THE POWERS
Well Boring and Drilling Machine

Bores 100 ft. in 10 hrs. For solid rock a drill attachment is used, the speed then depending on the rock formation. A team of horses easily pulls it over the roughest road, and also furnishes the power to operate. One man runs the entire machine;—the tools drop through center of platform, and it rotates its own drill. 18 years use have proven this the lightest draft, most convenient and easiest to operate of any machine sold. Easy terms. Write for catalogue H.

LISLE MFG. CO., Box 29, Clarinda Iowa, U. S. A.

We Own 80,000 Acres of the **Best Wheat Land** in Western Canada.

Prices from \$7.00 per Acre up.

Don't you think the material used in an Automobile crank axle ought to be about the **Strongest, Toughest Material known?**

Well, we are using the same material, nickel steel, in the blades of our

AUTOMOBILE SKATES

that we use in the crank axles of our Russell Automobiles.

Speaks pretty well for the skate, don't you think? It is considerably more expensive than ordinary steel and our profits are reduced thereby, but this doesn't count while we are establishing a reputation.

If your dealer does not handle our **Automobile and Cycle Skates**, send for our free catalogue.
