

A COLORED NOTICE

A colored notice in this issue of The Guide shows that your renewal is due. The editors hope that you have enjoyed reading The Guide and that you will send \$1.50 for your renewal at once. A blank coupon and addressed envelope are enclosed for your convenience.

Several weeks' notice is given so that subscribers will have time to send in their renewals, thus not missing any issues. Back numbers of The Guide cannot be supplied.

When requesting a change of address, subscribers should give the old as well as the new E.O. address.

The Yellow address label on The Guide shows to what time your subscription is paid. No other receipt is issued.

Renewances should be made direct to The Guide, either by registered letter, postal bank, or express money order.

THE GUIDE POST

The military authorities have issued a statement regarding the operation of the Military Service Act of 1917. It appears on page 4 of this issue and contains the regulations regarding the calling of men 19 and 20 years of age, harvest leave, leave of absence on account of extreme hardship, and procedure to obtain leave of absence. This statement should be read by everyone, especially those who have been left short-handed owing to the operations of the act.

The International Farm Congress and Soil Products Exposition will be held in Kansas City, Missouri, from October 16 to 26. The information that has come to hand to date regarding this big world's fair for farmers is summarized on page 19. The event promises to equal or eclipse any former exposition. A considerable number of farmers have written to The Guide from time to time asking for information regarding the International. This indicates that Western Canada will be well represented at the fair this year. The Guide will keep its readers fully informed of the progress that is being made in preparation for the big event.

Two weeks ago we published the first installment of Professor Bracken's article on Dry Farming. Last week our Tenth Anniversary number came out and the space was all occupied by special articles. The second installment of Professor Bracken's article was therefore held over and appears in this week's issue.

The Guide circulation has now passed

the 40,000 mark. The rapid increase in the membership of the associations has been reflected in our subscription list. Every new member should be impressed with the necessity of being a subscriber to the organized farmers' own paper. The anniversary number alone furnishes a liberal education in the history, achievements and aims of the farmers' organized activities.

The Saskatchewan G.O.A. membership has now reached the splendid total of over 40,000. About 100 locals have been formed since January 1 of this year. The campaigns are going splendidly. New members are signing up rapidly and new clubs being formed almost every day. Things are on the move in Saskatchewan.

The Guide held its annual picnic on Wednesday of last week. The place selected was Belkirk, where a natural elm grove of great beauty, accessible from Winnipeg by electric cars serves as an ideal picnic ground. The day was a perfect one. A program of sports, including games and races, was thoroughly enjoyed. Like all such annual events that are being held these days, however, the absence of some who have attended in the past served to bring some to us the drain on our young manhood which the war is making.

Dominion Day falling on Monday of this week and being therefore a holiday, it was necessary to close the forms of this issue on Saturday. For this reason the market reports are incomplete; as the weekly market reports do not reach The Guide office until Monday.

I've Forgotten!

Sometimes you forget the name of some advertiser to whom you were going to write. If it's something we should know, write us and we will try and give you the information. Our business is to know.

Put It Up to the Men Who Know

The Advertising Service Department of The Guide is at the free disposal of its readers in the following ways: To furnish the name and address of any advertiser or any other firm with whom you wish to communicate; to have any advertiser or group of firms place his or their literature in your hands without other cost than writing us asking that this be done; to tell you where you can get repairs for any machine you are using; to give you the names and addresses of, or to see that you are supplied with information from, all firms in any line or lines in which you may be interested. In writing us, please write your name and address plainly and state definitely and clearly exactly what you want us to do. Many subscribers do not get replies to their letters because they do not sign their names. Address your letter to

"GETSEMALL"

A Gopher destroyed is a Bushel of Wheat Saved

"GETSEMALL" is the Grain growers' own Gopher Poison; not made for profit but made to kill Gophers.

Favorable reports are coming in from many quarters saying "GETSEMALL" is giving excellent results.

For instance, after testing "GETSEMALL" and another well-known poison, distributed by the municipality, one farmer returned two packets of the other poison and exchanged them for "GETSEMALL."

From another point, the local secretary reports better results from "GETSEMALL" than any other poison.
