## COLMAN'S MUSTARD

**BEST ON EARTH**

### Gold Dust Corn Meal

is as ever—the one Corn Meal that never varies from the high standard of general excellence that has made it famous. Kiln-dried to ensure its keeping sweet and fresh—clean, down to the last pound in the barrel—evenly cut grains—a golden yellow color, **always**.

You won't confuse it with Corn Flour because there is very little bran in it—it is a **finely granulated meal**. It is always **meal** and never **flour**. Let us send you samples of it.
