

The Farmers' Market

Office of the United Grain Growers Limited, Winnipeg, October 7, 1918.

OATS—Price levels in the local market have varied very little during the week ending October 5th. Prices for American corn declined considerably on account of heavy receipts and developments in the war situation, but receipts in our market have not yet reached any great volume. At the close on Saturday, October delivery was a quarter-of-a-cent down and December delivery 11 cent down from the previous week's closing prices.

BARLEY—Receipts have been very liberal, and the demand has been indifferent, so that prices have sagged several cents. Offerings are not as heavy as the car receipts might warrant, indicating a tendency of shippers to hold for higher prices.

FLAX—Local movement is very light but receipts in the United States markets are heavy, and prices have worked lower. Winnipeg cash values are 15 cents lower than a week ago, and October delivery 10 cents lower.

the result that the yards are cleaned up, and unless an extraordinary run prevails next week, we look for a better tone to the market and would advise shipping soon so as to avoid the rush that is sure to occur the first general snow fall. The hog market is steady with an exceptionally light run. There is a good demand at present for good young breeding ewes and those having that class of stock for sale would do well to ship them now.

The following is a summary of prevailing prices at present, and with a moderate run we look for prices to be slightly higher for all good grades.

CALGARY

Calgary, Sept. 28.—The Livestock Department of the United Grain Growers Limited report this week's receipts as follows: Horses, 296; cattle, 6,206; hogs, 1,294; sheep, 1,942. Receipts for the corresponding week last year were: Horses, 300; cattle, 3,344; hogs, 554; sheep, 1,287.

There were heavy receipts of cattle at the Calgary yards this week, considerable number of which were good beef and the good steers heavy enough for government war contracts were readily taken, but prices were lower. We realized 14 cents on one choice steer and 13 cents on a number of others, but the bulk of the best brought from \$12.00 to \$12.50. We would quote choice heavy steers \$12.25 to \$13.00, medium to good steers \$11.25 to \$12.00 and good light killers of quality from \$9.50 to \$10.75. Fat cows and heifers sold fully 75 cents lower and \$8.00 to \$8.25 will get the best medium cows \$7.00 to \$7.50 and common \$6.25 to \$6.75. Canners were bought in large numbers at \$5.00 to \$5.75.

With a good many nice young cows turned in at this price. Bulls and oxen were not in as good demand, with tops \$7.00 to \$7.75 and mediums \$6.00 to \$7.00 for bulls and \$8.00 the best price for oxen. The stocker trade was brisker, \$9.00 to \$10.00 being paid for good steers 900 pounds and up and \$8.25 to \$8.75 for lighter weights. Yearling steers at \$7.25 to \$8.00 and yearling heifers \$7.00 to \$7.50 were the prevailing prices in this class of stuff and stock cows and heifers from \$6.00 to \$7.00. Veal held about steady. Some choice fat calves of medium weight selling up to 10 cents with the bulk from \$8.00 to \$9.00.

Hogs were lower and with only \$19.50 bid on Thursday no sales were made and practically the entire week's run turned on Friday.

Sheep receipts were light with a weak demand. We quote choice fat lambs \$13.00 to \$13.50; wethers \$12.00 to \$12.50; and fat ewes \$10.00 to \$11.00.

The market this week showed a decline, this being especially noticeable in the cow stuff. The limitation the government has placed on the amount of cow beef they will accept in war contracts is undoubtedly responsible for this situation and cows are selling fully \$4.50 per 100 pounds lower than steers. Shippers are continuing to send in heavy consignments of light cattle and this especially applies to off-colored and common cattle for which there is really no demand. The fall run of Co-operative shipments are beginning to come in.

EDMONTON

The Markets Investigation Division of the Dominion Livestock Branch, in its report for the week ending October 3, reports that the record run of cattle in Edmonton made a few weeks ago was outnumbered during the week when 2,613 head were received at the yards. Notwithstanding that most of the stock consisted of cows and stockers, the market held fairly steady, many farmers from Saskatchewan and northern Alberta making purchases of stock to turn on stubble after harvesting and threshing before the winter feeding period. Prices on all classes of eastern markets. Many shipments of cows and light beef steers were made to Winnipeg in order to prevent congestion. Twelve steers from Viking, Alberta, sold at \$13.25; two steers from Bruce, Alberta, averaging 1,170 pounds, realized \$13; four from Killam, Alberta, averaging 1,230 pounds sold at \$13; and six from Wetaskiwin, averaging 1,155, sold at slightly lower prices. Only a few choice cows sold as high as \$9.00 per hundred.

Seven hundred and eighty-nine sheep were received, but most of these were on through billing. Prices remained steady. Seventeen lambs averaging 95 pounds sold at \$13 per hundred. A strong inquiry was evident for breeding ewes, but few were received for sale.

Only 440 hogs were received. Selects sold steady at \$18.75 per hundred, fed and watered, and were mostly purchased by Moose Jaw packing houses. Small runs are expected until new grain-finished hogs are marketed.

TORONTO

The Markets Investigation Division of the Dominion Livestock Branch reports that cattle prices received a rather severe set back at Toronto during the week ending October 3, and the 10,000 head on sale met with a slow demand at prices ruling lower than all grades of cattle. Attracted by the high prices paid for choice cattle the previous week, the week's offerings included many loads of good heavy steers; these proved to be very slow sellers. The quotations were perhaps about 50 cents lower on Monday followed by a further decline of 25 cents on Tuesday and Wednesday, and many loads of heavy cattle that were in the pens Monday remained unsold until Wednesday and Thursday. One load for which \$14.50 was the top bid on Monday, while a bid of only \$13.50 on Thursday, while another load for which \$13.50 was bid on Monday, sold on Thursday at \$12.50; these sales are a fair indication of the extent of the decline in prices. Medium cattle suffered more severely than did choice killers, and with Buffalo prices also ruling lower export outlet was closed and drovers had no alternative but to accept the reduction. The hopeful war situation undoubtedly affected the prices adversely, and this, coupled with heavy deliveries of cattle from Western Canada to local abattoirs, sent the prices tumbling downward. Further heavy shipments of Western cattle are anticipated during the next few weeks, and it is doubtful if prices will recover much before next December. Stockers and feeders were in good demand, and total shipments to Ontario farmers for the week will probably reach 1,800 head or within 200 of the previous week's shipments. A nice load of western yearling heifers of about 700 pounds each sold at \$8.50. Lambs suffered a decline about equal to that of cattle. Breeding sheep are selling from \$14.50 to \$16.50 per hundred or almost equal to the lambs. They are meeting a fair inquiry at this range.

Hog prices remain somewhat irregular comparing fed and watered prices and f.o.b. prices country points. The fed and watered quotation given out this week was \$19.25, while a few decks went to local butchers at \$19.50. Hogs continue to be bought f.o.b. in the country at prices about equal to that of fed and watered stock. The buyers endeavour to overcome this in certain instances by buying loads at a flat figure, allowing sows and heavies to grade in with selects.
