Europe is practically the only thing that may assure sufficient seeds for next spring to prevent exorbitant prices. Most of the seeds reach America during the winter, especially between November and February. Altho much traffic may cross the Atlantic in the months to come, with Germany blockaded and her commerce destroyed, there is a chance that America will have an opportunity to raise her own seeds.

WINNIPEG FAIR CLYDESDALE FUTURITIES

The Clydesdale Futurities inaugurated last year by the Canadian Industrial Exhibition Association proved an attraction of extraordinary interest to the multitude of Westerners who maintain that there is nothing in the domain of heavy-draft horsemanship to compare with this famous breed, and the showing at the exhibition in July last was looked forward to with keen anticipation throughout the West as promising to be a star feature of the big Western fair. These expectations were fully met.

As a new enterprise, the Clydesdale Futurity was a pronounced success. Twenty-six foals were entered in the two events, eight stallions and eighteen fillies, and flattering in the extreme were the encomiums passed on this collection of magnificent young blood, not only by the judges, but by the assembled horsemen and the stock experts of the various publications represented on the fair grounds. The winning colts were among the best exponents of the breed, type and quality both considered, ever shown in Canada. The following carried off the honors:

Stallions: 1, "Sweetheart's Pride," J. I. Miller, Myrtle, Man.; 2, "Count Ideal," A. Graham, Pomeroy, Man.; 3, "Legal Count," A. Graham, Pomeroy, Man.; 4, "Special Merit," W. H. Galbraith, Hartney, Man. Fillies: 1, "Pearl Guide," J. E. Martin, Condie, Sask.; 2, "Nina of Maple Grove," D. Little, Portage la Prairie, Man.; 3, "Dunne Lodge Lady Marcellus," R. H. Bryce, St. Charles, Man.; 4, "Middleton's Jewel," F. Brook, Elgin, Man.; 5, "Rosy Lee," W. H. Galbraith, Hartney, Man.; 6, "Baroness Arely," T. Zachary, Austin, Man.

The special prizes, of which a number were offered by men interested in the breed, were awarded as follows: Gold medal for best stallion, offered by W. Grant, Regina, Sask., to J. I. Miller, Myrtle, Man.; cash prize of \$15 offered by W. J. McCollum, Brampton, Ont., for best lot of stallions, to Andrew Graham, Pomeroy, Man.; cash prize of \$10 offered by W. J. McCollum, Brampton, Ont., for best lot of fillies, to J. E. Martin, Condie, Sask.; gold watch offered by the Stovel Company, Winnipeg, for the best filly, to J. E. Martin, Condie, Sask.

The exhibition management put on the Clydesdale Futurities with a view to stimulating the breeding of a superior class of heavy draft horses thruout Western Canada and to make it an object for breeders to take better care of their young stock, especially during the winter season. The result has amply justified the experiment, and the board of directors announces that it has decided to continue this feature for another year. The prize money amounts to some \$500. Entries will be accepted from now until the 1st of November, for foals of 1914, to be shown at the exhibition of 1915. Full information may be obtained by addressing A. W. Bell, secretary of the Canadian Industrial Exhibition Association, Chambers of Commerce, Winnipeg.

THE FARMERS' DUTY

Ottawa, Sept. 21.—The Agricultural Gazette, the official organ of the agricultural department, contains another stirring appeal to the farmers of Canada from Hon. Martin Burrell, department of agriculture, to raise foodstuffs. The minister says:

"Approximately twenty million men have been mobilized in Europe. A large proportion of these have been withdrawn from the farms. Even in neutral countries large numbers of food producers have been called from the land to be ready for emergencies. It

is difficult for us to realize what will be the effect on food production thru the withdrawal of several million men from all the great agricultural countries of Europe. These millions cease to be producers, they have become consumers; worse still, they have become destroyers of food.

Must Have Food

"The area to be sown to wheat and rye this fall in Europe will be seriously reduced. Should the war continue into the summer of next year, the food production in Europe cannot approach that of normal years. Looking at the situation in even its most favorable light there will be in 1915 a demand for food that the world will find great difficulty in supplying. Canada is responding promptly to the call of the motherland for men and equipment. Britain needs more than men, she must have food—food this year and next. We are sending our surplus now. We should prepare for the larger surplus next year. The government is strongly impressed with the desirability of increasing the crop acreage in Canada. Growers of fall wheat should endeavor to increase their sowing. The Canadian farmer, earnestly bending all his energies to increase the food supply for the Britisher at home and the British soldiers at the front, is doing his share in the gigantic struggle of the Empire.

Doing Duty to Empire

"Apart from the practical certainty that wheat and other foods next year will yield large financial returns to the producer, there is the great fact that the Canadian farmers, who, by extra effort enlarge their wheat and other crop acreages and increase their livestock products, will be doing the best thing possible to strengthen the empire in its day of trial."
