny

My treatment is very simple. I use Electricity as given by my famous Dr. Sanden Electric, Herculex Body-Battery (latest patent, Mar. 7, 1905). Worn only during time you sleep, it fills your body full of the soothing, strengthening current, and in the morning you awake full of life and vigor, prepared to face the world however you find it. Two months' use generally cures the worst cases. Use the Herculex for that length of time, and if you are well, pay me. If not, return it—price when cured from \$5 up. Liberal discount if you pay cash for it.

As the originator and founder of the Electric Body-Battery system of treatment, my 40 years' success is the envy of many, and my Herculex is, of course, imitated (what good thing is not?), but my great knowledge to advise and direct my patients is mine alone and cannot be imitated. It is given free to all who use my invention until the cure is complete. My Herculex is guaranteed to give a current instantly felt, or I forfeit \$5,000, and to last for at least one year.

Call or send for my Electric Herculex to-day, or if you want to look into the matter further, I have two of the best little books ever written on electricity and its medical uses, which I send free, sealed, upon request.

### QUESTIONS AND ANSWERS. Legal.

#### DISCHARGING MAN.

If a man hires with a farmer for 12 months at so much a year, and he does his duty, can he get his 12 months' wages if he gets discharged before the year is up? W. P. Man.

Ans.—Unless the man was discharged for a good cause, the farmer is liable.

#### THRESHING AGREEMENT BROKEN.

A agrees to thresh for B after he gets C's job completed, but does not come for three weeks after C's threshing is completed.

1. Is A liable for damages for not fulfilling his promise, there being no consideration?

2. Was there a case of this nature in court in Manitoba? If so, what was the result? W. J. T. Man.

Ans.—1. No. 2. No.

#### NOTE FOR MACHINERY.

A bought some machinery from B in 1897 and paid a certain amount in money down; for the rest, A gave a lien note. A did not meet payment, and told B to take the machinery back. B sold machinery, but the amount did not cover the note. A has not lived in the district where the note was given, for years. What can A do to get his money? How long does it take a lien note to become outlawed? How often should it be renewed? F. T. Sask.

Ans.—The lien note would outlaw in six years from the last voluntary payment, but could have been renewed as often as the party holding it had wished.

#### DISCHARGING MAN.

A hires B in the spring for \$10 per month, until work ceases in the fall. At threshing time, A tells all his men that his two sons, E and H (engineer and separator man), shall manage the threshing outfit, and that they are to get their directions from them. E tells B to bring in stooks from one side of machine with intent for moving. B absolutely refuses to go for stooks, which had been left by the teams. E tells B to get stooks or leave. B goes on pitching in another part of field till H goes again and tells B to get the stooks. B refuses to go for them, goes home, and sees A, saying that he is willing to do anything A may ask, but protesting against obeying E, who, though not a minor, works at home.

1. Does a son have any authority over men whom his father has hired?

2. Would it make any difference about the son's age, or whether he were still at home?

3. Please advise what would be the best course for the son to pursue in case he were at fault; also whether an absolute refusal to do a piece of work is sufficient to discharge an employee hired by the month. EMPLOYER. Man.

Ans.—The son would have authority over the men, if he were given so by his father.

2. No.

3. Make an explanation to the man, but in this case he was within his right, and when the man refused to obey, had good grounds for discharging him.

#### Miscellaneous.

##### BOOK ON ANIMAL DISEASES.

Can you recommend a good book on horses, and their ailments and cures? E. C.

Ans.—Veterinary Elements, price \$1.50, through this office, treats of the diseases of all domestic animals in language easily understood by a non-professional.

##### TREATING SKINS.

How is the best way to stretch a mink skin on a long, straight board, or should it be tapered at one end? What is a good skin warmer? G. H. Killarney, Man.

Ans.—Make a board of such size and shape that it will stretch the skin. We would advise anyone having furs for sale to get and give some items advertising in this journal.
