Gold Dust Corn Meal

A Kiln-Dried, Canadian, Corn Meal that competes in quality with the best Corn Meal of **any** country. Very free from bran—a rich, golden yellow, because only the finest, **pure yellow** Corn is used in making it. Its grains are evenly cut. It won't "go Sour," because Kiln-Drying prevents heating and a consequent decay. We would like to send you samples of "Gold Dust." The **price** is reasonable for the high quality of the Corn Meal. It is **Kiln-Dried**—please remember that.
