**Cattle**  
Cattle prices took a jump last week of a clean twenty-five cents per cwt. The general run was of even poorer quality than the previous week's, but there were a few good shipments and those caught the highest price for some time, viz., \$6.50 per cwt. Several shipments went above the six dollar mark. The bulk of the grain fed cattle seem to have been marketed and any that remain in the country will catch high prices. This season has been a disappointing one in many respects, but not to the man who fed good cattle and finished them well before sending them to the market. While some really good cattle have arrived, the larger part of the runs were composed of very common animals. The whole number marketed, both high and low quality, would not total half of last season's spring run. Then weekly receipts ran from a thousand to fifteen hundred head and a couple of weeks went to the two thousand mark. This season offers a marked contrast, the largest weekly run being under a thousand head and most of the runs going below the five hundred mark. This bears out the Guide's pre-season estimates as to the size of the spring runs and the prices paid have, as the Guide predicted, been well above the previous season. There has been considerable Eastern beef shipped in but in spite of this the price paid for beefs has continually been maintained at a high level. There is little likelihood that there will be any general reduction in prices until grasses come in large numbers. Taking it all around it certainly has been a most satisfactory season for the man who has good cattle to send to the show. Choice milkers and springers are in good demand but there is little enquiry for under-sized and common cows. Choice veal calves are in good demand at last week's prices.

Cattle prices quoted are:

Best butcher steers	\$6.00 to \$6.50
Fair to good butcher steers and heifers	5.50 " 6.00
Common to medium butcher steers and heifers	5.00 " 5.25
Good fat cows	5.25 " 5.75
Medium cows	4.00 " 4.75
Best bulls	4.35 " 4.90
Common to medium bulls	3.50 " 4.00
Canners	3.25 " 3.75
Choice veal calves	5.50 " 6.00
Heavy calves	3.50 " 4.50
Good to choice milkers and springers (per head)	40.00 " 60.00
Common to medium milkers and springers (per head)	25.00 " 35.00

**Hogs**  
Last week's run of porkers went above the two thousand mark, but in spite of this, the price paid for top quality hogs was up twenty-five cents per cwt over the previous week, choice animals selling at \$7.00. Packers are inclined to cut heavily on roughs and stags and also on light pigs. Hog prices quoted are:

Choice hogs	\$6.75
Rough sows	\$5.00 to 5.75
Stags	4.00 " 4.75

**Sheep and Lambs**  
There is no change in the sheep and lamb market. Good animals are in good demand at last week's prices, as follows:

Choice lambs	\$5.25 to \$5.75
Choice killing sheep	4.75 " 5.25

### Country Produce

**Butter**  
Abundant shipments of creamy butter, the result of grass getting into good shape, have lowered the price of that commodity, and this adjustment has lowered the price of choice dairy which is down one to three cents from last week. All city creameries are selling creamery at a reduction from a week ago. The chances are that there will be still further lowering of prices for both classes of butter. Dealers quote the following prices, Loc., Winnipeg:

Fancy Dairy	19c.
No. 1 Dairy	17c.
Good round lots, without culfs or mold	12c.

**Eggs**  
Dealers have been paying the eighteen cent price during the past week, but starting June 1 there will be a reduction. All outside contracts will be filled by that date and large shipments will be pressing on the market. Dealers state that, during June, July and August the price will be from three to four cents lower than at present. This does not mean that there will be a sudden drop of this amount, but that the price will gradually work to the level mentioned.

**Potatoes**  
Price offered for old potatoes still hang at the 70 to 75 cent mark, but there will be a lowering within the next couple of weeks. It will be advisable to get shipments in within that time. Dealers are now laying down new spuds here for \$1.35 a bushel and the price is constantly lowering. As soon as it reaches a level where new potatoes will be available for general consumption, old tubers will drop.

**CREAM**  
Supplies of sweet cream are much larger than a week ago and city creameries report that they now have a fair supply. However, there has been no reduction in prices offered. Sour cream is down two cents.

Prices offered are:

Sweet cream, per lb. of butter fat	31c.
Cream for butter making purposes, per lb. of butter fat	20c.

**Hay**  
The wet weather has put a crimp into hay deliveries and there is practically nothing coming in. The result is that prices are up a full three dollars per ton. However, it is not probable that these prices will hold for long, and any farmer who wants to get in on them had better get his shipment in a hurry. Prices quoted per ton on track, Winnipeg, are:

<b>Wild Hay</b>	
No. 1	\$18.00
No. 2	17.00
No. 3	15.00
<b>Timothy</b>	
No. 1	\$20.00
No. 2	18.00

### WINNIPEG FUTURES

### MONTREAL LIVE STOCK

Montreal, May 29. Receipts at the C. P. R. east end market were—300 cattle, 25 sheep and lambs, 149 hogs, and 109 calves. Cattle prices were steady under a fair trade, some choice stock selling up to \$6.40, though the general run for good stock was from \$6.00 to \$6.45, fairly good at \$5.50 to \$5.75, fair, \$5.00 to \$5.25, common, \$4.50 to \$4.75; cows, \$5.75 to \$5.50; bulls, \$3.50 to \$3.50.

Prices on sheep and lambs were easy at the decline, the former selling at \$4.00 to \$3.00 each, and lambs \$3.00 to \$4.00 each.

Calves brought from \$2.00 to \$6.00.

Receipts at the west end market were—500 cattle, 500 sheep and lambs, 1,000 hogs, and 520 calves. Prices were on a par with east end quotations.

### BRITISH LIVE STOCK

Liverpool, May 28.—John Rogers & Co. state today that with the continuance of very hot weather trade was very slow in the Berkshire market, but Saturday's quotations remained unaltered.

States and Canadian steers, made from 12 1/2 to 15 cents.

Lambs 14 cents and wethers 11 1/2 to 14 cents per pound.

Glasgow, May 29.—Edward Watson & Ritchie report 414 cattle on offer. Trade was similar to last week and prices for heavy steers and bulls lower owing to warm weather.

Steers, heavyweights, 12 1/2.

Lighter weights 13 cents to 13 1/2 cents.

Bulls 10 to 10 1/2 cents per lb.

### How Cement Merger was Formed

Continued from Page 17

appealing for an investigation. I am free to say, however, that his efforts were fruitless, except to convince me more strongly than before that I would be lacking in my duty and would greatly err if I ceased to press for a thorough enquiry.

"These are the broad facts as they are presented to me, and after long waiting, as I have mentioned, I have received nothing to controvert the opinions I have formed. The facts taken together go to show that while Mr. Aitken was one of the three provisional directors of the Canada Cement Company, he was at the same time intimately associated with, indeed he was the controlling spirit of, the Bond and Share Company; thus establishing a close fiduciary relationship between the two companies. My views may have no weight, but I must be pardoned for holding them, since they are based on the opinions of excellent legal authorities (unless the essential facts be set aside). As none of the facts have been controverted, a strong sense of public duty compels me to say that in consequence of the fiduciary relationship to which I have referred, the Bond and Share Company should be called upon to return to the Canada Cement Company the over-issued securities, or otherwise account for the profit it has made in the transaction.

"A rough estimate goes to show that possibly more than twelve million dollars of the securities of the Canada Cement Company have been over-issued to the Bond and Share Company. It is obvious that the restitution of the whole or any considerable portion of that amount would enormously strengthen the Cement company."

### MR. BORDEN'S TOUR

Continued from Page 18

our branches to so much expense. This, however, is to be regretted owing to the changed circumstances produced by the situation in reference to the reciprocity agreement and the expressed purpose on the part of the Opposition to prevent the ratification of the agreement by parliament. Also the pronounced stand taken by the special interests in opposition to the agreement, avowedly for the expressed purpose of nipping in the bud any tendency toward a reduction of customs duties, requires that the farmers of Canada should, in no uncertain sound, make their views on the trade question known to the leader of the Opposition. Much depends on what opinion Mr. Borden forms as to the intent of the farmers in this regard.
